JEEP®-TRUCK-SUV-OFFROAD

MASTER CATALOG

PERFORMANCE PARTS - ACCESSORIES - REPLACEMENT PARTS

OWN A JEEP?

The toughest four letter word on wheels. Are you looking for a parts source rugged enough to match your off the beaten path sense of adventure? With more than 15,000 unique part numbers from brands like Omix-ADA®, Rugged Ridge®, Alloy USA®, Outland Automotive®, ORV™ Suspension and Precision Gear®, consider this your trail guide to the 4x4 of your dreams. A go anywhere, anytime, in any weather vehicle. Go ahead and smile, because it's going to take a lot of courage not to be cocky when you own a Jeep® like that.

WHO WE ARE

Omix-ADA, Inc.® is more than just a parts manufacturer, we're a community of enthusiasts dedicated to producing the finest in off road solutions. Our products have been propelling four-wheel drive vehicles down highways, back roads and over the world's roughest terrain for over a decade. Omix-ADA's® team of engineers have developed, tested and trail ridden thousands of new products until they were perfected for you.

AWARD WINNING DESIGNS

More than 2,500 new products are displayed at the SEMA Show every year. Groups of journalists and industry experts are charged with the task of judging the most innovative new products introduced into the automotive industry. Omix-ADA® emerged as one of the most decorated companies in the off road sector, and has won numerous awards over the years. The legacy still continues.

LICENSED PARTS

Why have we put so much time and energy into developing the most expansive collection of Jeep® parts available under one roof? Because the items bearing our logo are more than just parts, they are built with a legacy and heritage in mind. This is why we have been authorized to use the "MOPAR Authentic Restoration" and "MOPAR Official Licensed Product" logos for the more than 30 licensed parts we produce. We take pride in being one of the few manufacturers strong enough to stand behind the legendary Jeep® name.

THE OMIX-ADA® BRANDS

OMIX-ADA, Inc.

COASTAL CRUISER

The Coastal Cruiser package by Rugged Ridge® is ideal for the beach and water lover. The package will fit your lifestyle to make everyday an adventure. The items selected that complete the Coastal Cruiser package are not just stylish but also functional. So when the weekend comes take the top down and turn the tunes up, load the cooler and take in that warm summer breeze and smell the fresh coastal air. You now can make every ride feel like you're on vacation if you're at the creek or on the beach.

ROCK RUGGED

Rugged Ridge® knows rugged and we know how to rock your Jeep®. The Rock Rugged package by Rugged Ridge® has all the tools that can take your rig where no one else can. The stylish look and the functionality from the interior to the winch will allow you to make your Jeep® look good and dominate the trails. So if you want a ride that will take you off-road beyond the muddy trails. Make sure your rig is equipped with the Rock Rugged package by Rugged Ridge®, for the serious off-road enthusiast.

TRAIL DUSTER

Now a complete package that can make your everyday driver look good and have the attitude to take you where you want to go. The Trail Duster package by Rugged Ridge® allows you to have the best of both worlds. Now you have the flexibility and the look to do what you want when you want. The Trail Duster will get you to work or through the toughest trails. Don't be left behind, take pride in your ride with the Trail Duster package by Rugged Ridge®.

LOW LANDER

When the urban dweller needs to put a little bling on their ride. The Low Lander package by Rugged Ridge® gives you the look from the exterior chrome to the interior trim. The low Lander package will give you the style and individuality you're looking for. The Low Lander package will make your rig look like it belongs in a show but has the functionality to fit your personal lifestyle.

WEEKEND WILD

Pack the cooler and the tent, throw the bike on the back because the weekend is here. The Weekend Wild package by Rugged Ridge® is built for the weekends. Now when Friday comes your rig can take you places that your boss can't go. From the highway to the byways from 65mph to 10mph your rig will take you where you want to go so you can kick back and enjoy some well deserved R&R with your friends when you put your Jeep® in low gear with the Weekend Wild package by Rugged Ridge®.

COASTAL CRUISER

The Coastal Cruiser package by Rugged Ridge® is ideal for the beach and water lover. The package will fit your lifestyle to make everyday an adventure. The items selected that complete the Coastal Cruiser package are not just stylish but also functional.

XHD MODULAR BUMPER SYSTEM

THE MOST ADVANCED, TOUGHEST, MOST FLEXIBLE BUMPER SYSTEM EVER CREATED!

It's over 100 bumpers in one! You won't find a more versatile bumper system. Go from hardcore to street savvy with just a few hand tools.

Wrangler-07-12

Winch Mount Base - 11540.10
Hoop Over-Rider - 11540.14
Stubby Ends - 11540.23

No other bumper can give your Jeep® this many looks. Modular design provides dozens of different looks and styles. You can build the exact bumper of your choice! Custom designed for the 2007-2012 Jeep® Wranglers, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coated steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look.

XHD TUBE ENDS

Add tube ends to your XHD bumper for added protection and a classic OE look! XHD Tube Ends offer wraparound protection and added clearance for oversized tires. Available in either textured black powder coat or polished 304 stainless steel for a long lasting durable finish.

XHD STORAGE ENDS

NEW!

11540.22
Storage Ends,
Black

Looking for an easily accessible yet secure storage solution for your Wrangler? XHD Storage Ends from Rugged Ridge® turn your bumper into a stylish watertight storage vault. The XHD Storage ends are a great place to stow recovery gear and other valuables. Beefy steel construction, a watertight seal, and lockable lid helps keep mud and water out and your gear in.

* Includes Stainless D-Rings ** Will not work with Warn Power Plant Winch.

Note: XHD Modular Bumper Components Do Not Interchange With XHD Aluminum Bumper Components

XHD ALUMINUM BUMPER SYSTEM

Designed to be a whole new look while being extremely light weight. Save on fuel and the need for front suspension spacers. The Bumper is all Aluminum but uses the current steel XHD D-rings. Each bumper comes with a built in top filler plate. Each new XHD has cutouts and mounting points for the factory fog lights and a great looking "Jeep® Style" front slat look that will make this bumper stand out. If you want to run a winch, simply remove the filler plate and attach the optional JK Winch mounting plate [Steel Plate]. The XHD Aluminum bumper is approximately 80lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings.**

Available Components:

- Aluminum Center Section with Steel D-Rings
- Stubby Bumper Ends - Aluminum
- JK Winch Plate - Special design for this bumper
- Special Aluminum Over-rider with front slope

** Aluminum XHD Bumper Components do not interchange with Steel XHD Bumper Components

**<http://www.fueleconomy.gov/feg/driveHabits.shtml>

Just How Light is the Aluminum XHD Bumper?

| Front Bumper | Weight |
|--|-------------|
| Aluminum XHD - Standard Configuration* | 26.9lbs |
| OE Bumper | 35.7lbs |
| Brand X Off Road Bumper | 110lbs & Up |

*Standard Configuration: Bumper Base, Filler Plate & D-Rings. The optional Hoop Over-rider, Stubby Ends & Winch Plate make the maximum overall weight of the bumper 62.6lbs.

XHD ALUMINUM REAR BUMPER PODS

Taking the light weight theme further, we have developed steel inner framed Aluminum Rear Bumper Pods. These new lightweight Pods still allow for over sized tires but take a huge chunk of weight out of the bumper. [The picture shows the rear pods installed with the enclosed steel D rings for the XHD Rear Tire Carrier]. Each Pod can be used with tire carrier part #11546.20 to hang those 35"+ tires shown in picture with the optional center step. The XHD Aluminum bumper pods are approximately 40lbs+ lighter than the average steel off road bumper. Government studies show a fuel economy benefit of 2% for every 100lbs of weight savings.**

XHD REAR BUMPER SYSTEM FOR 2007-12 WRANGLER

Make the most of your rear bumper with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. Special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Tire Carrier and you can hold up to a 35" tire.

D-rings attach securely to the frame of the vehicle for a rock solid recovery mounting point.

XHD TIRE CARRIER MOUNT FOR 2007-12 WRANGLER

The perfect addition to the XHD Rear Bumper & XHD Aluminum Rear Bumper is the matching XHD Tire Carrier Mount. The latch uses a sturdy locking mechanism for security and a tough appearance. Our engineers have gone to great lengths to make this the quietest tire carrier on the market, no more rattling! The massive hinge pivots on a heavy-duty roller bearing and supports up to a 35" tire. A multi-position locking pin mechanism keeps the arm in the open position when you need to open the tailgate, even on the steepest grade. The XHD Tire Carrier Mount attaches to the XHD Rear Bumpers using the D-ring mounts for a solid foundation.

Latching Mechanism With Attached Security Pin Keeps Your Carrier Secure

Includes Bolt On Third Brake Light Extension

A Locking Pin Keeps The Arm In Place, Even On The Steepest Grade.

11546.22 Tire Carrier Mount

The Massive Tapered Greasable Dual Roller Bearing Hinge Supports Up To a 35" Tire.

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat to grab your gear, than hassling with the tire carrier? The Rugged Ridge® Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge® XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

TIRE CARRIER RECOVERY (TCR) BAG

The TCR bag has been designed to mount to Rugged Ridge® RRC, XHD & Classic rear tire carrier bumpers. This bag allows the storage of all your recovery gear between the A-frame uprights on your rear tire carrier. Constructed of weather resistant material & features a zipper flap to help protect your gear from the environment. Attaches easily with 4 heavy-duty nylon straps that allow for quick removal and transport.

The Rugged Ridge® RRC Rear Bumper provides the off road protection you are looking for! The frame mounted platform features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. Each RRC bumper is constructed of durable powder coat painted .120 wall welded end cap steel tubing for long life and extreme durability. RRC Rear Bumper also features a reinforced hitch box that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). To make your vehicle look its very best, we have enclosed a rear filler plate that completes the look of your bumper and hides un-sightly under carriage parts.

11586.01

OFF ROAD JACK MOUNT

JK Off-Road Jack Mount allows you to carry your Off-Road jack on the outside of your vehicle saving precious cargo space. Fast and easy bolt on installation. Compatible with stock and most aftermarket rear bumpers (without tire carriers) as well as Rugged Ridge® XHD rear bumper with or without tire carrier. Bracket is sturdy and secures the jack in two locations to eliminate any vibration noise during vehicle operation. Durable textured finish looks great. Fits most off-road style jacks including Hi-Lift™.

Each Jack mount incorporates a special round cutout for padlock use.

JK STUBBY TUBE BUMPER

Rugged Ridge® has taken their industry leading Front Tube Bumper and re-designed the ends to make the ultimate high clearance off-road winch bumper. This unique design has a built-in winch mount and special cut-outs for the JK Wrangler factory fog lamps. Like our regular tube bumper, we have cut into the front tubing allowing the bumper to "hug" the front end of the Jeep®. Each bumper includes durable welded end caps and polished smooth welds for the ultimate in durability. NEW: Special inside pre-coat eliminates any chance of interior rusting. A Rugged Ridge® Exclusive!

RRC SIDE ARMOR

2" x .12" Wall Construction, Black Texture Powder Coat Finish

Resists Scratches & Is Slip Resistant

11054.20 RRC Side Armor, Textured Black, 07-12 4-Door Wrangler

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge® Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

07-12 Wrangler models have simple bolt on design. Utilizes existing body mount locations on frame.

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge® tubular tough duty side steps. Available in 3" round, 4" round, and 4.25" oval diameter sizes. The large 4.25" oval and 4" round tubes provide a much cleaner look and are not "dwarfed" by oversized tires and oversized body style features of the 2007-12 Wrangler. Rugged Ridge® Stainless Steel Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge® step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge® painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge® Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. All 2007-12 Wrangler models are no drill designs.

ALL-TERRAIN FLAT FENDER FLARES

Now, with the NEW All-Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep® into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, yet you still get greater ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the factory mounting points with no drilling. Simply remove your original flares and add on the All Terrain flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights. The All Terrain Flat Fender Flare is the hottest looking, most functional Off Road Flare available for your JK! Finally, because no cutting or drilling is required, if you ever want to switch back to your original factory flares, there's no problem!

Special side marker light brackets included for use with your factory side marker light

ALL TERRAIN FLAT FLARE WHEEL LINER KIT

Designed for use in combination with the Rugged Ridge All Terrain Flat Flares for JK, PN: 11620.10, these wheel well liners help keep mud and debris out of the engine compartment and provide a clean finished look. Constructed from durable HDPE, the wheel liners replace the factory wheel well liners that must be removed when running aftermarket flares. Simple bolt in installation, no cutting or drilling required. Kit includes all four wheel well liners and mounting hardware.

REPLACEMENT FENDER FLARE KITS

Rugged Ridge® provides the most comprehensive replacement Fender Flare program on the market today. Rugged Ridge® has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes for ease of installation. Just need to replace one flare? No problem. Rugged Ridge® offers individual replacements to keep your investment to a minimum.

Wheels For 2007-12 Wrangler

15301.10 Satin Black with Machined Lip

15301.01 Satin Black

15301.40 Silver

15301.20 Chrome

15301.10

Rugged Ridge® is proud to introduce the toughest new design in custom wheels for 2007-12 Wrangler. This Hub-Centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. Better fit, no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face give a great 3-piece look, and also let you accessorize with our optional trim ring. Each wheel includes a UV-treated polished center cap that replicates a manual hub for that off road look. Available in five finishes: Satin Black Powdercoated, Satin Black Powdercoated with Machined Lip, Silver Powdercoated, Dual-Stage Polished Chrome, and Limited Edition Hyper Silver. The durable powdercoated finish gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine that commands attention. Rugged Ridge® wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and 1 year finish warranty [see warranty information for details and limitations].

STEEL D-WINDOW WHEELS

Legendary looks, brutally epic strength. Each Rugged Ridge® steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up the abuses of off road use. Because a Jeep® isn't a Jeep® until its lifted and outfitted with oversized tires. All Rugged Ridge® Steel D Window wheels include a FREE polished center cap!

NEW POWER TOP

BY RUGGED RIDGE®

The first true convertible top for 07-12 Wranglers

POWER TOP AUTOMATICALLY GOES UP AND DOWN WITH THE PUSH OF A BUTTON!

Rugged Ridge® is excited to announce the first ever true convertible top for the 4 door JK Jeep® Wrangler. No more struggling to get your soft top up and down. This revolutionary soft top design automatically goes up and down without you even getting out of the vehicle. Our patent pending design allows the top to be lowered or raised in seconds by unlatching two header latches and the simple push of a button! In development for over a year, the engineers at Rugged Ridge® have created a heavy duty frame system that folds up and over your factory roll bar therefore making the "push button" design possible. The Power Top Kit fits all 2007-2012 four door Wranglers and comes complete with heavy duty sailcloth fabric, 31% tint 30 mil rear window glass, power top frame, hydraulics, wiring harness and an in-depth installation packet. Everything you need to make your JK a true convertible top!

NEW!

Each Power top is a complete kit that includes everything you need for installation to your 2007-2012 four door Wrangler: heavy duty sailcloth fabric, 31% tint 30 mil rear window glass, power top frame, hydraulics, motor, wiring harness and an in-depth installation packet. Bolt-on installation, No fabrication necessary.

WARNING:

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident injury:
 Always wear seat belts.
 Read and follow all instructions and warnings accompanying this product, in vehicle owners manual and Off Road Driving Supplement.

LOOK AT THESE EXCLUSIVE FEATURES:

- The kit has everything needed for a complete installation including the soft top, frame, door surrounds, motor, hydraulics and wiring. Installation requires that you reuse the factory header and rear tailgate bar. One kit fits all years of 4 door Wrangler!
- Professional installation is recommended but a skilled do it yourselfer can also install it and no special tools are required. **Estimated install time for a skilled installer is approximately 5 hours.**
- The [patent pending] 4 door version will be available first but we also have a 2 door version in development.
- The frame comes pre-assembled and ready for installation and is constructed from corrosion resistant powder coated steel. All fasteners and bushing are specified for high grade strength and wear resistance.
- The frame installs to the tub rail using pre-existing holes along the top and then one hole is required over either wheel well on both sides to provide added support for strength, rigidity and smooth operation.
- Injection molded door surrounds are included to replace the factory surrounds to ensure a weather tight seal.
- The frame is powered by an electric motor with a hydraulic pump that drives two hydraulic cylinders. The motor and wiring relays mounts underneath the rear deck lid where it is concealed neatly out of the way.
- The motor and hydraulic cylinders come pre-assembled and ready to install with adjustable flow control valve, hoses, fittings and fluid [pre-bled].
- The top is constructed from premium sail cloth fabric and includes a zip-out removable DOT approved 30 mil rear window with 31% smoke tint.
- The system includes all wiring, relays, and switches for a complete installation. The wiring scheme is a simple yet very effective design and protects against improper operation or damage of the top by only working when the drivers' foot is on the brake.
- Limit switches are also included to control the power when the top is either fully up or fully down for added safety and to reduce wear and stress on the system.
- Operation of the top is extremely easy and effortless. From the driver's seat you simply unlatch the header and [while your foot is on the brake and key in ignition] push the switch. Down it goes! That's it!
- The power top is designed to stay on the vehicle full time once it is installed. However, it can also be removed from time to time if necessary thus permitting the owner to change it over to their hard top in winter or to return the vehicle to a factory style top.
- Service and replacement parts will be readily available.
- The entire system and all components are covered by our 3 year warranty.

A durable hydraulic piston provides the torque to lift and retract the Power Top. Easily secured to the vehicle wheel well and soft top frame, this durable component has been cycle tested to ensure a long life and consistent performance.

The Name Power Top comes from a durable electric power plant that has been specially developed for strength and size. This heavy duty motor installs in the storage compartment in the rear of your Jeep® keeping the rear cargo area clutter free. Each Power top includes the necessary wiring harness to make installation as easy as possible.

All Power tops have a tinted rear window that either rolls up or can be completely zipped out. This allows for that open air experience that Jeep® owners love! All Window glass is extra thick 30mil DOT approved with 31% tint. Quality and superior function all in one!

WINDOW STORAGE ROLL BAG

Protect your soft top windows from scratching and other damage with a window storage bag from Rugged Ridge®. This easy to use storage bag stores your rear quarter and rear back window using a soft internal material and a heavy duty exterior fabric bag for the ultimate in protection. The internal fabric is placed between the windows to prevent scratching and window on window contact. Simply place the windows in between the fabric and gently roll the windows into an easy to store "window roll". This rolled up bag can now be easily installed to the rear of your sport bar with attached nylon straps and buckles. This window storage bag solution is a must for those soft top owners who want to keep their windows out of harm's way and prolong the life of their soft top. Each storage bag is backed by an industry leading 3 year limited warranty.

RUGGED RIDGE® ALL TERRAIN FLOOR LINERS FOR 07-12 WRANGLER

The only floor liner with patented "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded Chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patent D627285.

RUGGED RIDGE® SUN VISOR COVERS FOR 2007-12 JEEP® WRANGLER

Instantly turn those plastic factory sun visors on your 2007-2012 Wrangler into usable storage space while getting a clean new look with Custom Rugged Ridge® Visor Covers. Each pair of visor covers quickly and easily attach to your factory sun visors without drilling or vehicle modification. Constructed of durable interior matching textured black vinyl, these covers will provide the storage and features you want while looking great. The driver's side cover features a see through bottom window to expose the factory warning labels and an inside storage pocket with custom storage options; two pen/tire gauge holders, clear window registration/insurance card holder, Mesh storage pocket for commonly used items like garage door openers and a cavernous fold down storage pocket that can hold CD's and cell phones. The passenger side cover offers the same cavernous storage pocket as the driver's side (great for road maps!) but also features a vanity mirror. Packed as drivers' and passenger set, these great covers are the perfect add on accessory for your Jeep®! Note: 2007-09 Visor Covers will not interchange with 2010-2012 Wranglers due to factory visor change.

RUGGED RIDGE® OVERHEAD STORAGE CONSOLE FOR 2007-12 JEEP® WRANGLER

The Rugged Ridge® Overhead Storage Console is the storage solution you have been waiting for! It instantly turns the area underneath your top into usable storage space without any interference or modification to your vehicle. Fits all 2007-2012 Jeep® Wranglers! Works with soft tops, hardtops, the top up, or the top down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded High-Density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5"x2.5"x6.5" and offers more than 450 cubic inches of storage.

DASH ORGANIZER FOR 2007-10 WRANGLER

Looking for space to store that clutter? Introducing the new Rugged Ridge® Dash Organizer for 2007-2010 Jeep® Wranglers! This innovative new product incorporates existing mounting points to install a dual tray storage system right on your dash. Now you can easily store coins, pens, sunglasses, cell phones and other small items right in reach of both the passenger and driver. Installation is a snap; simply remove the original equipment screw covers on your dash, screw in the exclusive double headed mount and attach the Dash Organizer. It is that easy! Each Dash Organizer incorporates UV treated thermoplastic mounts and two trays with a painted aluminum cross tube for the ultimate in flexible design. Each tray can be mounted across the aluminum tube with thumb screw attachments. Rubber feet attached to the trays prevent rattling and provide a secure fit. The small tray has a special built in slot for MP3 players or cell phones with a belt clip (not included). Each tray has a special "recessed guide" that can be easily drilled out to create an out-of-the-way power cord locator. This exciting design has a low profile and does not interfere with driver visibility or air bag deployment.

| Rugged Ridge® Organizers | Part # |
|---|----------|
| Dash Organizer, 07-10 Wrangler <small>*will not fit 2011-2012 models</small> | 13551.10 |

Each Dash Organizer also includes a split bracket CB mounting kit and separate CB microphone holder for use with most smaller CB units. Holes in the bottom of the large tray have been pre-drilled for easy installation of these brackets and include a recessed area for optional out-of-the-way power cord use.

REAR STORAGE BIN FOR 2007-10 WRANGLER

Protect your carpet from moisture, dirt, and grease with the exclusive Rugged Ridge® storage bin for 07-10 Wrangler. This custom fit storage bin fits perfectly in the rear cargo area storage compartment providing protection and an easy to use removable tote. Molded from rigid and durable ABS plastic for a perfect contoured fit and long life. The unique chevron pattern matches the look of the All Terrain Floor and Cargo Liners. Each bin features integrated handles for ease of removal and cleaning.

TRAIL BAGS

Rugged Ridge® has the answer for your onboard storage needs. These soft-side storage bags feature heavy canvas construction and oversized zippers. Great for carrying recovery gear, spare parts, camping gear, clothes, or any other necessity for a wheeling trip. Rugged nylon straps keep the bags in place during even the most insane wheeling. Make the most out of your roll cage with a full complement of Rugged Ridge® storage bags. These bags are easy to install and take off and work with both hard tops and soft tops.

JK REAR SEAT ORGANIZER

The perfect organization solution for your Jeep®! The new Rugged Ridge® Back Seat Organizer features two separate storage areas to organize wayward trash, toys, drinks, iPods and other clutter. Each organizer is designed to instantly fit into the rear cup holders of your 2007-10 Jeep® Wrangler and includes a removable double walled lid. The large storage area will hold up to three 12oz. soda cans or two 16.9oz. water bottles with ice. The top lid can be easily removed creating a handy writing surface or small tray. The front tray can keep cell phones, iPods or other small items from rolling around the back seat. Easily removable to clean and empty, this truly is a must for your Jeep®!

CUSTOM FIT NEOPRENE SEAT COVERS

13214.53 Front Seat Covers
Neoprene, 07-10 Wrangler

Protect your Jeep's® interior with these Custom Fit Neoprene Seat Covers from Rugged Ridge®. These covers are constructed of durable 100% neoprene with no filler fabrics creating the best fitting, longest lasting neoprene seat cover available. Neoprene [wetsuit material] is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently reupholstered.

Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. All seams have been double reinforced for strength and a special backing fabric is used on the seams for added protection against rips and tears. Available in black on black, gray on black, red on black and tan on black to complement virtually any Jeep® interior.

CENTER CONSOLE ARMREST PAD

This easy to use arm rest pad/cover from Rugged Ridge® provides protection and comfort all in one! Constructed of heavy duty neoprene (wet suit material) with an added layer of padding for the arm rest, this slip on cover provides an extra soft place to put your arm while driving. Since it covers the entire top of the arm rest, this cover also provides added arm rest protection from pet claws, dirt and sticky fingers. Installation is easy with an elastic band; no drilling or tools required. Black Neoprene compliments your vehicle's interior and will match custom fit Neoprene seat covers. Limited three year warranty.

Doors

HALF DOORS

NEW!

*Paintable impact resistant thermoplastic outer door skins!

Features and Benefits

- Get the open air fun and factory look for a lot less money. Finally the half door solution Jeep® owners have been waiting for!
- Impact resistant thermoplastic black ABS material with enhanced UV protection.
- Matte finish is easily paintable for custom match factory look.
- Specially reinforced internal steel frame provides strength and is powder coated to resist corrosion.
- The interior of our new half doors were not forgotten about in development. The textured inner ABS panels provide a finished look and feature a grab handle and molded storage pocket.
- Light weight half doors provide added convenience and utility with improved visibility on the trails.
- Each door has a weather tight seal to keep out moisture and reduce wind noise.
- OE Style Hinges provide a factory look and are designed to last.
- Durable and lockable paddle handle.
- Matching soft upper doors available for all season protection from the weather.
- Designed to work with your original mirror or for added convenience permanently install a pair of Rugged Ridge® replacement mirrors.
- Adjustable nylon door strap allows you to control and adjust how far the door opens.
- Attaches to factory hinge and door latch locations—easy no-drill install.
- Front pairs fit 2-door and 4-door Fronts, Rear pairs fit 4-door Rears.

TUBE DOORS

Like the "doors off" feel but also want the added convenience and utility of having doors on the trail? Rugged Ridge® Tube Doors are constructed from durable 1.5" mandrel bent steel tube that is E-Coated primered and then textured powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

Features and Benefits

- Thicker than most other tube doors with durable 1.5" diameter steel tubing construction providing added strength and great looks.
- E-coat and textured powder coat for corrosion resistance.
- Tube doors provide added convenience and utility for improved visibility on the trails.
- Design to work with your original mirror or for added convenience permanently install a pair of Rugged Ridge® replacement mirrors.
- Adjustable nylon door strap allows you to control and adjust how far the door opens.
- Half doors are easy to install and remove and are small enough to be stored in the vehicle.
- Optional cargo storage kit available that can be configured to use in a variety of ways.
- Durable and lockable paddle handle.
- Sold as a front pair and also a rear pair is available for 4 door JK.
- Attaches to factory hinge and door latch locations, easy no-drill install.

TUBE DOOR CARGO COVERS

Add a fully adjustable Molle / Pals storage solution to your tube doors! The Rugged Ridge® Tube Door Cargo Covers are made from 600 denier polyester fabric with a durable vinyl backing. Our storage solution features an assortment of five different storage pouches with internal storage compartments. The great Molle / Pals mounting system allows you to arrange the pouches however you wish, or grab them and go! They mount on any backpack that features the Molle / Pals system! The tube doors and Cargo Covers take up less space than the OE steel doors, so unlike other systems you still have plenty of room for your knees! The Cargo Covers are designed with adjustable mounting straps that allow you to configure the cargo system with both Rugged Ridge® and most other aftermarket tube doors.

MIRROR RELOCATION BRACKETS & DOOR FILLER PLATES

Custom designed brackets bolt into existing holes on the windshield relocating your mirrors off the door. The perfect add-on accessory for those off-road adventures where you do not want your doors. Each bracket kit for the 2007-12 Wrangler comes with a special paintable filler plate to cover up the hole created when you remove your mirrors. Sold in pairs.

When you want to remove your doors from your Jeep® and permanently mount side mirrors to your "A" pillar, you need a filler plate to fill the left over hole on your door. Each steel filler plate attaches to the door using enclosed bolts and can be easily painted to match your door. These filler plates can also be used on Rugged Ridge® half doors and are a perfect addition when using the new Rugged Ridge® Quick release mirrors #11025.10 which place the mirrors directly on the A pillar.

LED COURTESY LIGHTS

The natural design of a Jeep® interior does not provide adequate interior lighting for map reading or looking for items inside your Jeep®. Now you have two outstanding options for interior lighting with the new Rugged Ridge® LED Courtesy Lights. Each lighting option features an extra bright, energy efficient LED light powered by 3 AAA batteries [not included] so there is no wiring required. The Roll Bar mount design attaches to any 2-3" roll bar using heavy duty straps and hook and loop fasteners. The NEW header mount courtesy light attaches with screws to the interior location of your choice. However, we suggest it being placed on the front header portion of the 2007-2012 Wrangler putting light in the center front of your Jeep® interior within easy reach of both driver and passenger. In this application, the screws mount directly to the plastic header making installation easy, secure and providing maximum lighting for the interior of your Jeep®.

HINGE TREATMENTS FOR 2007-12 WRANGLER

These cast steel design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature an easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinges but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side. Use 4 hinge treatment pairs for 4-Door models, 2 pairs for 2-Door models and 1 pair for hood.

CAST BLACK STEEL DOOR HINGES

You have black bumpers, a black top, black mirrors, black door handles and black euro-guards, why not complete the look with a set of black cast steel replacement door hinges from Rugged Ridge®? These aren't the stick on covers that our competitors offer. The heavy duty cast construction and powder coated finish ensure these hinges are built to last. The hinges are offered in sets for both the doors and hood. Includes matching black allen head bolts to complete the installation. They are direct bolt on replacement hinges for an out of the box solution, but without out all the fuss and mess of painting your factory hinges.

RUGGED RIDGE® BODY ARMOR FOR 2007-12 WRANGLER

Get that offroad look with Rugged Ridge® Body Armor! Each Body Armor piece is constructed of black diamond plate UV treated thermoplastic for the coolest, toughest looking upgrade for your Jeep®. Each body Armor attaches to your Jeep® with ultra strong 3M tape to ensure a secure fit. Have a scratch or dent on your paint? Cover it up with Body Armor! Simply fill in the scratched area with touch-up paint [to prevent rust] and install the Body Armor. You have now repaired and upgraded! Available in individual pieces or complete styling "kits", so you can customize the look of your Jeep® the way you want.

COWL BODY ARMOR

Protect your cowl from mirror damage with Cowl Body Armor from Rugged Ridge®. Whenever your door limiter straps are disconnected the door can over extend causing damage to your cowl area. These new cowl covers protect your cowl area while providing a great look. Constructed of durable UV thermoplastic, these covers easily attach using 3M double sided automotive grade adhesive. Packed in pairs.

STAINLESS & BILLET STYLE GAS HATCH COVERS

Create a custom look in just a few minutes. This special design fits directly over the existing gas cap opening. These tough gas covers are available in either stamped stainless steel, polished aluminum or chromed aluminum and are specially treated for resistance to gasoline and other chemicals. Unlike other designs on the market, installation does not require the removal of the tail light or internal gas cover components. For 2007-12 Wranglers the cover attaches directly to the original equipment plastic insert using self tapping screws with no need to remove the existing plastic insert. Available with or without locking mechanism. Please note that your factory gas cap is still required.

HOOD SCOOPS

Constructed of durable ABS plastic in 3 different finishes, these great looking Hood Scoops give your Jeep® an aggressive look! Each Hood Scoop has been designed to complement the lines of the Jeep® while enhancing airflow. Choose from three finishes; Smoke, polished chrome or textured black. Each attaches with tough automotive grade tape to ensuring a long life. Each scoop can be used with the opening facing the window or facing the front of the Jeep®, depending on your preference.

Custom designed to protect the steering components on all 2007-12 Jeep® Wranglers, this overbuilt skid plate is a must for those off road adventures. Constructed of durable 1/4" powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge® front bumpers (looks amazing with the XHD Bumper system!) or all factory front bumpers, this skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. Easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

EVAPORATOR SKID PLATE

The Evaporator Skid Plate is constructed of durable 3/16" thick black powder coated steel, and mounts to existing body holes using the factory hardware. It helps transfer the load of an impact away from the evaporator tank and to the frame and cross member. Rugged Ridge® offers a wide variety of skid plates and body protection for Wranglers. You can wheel with confidence knowing these skid plates will help keep you from getting hung up on rocks, trail obstacles, while preventing damage to critical components.

HEAVY-DUTY DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made of 3/8" cast steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been "44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy of installation.

OFF ROAD JACK ROLL BAR MOUNTING BRACKET

Get your Hi Lift style jack out of the elements with this roll bar mounting kit from Rugged Ridge®. Storing your jack outside leaves it vulnerable to water, debris, ice and theft. These great new brackets allow you to secure your jack to the sports bar without sacrificing cargo area storage, and increase the longevity and function of your jack! The simple no drill installation allows for easy removal and storage of the jack.

Off Road Jack Roll Bar Mounting Bracket Part #

07-12 Wrangler **NEW** 11586.02

HEAVY DUTY TIRE SPACER

The Spare Tire Spacer bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Both the HD Tire Carrier and Spare Tire Spacer feature 5x4.5" and 5x5.5" wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-12 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50" or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier.

Heavy-Duty Tire Carrier & Spacer

Part #

07-12 Wrangler, Textured Black, Each

11585.02

CAUTION: The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes

HOOD LOCK

Special design virtually disappears into the grille. Cam lock design keeps people out of the engine compartment of your Jeep®. These clever applications install in minutes. An upgraded internal lock cover keeps ice and debris from fouling the lock mechanism.

OFF ROAD JACK MOUNT

JK Off-Road Jack Mount allows you to carry your Off-Road jack on the outside of your vehicle saving precious cargo space. Fast and easy bolt on installation. Compatible with stock and most aftermarket rear bumpers (without tire carriers) as well as Rugged Ridge® XHD rear bumper with or without tire carrier. Bracket is sturdy and secures the jack in two locations to eliminate any vibration noise during vehicle operation. Durable textured finish looks great. Fits most off-road style jacks including Hi-Lift™.

Each Jack mount incorporates a special round cutout for padlock use.

STAINLESS HEADERS FOR 2007-11 WRANGLER

Our custom Exhaust Headers are engineered to deliver improved performance. The 3.8L isn't a bad motor it just needs more air to "breathe" properly. Our headers increase exhaust gas exit velocity to move more air through the cylinder head's combustion chamber resulting in performance gains. They are constructed of 409 stainless steel to ensure a long operating life. Each complete kit includes manifolds, gaskets, hardware, clamps and easy to read instruction sheets.

NEW!

Stainless Steel Headers

STAINLESS STEEL CAT-BACK EXHAUST SYSTEM

NEW!

Open up your Jeep®'s exhaust with this great looking & long lasting polished stainless steel dual exhaust system. You'll get a mellow exhaust note that will set your rig apart while enjoying increased performance. The 2 1/4" mandrel bent pipes give

hot exhaust gases a smooth exit without the constrictions found in crush-bent pipes. This added flow decreases back pressure and will actually increase the horsepower of your 3.8L or 3.6L engine! This is a bolt-on system that installs after the catalytic converter to keep your emissions legal. The dual split exits feature slash cut and rounded oval tips for a tough look. Each kit includes all necessary mounting hardware for an easy bolt on installation.

MODULAR XHD SNORKEL

Dusty Trails Rides and Deep Water Fordings. –Anyone who takes their rig off-road is likely to encounter these conditions. The new Modular XHD Snorkel System from Rugged Ridge® relocates the venerable stock air intake location to help reduce dust clogged filters and the risk of hydro-locking your engine. It is also the first snorkel designed with the modular functionality of a Pre-filter Low Mount and Ram High Mount air intake design. Unlike other snorkels, you don't have to give up flexibility for functionality. Not only did we engineer our snorkel to allow the windshield to fold and doors to be removed, we built it for use with our dual battery tray, windshield light bar and windshield light mounting tabs... Because what good is having a snorkel to cross the river, if you have to leave your lights and the dual battery [to power your winch] on the other side?

The Modular XHD Snorkel System comes standard with the Pre-filter Low Mount. The Pre-filter Low Mount relocates the air intake to just below the windshield and draws cool air from outside the hot engine compartment. The optional Ram High Mount design allows the air intake to be extended up an additional 21" to the top of the windshield. The two air intake mounts are easily interchangeable to give you the modular functionality best suited to your needs. The system is manufactured from premium thermoformed plastic, mandrel bent aluminum and hi-temp silicone connection hoses. Built in manual drain valves channel away excess water to prevent it from entering the intake system. It installs with minor modification to the fender, but without the major cutting and surgery that other kits require. The new lower air cleaner box installs in place of the factory unit, so you don't have to "hack and tap". Just attached the factory upper air box, chose from the Pre-filter Low Mount or Ram High Mount design and go!

High Mount w/ Ram Intake
17756.07

Complete Snorkel Kit
17756.20

Low Mount
17756.06

- The modular design allows you to choose a Pre-filter Low Mount or Ram High Mount design.
- Works with other popular Rugged Ridge® accessories like: Dual Battery Trays, Windshield Light Bars & Windshield Light Mounting Tabs.
- Installs with minor modification of the fender. Unlike other kits that require cutting large holes in the firewall, fender or hood!
- Includes lower air cleaner box that seals and mates to the factory air intake.

2012+ 3.6L VERSION - IN DEVELOPMENT!

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs of torque, depending on application.

17750.06 for 07-11 Wrangler 3.8L

RUGGED RIDGE® THROTTLE BODY SPACER FOR 2007-11 JEEP® WRANGLER

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1/2" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for 3.8L engines.

SYNTHETIC AIR FILTER

Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! Rugged Ridge® performance high flow filters are made from a synthetic fabric and not cotton. Cotton filters are made porous and must be oiled to trap dirt and debris. But that oil reduces air flow through the filter and it can become easily clogged. Our filters are woven from synthetic fabric to allow maximum air flow and particulate filtration. Because our filters never need oiling, they can be cleaned easily with water instead of degreaser, reducing the cost of maintaining the filter over the lifetime of your vehicle. No oil = No fuss, no mess and improved performance!

RUGGED RIDGE® SYNTHETIC ROPE PERFORMANCE WINCHES!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dyneema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge® winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge® 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

WARNING: Read and understand all instructions and related Warnings, Cautions and Notices before attempting to install or use your Rugged Ridge® winch.

WHY SYNTHETIC WINCH ROPE?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- Same high strength fabric used in ballistic body armor.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Protective sleeves keep line from overheating on winch drum.

DUAL BATTERY TRAY

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain is to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powder coated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. The kit places the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries.

TIRE REPAIR KIT

The Rugged Ridge® Tire Repair Kit is essential recovery gear for any road or trailside tire repair. The kit includes: 2 sturdy aluminum handles, 2 reamers, 2 needles, 2 Allen head wrenches, and 25 self vulcanizing tire plugs all self contained in a heavy duty storage case. Be prepared for what ever the trail throws at you!

OFF ROAD JACK HANDLE RETAINER STRAP

This handy Off Road Jack Handle Retainer Strap pulls taut to secure the jack handle to the jack and eliminates obnoxious rattles. Simply loop the strap around the jack handle and pull it tight and go! Fits most off road style farm jacks including Hi-Lift.

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great kits to fit your lifestyle and budget. This adjustable tire deflator kit is made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail. The keychain tire deflator kit is made from stainless steel and connect together onto a key chain for ease of use!

TRI FOLD RECOVERY SHOVEL

The Rugged Ridge® Tri Fold Recovery Shovel is a fully functional collapsible shovel that features two serrated edges for cutting or digging. The heavy duty black powder coated body is 23 inches when open and folds to a mere 9 inches. It can be stowed easily in any vehicle, but is still rugged enough for the toughest of jobs. Includes durable storage case.

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge® lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually. All include impact resistant stone guards

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

HALOGEN LIGHTING

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards (white stone guards with stainless, black with black) and illuminated dash switch.

RUGGED RIDGE® JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Each bar hugs the contour of your windshield providing a great look while not interfering with the use of your hard or soft top. Oversized 2" textured black tubing attaches to your windshield mounts with no drilling. Each Light bar has five light tabs for use with Rugged Ridge® Lighting options (fits up to five 7" lights). Each light bar has been specially developed to work with Rugged Ridge® Light mount brackets and/or Rugged Ridge® mirror relocation brackets. Special three piece design makes the packaging small for ease of shipping. This is truly the most advanced light bar on the market!

Designed by a dedicated team of Jeep® enthusiasts, the ORV™ suspension program is one of the most complete programs available. We have looked at each application in detail to provide the very best and most complete solution for your Jeep®. Since we focus the large majority of our attention on Jeep® vehicles, we know the ins and outs of what the best lift solution is depending on your individual needs. Below is a quick reference guide on the ORV™ program to make it easier to choose the lift you need for your particular need. Remember, all ORV™ Kits with shocks include a pair of neoprene wrapped grab handles and an Off Road Organizer for your glove box! **Welcome to ORV™ by Rugged Ridge®!**

Flowery Branch, GA

A FEW WORDS ABOUT PRODUCT SAFETY.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road.

It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product.

To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

NOTICE

This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING

This is a signal telling you that you CAN be KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION

This is a signal telling you that you or others CAN be HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING HIGHER ROLLOVER RISK

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge™ suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-12 Wrangler JK, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

ORV™ 2.5"-3.5" Coil Spring Lift - With shocks part # 18415.50

- The most complete kit available on the market for JK.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to factory rates.
- By using 5160H hot rolled bar, the ORV™ Springs keep their memory, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount. An ORV™ exclusive!
- 4-Door JK's will get on average a 2.5" lift. Two door models will get up to a 3.5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].
- ORV™ kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

JK 2.5"/3.5" Lift Kit

ORV™ 4"-5" Coil Spring Lift - With shocks part # 18415.60

- Get off road performance while not sacrificing on road ride.
- Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!
- Each kit includes a rear track bar brace to strengthen the original track bar mount. A must for off road performance on a JK.
- Kit includes sway bar disconnects for more articulation off road.
- ORV™ uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding. This extra heavy-duty design ensures a long life both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- 4-Door JK's will get on average a 4" lift. Two door models will get up to a 5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4" or greater lift kit on a 4-Door Wrangler. A new drive shaft will be required on any 2007-12 2-Door Wrangler due to the shorter wheel base.
- All 4" Kits require a drop pitman arm.
- ORV™ kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

KNOW YOUR ORV™ KIT

All images are subject to be representative. More detailed information is available online.

ORV™ SHOCKS

ORV™ only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV™ kits provide a better ride both on and off road. By using an ORV™ lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll. This is extremely important, as body roll will kick in the ESP sensors on later model Jeeps®, which will shut the vehicle down.

ORV™ shock features include:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV™ specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

ORV™ Shocks

| | Front | Extended | Collapsed | Rear | Extended | Collapsed |
|---|----------|----------|-----------|----------|----------|-----------|
| ORV™ Nitrogen Series Shock, 07-12 Jeep® Wrangler 2-Door, 3.5" Lift, 07-10 Wrangler 4-Door 2.5" Lift | 18465.09 | 22.75" | 13.54" | 18465.10 | 25.35" | 15.05" |
| ORV™ Nitrogen Series Shock, 07-12 Jeep® Wrangler 2-Door, 5" Lift, 07-10 Wrangler 4-Door 4" Lift | 18465.11 | 26.79" | 15.56" | 18465.12 | 28.38" | 16.65" |

COLORED SHOCK BOOTS

Add a splash of color to your rig with colored shocks boots from Rugged Ridge®. These durable shock boots keep mud and debris from prematurely ruining your shocks and they look great too! Works on ORV™ Nitrogen Shocks and most other brands as well! Sold each.

ORV™ Shock Boots

| | Part# |

| Shock Boot, Black, ORV™ Suspension, Universal Application NEW | 18479.50 |
| Shock Boot, Red, ORV™ Suspension, Universal Application NEW | 18479.51 |
| Shock Boot, Blue, ORV™ Suspension, Universal Application NEW | 18479.52 |

ORV™ STEERING STABILIZERS

ORV™ recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV™ Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV™ Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

ORV™ Steering Stabilizers

| ORV™ Hydraulic Series Steering Stabilizer, 07-12 Jeep® Wrangler 2 & 4-Door | 18475.03 |

CV EQUIPPED DRIVE SHAFTS FOR 07-12 WRANGLERS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. Constant Velocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

CV Equipped Drive Shafts

| | Part # |

16592.21 CV Equipped Rear Drive Shaft for 07-12 Wrangler 2-Door

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE® LIMITED LIFETIME WARRANTY

Your Omix-Ada® /Rugged Ridge® product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada® /Rugged Ridge® /ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge® but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge® suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada® /Rugged Ridge® /ORV™ Limited Warranty does not cover any Rugged Ridge® /ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to: Installation damage, alteration, modification or failure to maintain.

- Normal wear and tear (bushings, tie-rod ends, etc.). Scratches or defects in product finishes (powder coating, plating, etc.) or damage due to shipping.
- Damage arising or related to non- Omix-Ada® /Rugged Ridge® /ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current /Rugged Ridge® /ORV™ catalog or the instructions accompanying your Rugged Ridge® /ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada®'s option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts (including Rugged Ridge® and ORV™) should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

DRIVETRAIN ENGINEERING PERFECTED

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand!

The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC (the distributor/warrantor of these products) makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 (770-614-6101). Ultra Axle® reserves the right to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals, Differential Covers, Differential Cable Lock Kits, Wheel Spacers, Transfer Chain Kits, Yoke Conversion Kits & Hub Conversion Components - **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA® Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes (powder coating, plating, etc.) or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

Wrangler 07-12

FRONT AXLE KITS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA®'s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

JEEP® COMPLETE INNERS/OUTERS WITH U-JOINTS & CLIPS

| Application | Part # | Inner | Outer | Ring |
|---|--------|-------|-------|------|
| Jeep® Wrangler (JK) 07-12, Dana 30 27-Spline Kit NEW | 12152 | 27 | 32 | D30 |
| Jeep® Wrangler (JK) Rubicon 07-12, Dana 44 30-Spline Kit NEW | 12155 | 30 | 32 | D44 |

PERFORMANCE REAR AXLE KITS FOR JEEP®

High tensile strength 4140 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 35% stronger than stock 1040 axles. Alloy USA® uses the latest cold rolled splining technology, to produce splines that are stronger than traditional cut splines. Our shafts are covered by an exclusive 10-year warranty! Rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs. Upgraded spline counts for Jeep® applications: Dana 35 spline upgrades from 27 splines to 30 splines. Dana 44 spline upgrades from 30 splines to 33 and 35 splines.

Jeep® 2 Axles - Bearings - Seals - Wheel Studs

| | Part # | Spline | Ring |
|--|--------|--------|------|
| Jeep® Wrangler (JK) 07-12, Dana 44 Grande 30-Spline Kit NEW | 12156 | 30 | D44 |
| Jeep® Wrangler (JK) 07-12 Rubicon, Dana 44 Grande 32-Spline Kit NEW | 12158 | 32 | D44 |

PERFORMANCE REAR AXLE SHAFTS

Rule #1: If it broke it needed to be upgraded. For less than the cost of an original replacement axle shaft you can upgrade to an Alloy USA® performance shaft. Each axle is heat-treated, tempered and induction hardened to have twice the tensile strength than stock and is up to 35% stronger. We use the latest splining technology, to produce splines that are stronger than traditional cut splines.

Jeep® Axle Shafts, Sold Individually. Wheel Bearings, Seals, & Wheel Studs Available Separately

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

XHD MODULAR BUMPER SYSTEM

THE MOST ADVANCED, TOUGHEST, MOST FLEXIBLE BUMPER SYSTEM EVER CREATED!

No other bumper can give your Jeep® this many looks. Modular design provides dozens of different looks and styles. You can build the exact bumper of your choice! Custom designed for the 1976-2006 Jeep® Wrangler & CJ, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coat steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look.

XHD REAR BUMPER

Make the most of your rear bumper with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. Special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Tire Carrier and you can hold up to a 35" tire.

Internal inner structure provides strength and a durable location for the included D-Rings

The Massive Tapered Greasable Roller Bearing Hinge Supports Up To a 35" Tire.

Over Center Latching Mechanism Keeps Your Carrier Secure

D-rings attach securely to the frame of the vehicle for a rock solid recovery mounting point.

TIRE CARRIER LINKAGE

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat to grab your gear, than hassling with the tire carrier? The Rugged Ridge® Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge® XHD, rear bumper and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

RRC ROCK CRAWLING BUMPERS

Introducing the toughest, most durable off-road tube bumpers ever made! The Rugged Ridge® Rock Crawling Bumpers (RRC) feature heavy-duty .120 wall 2" steel tubing treated with a special "E-Coating" and then dual stage powder-coated to ensure long life and a no-rust finish. These overbuilt tube bumpers not only look good but they are built to last! All RRC designs have been developed with true off-road enthusiasts in mind. From the reinforced welds to the built-in D-ring attachments, these bumpers and side guards are built to take what ever the trail throws at you.

RRC FRONT GRILLE GUARDS

The RRC Front Grille Guard is an easy to install front bumper system that offers an expanded opening for use with a winch (winch plate not included) or with up to four off-road lights. The RRC side supports elevate the tube upwards to provide fender protection while not altering the side clearance. Two reinforced D-ring attachments allow for easy use of optional D-rings (part no. 11235.01).

RRC REAR BUMPERS

Rugged Ridge® offers two RRC bumper options for the rear of your Jeep®. Both options work off a similar frame mounted platform that features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. All RRC Rear Bumpers also feature a reinforced receiver hitch that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). The heavy-duty rear tire carrier model mounts your tire off the rear bumper taking the load off your tailgate. With a reinforced grease fitting and special latching mechanism, this tire carrier is capable of holding up to a 35" tire.

RRC SIDE ARMOR

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge®'s Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. YJ and TJ models require drilling. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

All Rugged Ridge® Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. No other tubular bumper manufacturer goes to the expense of smooth grinding their welds. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Finally, all Rugged Ridge® Bumpers feature welded end caps rather than plastic end caps. Gone are the days of constantly replacing those lost tube bumper end caps after a long day on the trail.

REAR TUBE BUMPERS FOR 1955-2006 JEEP®

Rear Bumpers have a larger 17" rear opening allowing the use of oversized tires (up to 31") on the factory spare tire mount. This is a Rugged Ridge® exclusive! Rugged Ridge® Rear Tube Bumpers also feature a frame mounted hitch option that allows for lightweight towing (2,000lb towing weight, 200lb tongue weight capacity). Most other rear tube bumpers with integrated hitch boxes do not recommend towing, therefore making the hitch box virtually useless. End caps are welded rather than using plastic end caps that fall out or melt.

HEAVY-DUTY ROCK CRAWLING BUMPERS

11545.01 Heavy-Duty Front Rock Crawling Bumper

The front bumper is a winch ready design that can accommodate any winch (winch mounting plate not included). E-Coat undercoating with a powder coat finish for the ultimate in rust protection and durability. Two welded D-ring tabs allow for easy installation of optional D-rings providing a secure pulling point. Sloped ends allow for greater off-road clearance and a great look. Rear Bumper has an accessory hitch box (not designed for towing) to mount optional accessories. This tough bumper set can take what the trail throws at you!

SIDE TUBE STEPS

Complete the look with a set of Rugged Ridge® tubular tough duty side steps. Rugged Ridge® Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge® step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge® painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge® Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. 1976-06 models feature frame mount design which may require drilling.

Need a little extra coverage for those over-sized tires? The Rugged Ridge® 7" Flare gives you the extra coverage you need while providing the clean look of original equipment designs. Each over sized flare is constructed of virtually indestructible UV treated thermoplastic to provide years of service. The special UV treatment put on each flare provides protection from sun fading. These flares are designed to bolt onto your vehicle but for CJ and 1987-95 Wrangler models, some vehicle modification may be necessary to truly cover those oversized tires. If you go off-road and need to protect your vehicle from rock chips and debris, look to Rugged Ridge® 7" oversized Fender Flares! Includes all mounting hardware.

STEEL D-WINDOW WHEELS

Legendary looks, brutally epic strength. Each Rugged Ridge® steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up the abuses of off road use. Because a Jeep® isn't a Jeep® until its lifted and outfitted with oversized tires. Polished chrome enter cap included.

CJ & Wrangler 76-06

WHEEL SPACER & ADAPTOR KITS

These hub centric spacers / adaptors move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are 10 pre-installed grade-8 wheel studs, 10 lug nuts and thread locker.

15201.03 Wheel Spacer, pair, 1946-86 Jeep® with 5 on 5.5" Bolt Pattern

15201.04 Wheel Adapter, pair, for Converting Bolt Pattern 5 on 4.5" to 5 on 5.5"

CAUTION!

CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

LOCKING HUBS

Rugged Ridge® Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.

RUGGED RIDGE® SUMMER ACCESSORIES

Summer time is why you own a Jeep®! With the warm weather comes the open air driving we all love. Rugged Ridge® Summer Accessories make that open air driving more comfortable and stylish. Each accessory is manufactured to exacting specifications using tough matching vinyl coated fabrics that will provide years of great looks and high performance. When you demand the best, Rugged Ridge® is what you need!

SUMMER BRIEFS

Custom designed for each body style, these easy on, easy off briefs provide protection from the hot sun and sudden showers. Each Rugged Ridge® Summer Brief attaches to the factory center hoop and windshield with heavy-duty nylon straps to prevent flapping. Key rear strap attachments have quick release fasteners so once your straps are set, they easily detach and reattach. Wrangler models also incorporate thick hook and loop side mounts to further secure the top. All 1997-06 models are designed to be used with a no-drill Windshield Header (sold separately, see bottom of page) for quick conversion from hard top to Summer Brief.

*Requires separate Windshield Header [#13308.04] for installation. ** Requires separate Windshield Channel [#13308.01] for installation.

POCKET BRIEFS

Tired of papers and other small items flying around the cab of your Jeep® when using your Summer Brief? Introducing the most innovative new addition to a Summer Brief in over 50 years the Pocket Brief from Rugged Ridge®! This revolutionary design incorporates two mesh zippered corner pockets directly over the driver and passenger creating much needed storage space. Special two sided mesh and nylon "pocket" seals shut with a reinforced zipper, keeps small items secure even in the most severe conditions. Built directly into the Rugged Ridge® Summer Brief to ensure a clean, tight fit. Constructed of durable soft top fabric for long life. Available in matching soft top colors to give your Jeep® a finished look.

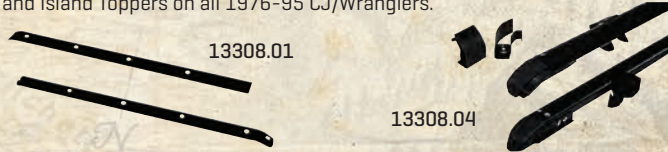

| Pocket Brief | Gray | Denim Black | Spice | Diamond Black | Diamond Khaki |

| 87-91 Wrangler ** | - | 918315 | - | - | - |

* Requires a separate Windshield Header [#13308.04] for installation ** Requires a separate Windshield Channel [#13308.01] for installation See information on Page 18.

WARNING: Warning: Tops and doors are designed only for protection against the elements. Do not rely on top or doors to contain occupants within the vehicle or protect against injury during an accident. Consult vendor's product safety literature for additional information and WEAR SEAT BELTS AT ALL TIMES.

WINDSHIELD CHANNELS/HEADERS

These upgraded preassembled windshield headers installs quickly and easily! Just attach your Brief/Island Topper and place the header channel on the top of your windshield, slide the clamps onto the supplied knobs and clamp the channel in place. That's it! The channel is now securely held in place and ready for summer wheeling. No drilling or modifications required! Note: Will work with Bestop and other aftermarket summer tops. No Drill Windshield Header required for installation of Summer Briefs and Island Toppers on all 1997-06 Wranglers and Unlimited. Windshield Channels are required for installation of Summer Briefs and Island Toppers on all 1976-95 CJ/Wranglers.

| Description | Part # |

MESH SUMMER BRIEFS/ISLAND TOPPERS™

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge® mesh brief/Island Topper is designed for strength and durability while providing open air protection from the sun's heat. Available in two great styles: the Summer Brief that goes to the center hoop and the "Island Topper" that goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel needed to install these tops!

ACOUSTIC BRIEF AND ISLAND TOPPER™

This unique design drastically reduces road noise within the cab of your Jeep®. We have lined each acoustic piece with a tightly woven, padded acoustic insert that absorbs outdoor noise to allow for a pleasant driving experience. You can finally listen to your favorite radio or CD while you enjoy open air driving! Durable quick release buckles for easy on - easy off installation. Acoustic Brief provides overhead protection for both front seat passengers. Acoustic Island Topper provides overhead protection for both front & rear passengers.

Padded insert absorbs noise allowing for a more pleasant driving experience

ROLL BAR CURTAIN

Provides protection from dust, rain and other debris entering the cab of your Jeep® and also keeps heat in during the cold winter months. Easily attaches to the sport bar with durable nylon straps. Constructed of durable soft top fabric that matches other Rugged Ridge® Accessories. Special rear opening allows for easy access to cargo area: zips open and closed. DOT approved rear glass allows for rear visibility.

WARNING: Warning: Tops and doors are designed only for protection against the elements. Do not rely on top or doors to contain occupants within the vehicle or protect against injury during an accident. Consult vendor's product safety literature for additional information and WEAR SEAT BELTS AT ALL TIMES.

ISLAND TOPPERS™

Provide the ultimate summer sun and rain protection with a Rugged Ridge® Island Topper. Attaching the same way as our durable Summer Briefs, these full length tops provide protection from the elements for both the front and rear passengers. Rear attachment straps secure to the rear sport bar hoops on 1992-06 models. 1976-91 models include an easy to attach rear bow. All 1997-06 models are designed to be used with an optional, no-drill Windshield Header for quick conversion from hard top to Summer Brief.

QUALITY, VALUE, SELECTION, XHD REPLACEMENT TOPS HAVE YOU COVERED!

New and improved XHD Replacement Soft-Tops from Rugged Ridge® are now available with 50% thicker glass! Each Fabric Soft Top is specifically designed to easily fit the factory original soft top hardware. Simply take off the old top and slip on the new. It's just that easy! These new designs feature reinforced stitching on the heavy "pull" areas as well as heavy duty 30 mil thick glass! All XHD Soft Tops feature durable vinyl coated polyester and cotton fabric that will last the test of time. All sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun. Each seam is literally "welded shut" with durable heat seal tape to keep moisture out while keeping the original look of the top intact. Attaching the Rugged Ridge® Top is easy with the factory original "belt rail" attachment method; simply tuck under the rail and go! All our tops feature two choices of door options as Jeep® offered the 97-06 Wrangler with upper soft doors or with full hard doors. Rugged Ridge® makes a Replacement Top that fits either! Each top is backed by an industry leading 3 year limited warranty against manufacturer defects.

The most comprehensive line of replacement soft tops on the market, so you can choose what options are best for you!

NEW 30 mil thick DOT approved windows are 50% thicker than lower cost soft tops! Available in clear or 31% tint (rear quarter and rear glass) on most Jeep® models.

Jeep® applications (and late model Suzuki) feature zip out windows for the true open air experience. Each side and rear window have durable zipper attachments covered by weather seals to keep the weather out

Rugged Ridge® soft tops use only the finest vinyl coated polyester fabric or durable sail cloth on all their tops. Each fabric color is specially formulated to match the original equipment colored top to make your Jeep® look like it came off the show room floor.

BOWLESS TOP FOR 97-06 WRANGLER

The Bowless Top from Rugged Ridge® is the most versatile Jeep® soft top on the market. It allows you to convert instantly from a full top to a summer brief, and eliminates the need for the bulky OE soft top frame. The Bowless Top fits snugly over the factory roll bar for a more aerodynamic “fastback” look, but retains your factory door surrounds and tailgate bar to provide an air tight fit. Convert to a summer brief by simply unzipping the side windows and stowing them in the rear window storage fold designed into the top. The Bowless top is made to the same specifications as our factory replacement tops and features: reinforced stitching on the heavy “pull” areas, as well as heavy duty 30 mil thick DOT approved 31% tint window glass, durable vinyl coated polyester and cotton fabric, and all sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun.

CJ & Wrangler 76-06

Windows fold up under top for open air driving.

Top includes 2 zippered storage pockets.

More Exclusive Features:

BLACK DENIM

SPICE

Sail Cloth

- NEW design is less complex and easier to install than competitive brand tops.
- Custom design fits better using significantly fewer straps and no center bow. Our bowless top uses only two Velcro side straps, one center adjusting strap and two rear straps making a better fitting, easier to install top
- All straps are inside the top making for a cleaner better looking design
- Rear window either rolls up or can be used as the storage flap for side windows. No extra pockets or complicated securing device to store your rear quarter windows
- Side weather protecting foam is attached to the top. Competitive brands have this foam separate from the top creating a potential missing part
- Each Top includes a pair of handy zippered side pocket for map and accessory storage
- Side design includes a handy installation pull tab for ease of installation
- Notorious leak spots behind the doors have been covered with a special rain flap; keeps the weather out!
- Backed by our industry leading three year limited warranty. Most soft top warranties are only 1-2 years!

RUGGED RIDGE® ALL TERRAIN FLOOR LINERS FOR 1976-06 CJ & WRANGLER

The only floor liner with patent pending "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised nibs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patent pending.

12975.11 Cargo Liner, 97-06 Wrangler

Easy to clean design; simply hose off and go!

REPLACEMENT CARPET

Nothing refreshes the inside of a vehicle like new carpet. This NEW design provides Tufted Polypropylene carpet with electronically surged edges that will not unravel. Polypropylene is a space-age polymer chosen for its rugged durability and resistance to chemical solvents and mildew. Full interior design includes tailgate and wheel well coverage. Features jute backing and driver side vinyl heel guard. Thanks to the sound deadening properties of the carpet, interior noise will also be reduced. The precut six-piece design is made for your vehicle to ensure proper fitment. Available in three popular and attractive colors to match your Jeep's® interior.

RUGGED RIDGE® OVERHEAD STORAGE CONSOLE

The Rugged Ridge® Overhead Storage Console is the storage solution you have been waiting for! It instantly turns the area underneath your top into usable storage space without any interference or modification to your vehicle. Works with soft tops, hardtops, the top up, or the top down. The Overhead Storage Console is a fully enclosed storage compartment that installs easily without any tools or drilling. It is constructed from durable blow molded High-Density polyethylene (HDPE), so it is safer and lighter than steel. A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible. The console measures 41.5"x2.5"x6.5" and offers more than 450 cubic inches of storage.

Protect your headlights from debris and get that offroad look with a set of Rugged Ridge® Euro-Guards. Constructed of durable powder coated steel, these front Euro-Guards are designed to last. No drilling required for installation. Each kit comes with a pair of guards to cover both sides of the vehicle. The side marker light guards are a great complement to our front light Euro-Guards. Installation is easy and light visibility is not hampered. Sold in pairs. The turn signal light guards are designed to match our Headlight Euro-Guards. They feature the same great style and construction. They give a rugged look while protecting an important area. Sold in pairs.

BILLET AND REGULAR STONE GUARD KITS

Protect and enhance the look of your Jeep® with your choice of two types of stone guards. Each set includes six pieces to protect your headlights, taillights and turn signal indicators. The regular Stone Guards feature a durable wire mesh in durable black powder coat finishes. The Billet Stone Guards are also available in black and feature a contemporary look found nowhere else. Match these kits up with the Rugged Ridge® Grill inserts and headlight bezels and you have a complete front end enhancement.

97-06 Wrangler

STAINLESS & BILLET STYLE GAS HATCH COVERS

Create a custom look in just a few minutes. This special design fits directly over the existing gas cap opening. These tough gas covers are available in either stamped stainless steel, polished aluminum or chromed aluminum and are specially treated for resistance to gasoline and other chemicals. Unlike other designs on the market, installation does not require the removal of the tail light or internal gas cover components.

| Application | Finish | Part # |
|----------------------|----------------------------|----------|
| 97-06 Wrangler, Each | Stainless Steel, Locking | 11134.04 |

NEW XHD REPLACEMENT SEATING

Finally a seating design that fits late model [97-06] Wranglers without the use of an add-on adaptor bracket. This revolutionary new patent pending design is the first true replacement seating up-grade in the last 30 years! By offering a model year specific program for late model Wranglers, you only need to purchase the replacement seat and not be bothered with those expensive add-on adaptor brackets. Furthermore, while developing these new designs, we up-graded specific components of the seats creating the most durable seating program on the market today. The XHD seats, though they look similar, are an up-grade to our current designs.

Features and benefits of XHD Seating

- Special patent pending seat base design that allows for easy installation in all 97-06 Wranglers without any adaptor brackets! Saves you money, provides extra strength and provides true ease of installation!
- Each XHD Seat is designed to allow full functionality on 97-06 Wranglers. The unique design incorporates the factory front slider feature along with a built-in reclining mechanism for driver comfort. Only XHD Seating from Rugged Ridge® gives you these options on late model Wranglers!
- Dense foam pack and heavy duty raised spring design creates a more comfortable seating experience. This new "comfort design" has been created to ensure seat longevity and comfort all in one package
- Four heat treated grade eight 7/16" side bolts attach the seat base to the seat back. This increased bolt size [most seats use 8 MM bolts] strengthens the seat back and meets DOT standards for use with late model [03-06 Wrangler] seat belt attachments
- Tough automotive grade vinyl or woven fabric [XHD Off-Road Seat] and matching stitch patterns provide a great look in your Jeep® and tough "off road rated" performance.
- All lower seating areas have an expanded bolster area providing a wider seating area and more comfort. Wider bolsters also provide easier access/exit while entering and leaving the vehicle
- A low profile seating surface along with not having to use adaptor brackets provides less steering wheel interference and more comfort. These seats have been specially designed for the true Jeep® enthusiast!
- Infinitely adjustable reclining mechanism lets you customize the seat recline position for the ultimate in comfort
- Each seat offers an industry leading 3 year limited warranty

XHD ULTRA SEAT

- Our Full featured seat design with a removable and adjustable head rest.
- Expanded top and bottom side bolsters cradle the driver in comfort.
- Stylish racing design up-grades the look of any Jeep® interior.
- Constructed of durable automotive grade textured vinyl and available in four factory matching colors: Non-textured Black, Gray, Black Denim, Spice.
- Infinite recline mechanism.

STANDARD REPLACEMENT HIGH BACK SEATS

Want all the strength and comfort of our reclining seat but without the recliner? Look no further! The Standard Replacement Seat from Rugged Ridge® offers all the great quality benefits of our reclining seat but we have removed the reclining mechanism. This low cost alternative gives you the value and quality you are looking for, but is priced less. Also available in the Standard series is our Low Back Replacement Seat. This seat is specially designed for those earlier Jeep® restoration projects and uses the original mounting hardware and bolts from the original seats.

FACTORY STYLE REPLACEMENT SEAT WITH RECLINER

13402.01 Factory Style Replacement Seat Reclining in Different Positions

Replacement seating that reclines just like the original! All Rugged Ridge® Seating is manufactured to exacting specifications to guarantee only the highest quality. Each seat is constructed of durable automotive grade vinyl that is designed to match your vehicles interior and all Rugged Ridge® rear seats. All frames are powder coat painted and welded to make sure it can take those off-road adventures and years of open air use. The foam pack and spring system used on all Rugged Ridge® Seats is extremely dense for long life yet soft enough for true comfort. Soft side bolsters "cradle" the driver making driving a pleasure. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort. All Rugged Ridge® seats feature a stylish stitch pattern and original equipment bolt pattern for ease of installation and a great original equipment look. Simply remove the old seat and bolt in the new!

SEAT ADAPTERS

Required equipment for installing replacement seats on 97-02 Jeep® Wrangler vehicles. Designed for both Rugged Ridge® and Outland replacement Jeep® seats.

| Seat Adapters | Part # |
|-------------------------------|----------|
| Driver Side, 97-02 Wrangler | 13201.11 |
| Passenger Side 97-02 Wrangler | 13201.12 |

*Not needed w/ XHD Seats

WARNING: Caution: replacement seating is offered for restoration or off-road use only. Replacement seats are provided by third party vendors and are not represented as meeting FMVSS standards.

SEAT RISER

Replace your worn seat risers or upgrade your current riser. They are designed for easy attachment of seat sliders (sold separately) which will attach to any aftermarket or OE Jeep® seat.

| Seat Riser | Part # |
|---|----------|
| Driver Side, 76-95 CJ/Wrangler, Each | 13201.01 |
| Passenger Side, 76-95 CJ/Wrangler, Each | 13201.02 |

REPLACEMENT SEAT SLIDER

Designed to be used with Rugged Ridge® or factory seat risers, these heavy-duty sliders allow the seat to slide forward and back. Each seat slider is sold separately so you will need two, one for each front seat!

| Seat Slider | Part # |
|-------------------------------------|----------|
| Seat Slider 76-95 CJ/Wrangler, Each | 13201.03 |

THE SUPER SEAT

Comfort, strength and stability all in one seat! Luxuriously soft side and bottom bolsters cradle you in comfort while providing stability on those off-road trails. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort.

13404.37

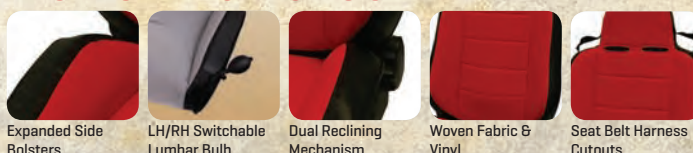

THE SPORT SEAT

All Seats being installed on 97-02 Jeep® Wranglers require an optional front seat adaptor bracket: Drivers Side 13201.11 / Passengers Side 13201.12
WARNING: Caution: replacement seating is offered for restoration or off-road use only. Replacement seats are provided by third party vendors and are not represented as meeting FMVSS standards.

RRC RECLINING RACING SEAT

More features, more comfort, and the best pricing of any racing seat design. Each seat features dual reclining mechanisms allowing for infinite reclining positions. The special "Jeep® Specific" design uses ultra dense foam and steel construction for greater comfort and long life. Side bolsters have been slightly expanded and designed specifically for both lifted and non-lifted Jeep® vehicles. Special air adjustable lumbar support provides the most comfortable back support in a racing seat design. Each seat has three seat belt harness cutouts for use with a multi-point racing harness seatbelt. 1997-02 models require the Rugged Ridge® mounting bracket for installation.

Available in 3 Colors

FOLD & TUMBLE REAR SEATS

Need more rear storage space in the back of your Jeep®? Simply "fold and tumble" the Rugged Ridge® Rear Fold and Tumble Seat and you create instant cargo space. Each seat is constructed of durable automotive grade vinyl that is designed to match your vehicles interior and all Rugged Ridge® front seats. Each frame is powder coat painted and welded to make sure it can take those off-road adventures. The foam pack used on all Rugged Ridge® Seats is extremely dense for long life yet soft enough for true comfort. Installation is easy with attachments to existing mounting points and minimal drilling required. Uses existing seat belts.

EASY AS 1-2-3

Just fold the seat back forward, and tumble the whole seat up and out of the way

13263.53 Rear Seat Covers
Neoprene, 03-06 Wrangler

CUSTOM FIT NEOPRENE & POLY COTTON SEAT COVERS

Protect your Jeep's® interior with these two great Seat Cover options: Custom Fit Neoprene Seat Covers or Custom Fit UV treated Poly Cotton Seat Covers, both from Rugged Ridge®. These covers are constructed of either durable neoprene or tough poly cotton fabric creating the best looking custom seat cover available. Rugged Ridge® does not use that cheap stretch nylon on their seat covers! Neoprene [wetsuit material] is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Poly Cotton is a great fabric to protect your seats from dirt, sweat and heat from the sun. No more burned legs from hot vinyl seats! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently re-upholstered. Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. Available in black on black, Gray on black, red on black [neoprene models only] and tan on black to complement virtually any Jeep® interior.

RUGGED RIDGE® SYNTHETIC ROPE PERFORMANCE WINCHES!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dymeema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge® winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge® 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fiber used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

10,500 LB Performance Winch with Synthetic Rope | 15100.11

WARNING: WARNING: Read and understand all instructions and related Warnings, Cautions and Notices before attempting to install or use your Rugged Ridge® winch.

WHY SYNTHETIC WINCH ROPE?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

NEW!

- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- Same high strength fabric used in ballistic body armor.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Protective sleeves keep line from overheating on winch drum.

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great kits to fit your lifestyle and budget. Made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail.

* Does not work with Tube Bumper, use Raised Winch Plate for Tube Bumpers.

If you have installed larger tires on your rig then a matching spare tire is a must. The problem comes when you try to bolt that new monster tire/wheel combo on your factory spare tire mount. Rugged Ridge has the answer with the HD Tire carrier Mount. The HD Tire Carrier Mount is constructed of heavy 1/4" steel plate and mounts to the tailgate. The tire is relocated two inches up and out from the old mount for larger tire clearance [Maximum tire size=35"].

HEAVY DUTY TIRE CARRIER MOUNT

Heavy-Duty Tire Carrier & Spacer

97-06 WRANGLER TUBE DOORS

Like the "doors off" feel but also want the added convenience and utility of having doors on the trail? Rugged Ridge® Tube Doors are constructed from durable 1.5" mandrel bent steel tube that is E-Coated primered and then textured powder coated for a long lasting finish. Tube doors help increase visibility when climbing obstacles and trail riding. The Tube Doors interchange easily with the factory steel doors and require no body modification for installation. They are light weight and small enough to be stored easily in back of the vehicle when not in use.

GAS TANK SKID PLATES

The last thing you want to happen on a trail ride is to lose the only thing that keeps your engine running: gas. That's why Rugged Ridge has custom designed this Skid Plate to protect the gas tank on 1987-06 Wranglers. This overbuilt skid plate is a must for those who want that extra bit of protection for their off road adventures. Constructed of durable 3/16" thick powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Bolt-on installation using existing frame mounting locations. This skid plate replaces the factory skid plate.

HEAVY-DUTY DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made of 3/8" cast steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been "44 caliber tested" - if they can take a bullet at point blank range [don't try this at home!], they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy of installation.

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain is to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powdercoated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. 70-95 CJ & Wrangler kits place the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries. 97-06 TJ Wrangler kits stack the batteries and are for use with cylindrical-style sealed gel cell batteries only due to the battery mounting direction.

TRANSFER CASE SLIP YOKE ELIMINATOR KIT/CV DRIVE SHAFTS

18676.72 Mega Short Slip Yoke Eliminator Kit

This kit is a MUST if you installed a 2" or taller suspension lift in your 1988-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit [SYE] will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. The Mega Short SYE [18676.72] is designed to be used in the same lift applications as the other standard SYE kit (2" and up). The main advantage to the new Mega Short SYE is that it allows for a much longer drive shaft to be used (additional 3"). This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

18676.60 Slip Yoke Eliminator Kit

16592.06 CV Equipped Drive Shaft for 97-06 Wrangler

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

HEAVY-DUTY STEERING KITS & COMPONENTS

Beef up your ride with Rugged Ridge® steering components. This is a bolt-on solution for preventing bent tie rods from wheeling with larger tires. The tubes are 1-3/4" ID SAE 1018 steel that is cold rolled, pierced, and drawn through dies to produce a wall thickness of 3/4". This is true DOM tubing with no seams or welds to fail. Heavy-duty 7/8" rod ends feature standard tapered ends to fit stock knuckle applications. You get one ton strength without any modifications to your steering knuckles. The Heavy-Duty Crossover Steering Conversion Kit replaces the bump-steer prone inverted Y-type steering system. This kit connects the drag link to the end of the tie rod at the wheel, giving a better steering angle and better leverage. If your vehicle is lifted a crossover steering system is a must!

Heavy Duty Crossover steering systems prevent "bump steer"!

RRC TUBULAR FLAT FENDERS

These over-built tubular fenders were designed for maximum suspension articulation while still maintaining a factory-style inner fender liner. Tough 0.120" wall tube is attached to 1/8" steel plating for one tough fender design. RRC Tubular Flat Fenders are direct factory replacements with a built in full fender liner [some drilling may be required] allowing for all factory engine accessories to be mounted by using the factory mounting hardware. Fenders are packed in pairs, primed for paint. Though these flares cover most tires, they are designed for offroad use and additional flare coverage may be needed for onroad use in some states. Two unique styles to choose from: Basic model requires greater installation [drilling] and more sheet metal work before painting. It also includes the side marker light housing. Upgrade model bolts directly on using factory inner liner has ground welds and is ready for paint. The upgrade version does not include the side marker light housing and is designed for offroad use only.

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge® lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually.
All include impact resistant stone guards

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

HALOGEN LIGHTING

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards (white stone guards with stainless, black with black) and illuminated dash switch.

FRONT BUMPER LIGHT BARS

Rugged Ridge has engineered a durable and easy to install light bar that allows you to add auxiliary lighting to your factory Wrangler bumper. The light bar bolts to existing mounting holes and installs easily without cutting, drilling, or removing the bumper. With a few simple hand tools you will be able to install your light bar and mount up to three lights on your Jeep® while retaining your factory bumper. Lights not included.

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque, depending on application.

- Polished mandrel bent 6063 aluminum air intake tube.
- Simple no-drill installation bolts on using simple hand tools.
- Includes a high-flow conical dry panel filter that never needs oiling.
- Intake kit includes black powder coated heat shield
- Part # 17750.01 for 97-06 4L wranglers include a throttle Body Spacer as a part of the kit.
- Improves fuel economy up to 10%*
- Adds up to 10HP and 12ft lbs or torque**

THROTTLE BODY SPACER

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for both 4.0L and 2.5L engines. [included in cold air kit 17750.01]

- Solid Aluminum Construction.
- Simple no-drill installation bolts on using simple hand tools.
- Includes mounting hardware, gaskets and spacers.
- Black Anodized Finish.
- Fits 91-06 Wrangler 4.0L & 91-02 2.5L

SYNTHETIC AIR FILTERS

Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! Rugged Ridge® performance high flow filters are made from a synthetic fabric and not cotton. Cotton filters are made porous and must be oiled to trap dirt and debris. But that oil reduces air flow through the filter and it can become easily clogged. No oil = No fuss, no mess and improved performance!

RUGGED RIDGE® CATBACK EXHAUST KITS FOR 2000-06 WRANGLER

Open up your Jeep's® exhaust with this great looking stainless steel catback exhaust system from Rugged Ridge®. Rugged Ridge® catback exhaust kits are manufactured from mandrel bent, T304 stainless steel that has been polished to a mirror finish. They feature a precision TIG welded muffler with reinforced inlets and outlets, and a deep throaty sound. The 2-1/4" mandrel bent pipes increase performance and provide exhaust gases a smooth exit from though looking slant cut exhaust tips. This is a bolt-on system that installs after the catalytic converter to keep you emissions legal. Dyno results show typical horsepower gains of over 10 horsepower, or you can use in conjunction with our cold air intake for even more power! Rugged Ridge® Catback Exhaust: Great Sound. Better Performance.

Designed by a dedicated team of Jeep® enthusiasts, the ORV™ suspension program is one of the most complete programs available. We have looked at each application in detail to provide the very best and most complete solution for your Jeep®. Since we focus the large majority of our attention on Jeep® vehicles, we know the ins and outs of what the best lift solution is depending on your individual needs. Below is a quick reference guide on the ORV™ program to make it easier to choose the lift you need for your particular need. Remember, all ORV™ Kits with shocks include a pair of neoprene wrapped grab handles and an Off Road Organizer for your glove box!

Welcome to ORV™ by Rugged Ridge®!

ORV™

A FEW WORDS ABOUT PRODUCT SAFETY.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road.

It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product.

To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

NOTICE

This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING

This is a signal telling you that you CAN be KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION

This is a signal telling you that you or others CAN be HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING HIGHER ROLLOVER RISK

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

18415.33 Poly Spacer Kit

18415.31 Coil Lift Kit

18415.20 Leaf Spring Kit

Know your Kits: Though there are many ways to provide extra lift for your Jeep®, ORV™ recommends the following lift options as the best way to Lift your Jeep®:

Poly Spacer Kits: Available for Coil Spring Jeep® Wranglers from 97-06

Coil Spring Kits: Available for Jeep® Wranglers from 97-10, 93-98 Jeep® Grand Cherokee

Leaf Spring Kits: Available for Jeep® CJ/Wrangler from 55-95

LIFT OPTIONS EXPLAINED:

• **Poly Spacer Kits** - Used for small lifts, these low cost lifts are designed for on road/light off road use only and incorporate the factory coil springs. With the addition of spacers, the ride of your Jeep® will be stiffer than original and provides very little articulation when off road. Bump stops (also called blocks) should always be a part of the kit as you will be using the factory springs. Without the bump stops your spring could over compress. These situations can cause a rebound rate that is too great causing a potential mishandling situation or damage your suspension. This method of lifting is the low cost/lower performance solution to lifting your Jeep® vehicle.

• **Coil Lift Kits** - Used for medium to large lifts, these lifts are designed for on road and moderate to severe off road use. Coil Spring kits provide the best way to give extra lift and still maintain OE ride characteristics. The 2" - 4" kits should offer new springs and extended Bump Stops as listed above as well as rear track bar bracket/brace to ensure proper centering of the axle and a secure fit. On 4" kits, it is important have front sway bar disconnects. These important disconnects will provide much more articulation when using your Jeep® off road.

• **Leaf Spring Kits** - Used for all Jeep® CJ/Wrangler vehicles from 1955-1995, these heavy-duty lifts provide a fairly straightforward lift option. The key to any leaf spring lift is the leaf spring itself and prices will vary greatly depending on quality and features. Key "must-have" features that will provide the best ride include: 1.) Teflon inserts between each leaf. These inserts allow each leaf to move independently creating a better ride both on and off road. 2.) Leaf springs should be held together with roller clips and not cinch clips. This method of securing the leaf springs together is more expensive but dramatically improves the vehicles ride and off road performance. 3.) Make sure your leaf springs have built-in degree wedges to help with pinion angle issues. Plus by having a degree wedge already attached, installation of the kit will be easier and there are no extra parts to purchase.

COIL SPRING KITS

All ORV™ springs are set to original factory rates. Provides a better ride both on and off road.

All ORV™ springs are constructed of 5160H hot rolled bar, keeps its memory so the spring will not sag.

All ORV™ coil springs are powder coated, E-coated 5/8" coil for long life and strength.

POLY SPACER KITS

Coil spring spacers are made from high density polyurethane.

Rugged Ridge® bump stops are firmer than stock stops for more suspension control.

LEAF SPRING KITS

All late model CJ/ Wrangler ORV™ leaf springs use a roller clip to improve ride.

All ORV™ leaf springs have Teflon pads in between each leaf for maximum travel and a better ride.

All ORV™ leaf springs are powder coated, shot-peened steel, reducing leaf fatigue. This treatment ensures the leaf springs will last longer.

All ORV™ leaf springs have built in degree wedges to help correct pinion angle.

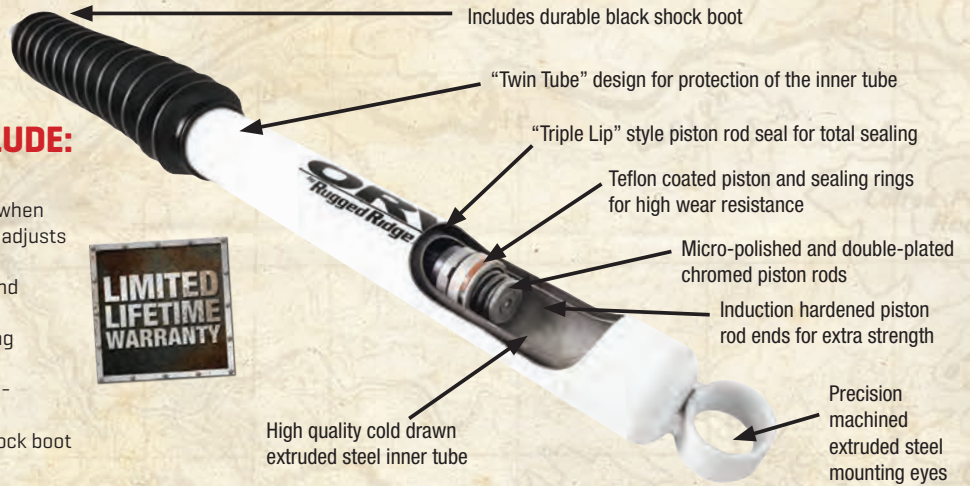

All ORV™ leaf springs are pre-assembled and set to factory flex rates.

ORV™ SHOCKS

ORV™ only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV™ kits provide a better ride both on and off road. By using an ORV™ lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll. This is extremely important, as body roll will kick in the ESP sensors on later model Jeeps®, which could shut the vehicle down.

ORV™ SHOCK FEATURES INCLUDE:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV™ specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

ORV™ STEERING STABILIZERS

ORV™ recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV™ Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV™ Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 97-06 Wrangler TJ, 2" spacer lifts are designed for a larger tire than factory and light off road use. The 2" coil kit is designed for a larger tire and moderate off road use. The 4" coil kit is designed for more severe off road use and up to a 34" x 12.5" x 15" tire.

ORV™ COIL SPRING LIFT KITS FEATURE:

- Get off road performance while not sacrificing on road ride! This kit will provide as close to factory a ride as you can get while providing off road articulation.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to original factory rates. By using 5160H hot rolled bar, ORV™ springs keep their memory eliminating any possibility of future sag.
- By setting the coil springs to factory rates, you get the best on road ride possible and the ability to use a larger tire.
- ORV™ uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding: this extra heavy-duty design ensures a long life, both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- Each 2" Coil Spring Lift Kit includes 1" transfer case lowering brackets. These are not spacers but full-length brackets that actually solidly secure your transfer case. ORV uses these brackets rather than spacers as spacers can create flex therefore putting undue stress on the drive line.
- Each 4" Coil Spring Lift Kit includes 1.5" transfer case lowering brackets. These are not spacers but full length brackets that actually "true" your transfer case. ORV™ uses these brackets rather than spacers, as spacers can create flex therefore putting undue stress on the drive line.
- Kit includes two sway bar disconnects for more off road articulation.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 1997-2006 Wrangler/Unlimited.
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry (sold separately).

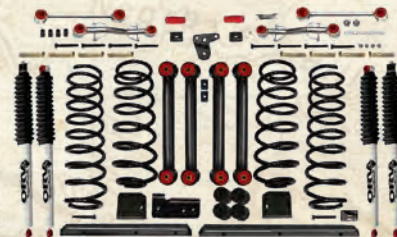

CJ & Wrangler 76-06

ORV™ 2" Poly Spacer for 1997-2006 Wrangler 18415.33
 • Low cost kit that provides a small lift for over sized tires
 • Each kit contains 4 spacers and four bump stops
 • Spacers are made of durable polyurethane for a long life

2" Lift for 2003-06 Wrangler/Rubicon 18415.32

| 97-06 Wrangler with 3.5"-6" Lift [for Mega Short SYE only] | 16592.06 |

*These drives shafts use 3-5/8" wide U-Joints, please verify U-Joint size before ordering.

DROP PITMAN ARMS

Lifting a vehicle takes more than just slapping on taller springs. The stock steering linkage is designed for use with the stock height suspension. The steering linkage angles of a lifted vehicle are more extreme and influenced by suspension travel. This drop pitman arm helps reduce the angle of your drag link and reduce bumpsteer created when a suspension lift is installed.

| Drop Pitman Arms | Part # |

WARNING: WARNING: Look at the beginning of the ORV™ section for important safety information.

BODY LIFTS FOR 1997-06 WRANGLER

Need some extra clearance for your oversized tires? This all new Rugged Ridge® body lift includes everything you need to fit up to 33" diameter tires. By allowing a taller tire you'll get that extra ground clearance you need when facing off road obstacles.

| 3" Body Lift | Part # |
|---|----------|
| 97-06 Wrangler w/ auto, 05-06 6-speed transmission, Kit | 18303.11 |
| 97-04 Wrangler w/ 5-speed, Kit | 18303.10 |

WARNING
 HIGHER ROLL-OVER RISK
 Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® product to achieve additional lift. See additional product safety information and (WARNING) on page 76.

1955-95 CJ/WRANGLER

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 1976-95 CJ/Wrangler, the 2" - 2.5" Leaf Spring kits are designed for a tire size up to 31" and moderate off road use. The 1955-95 CJ/Wrangler 4" Leaf Spring kits are designed for more severe off road use and up to a 33" x 12.5" x 15" tire.

18415.08

18401.20

WARNING: WARNING: Look at the beginning of the ORV™ section for important safety information.

ORV™ Leaf Spring Lift for 1955-1995 CJ / Wrangler

- Get off road performance without sacrificing on road ride! These kits provide as close to a factory ride as possible.
- Includes 4 powder coated, shot-peened leaf springs with Teflon inserts and pre-installed degree wedges.
- Each leaf spring has Teflon between each leaf for a factory ride, better performance.
- Pre-installed degree wedges provide ease of installation and no more parts to buy. These wedges help to correct any pinion angle issues that may arise due to the lift.
- By shot-peening the leaves before assembly, it assures that the leaf springs will not sag over time.
- All ORV™ U-bolts are grade-8 and E-coated to ensure they will be able to take off road abuse.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 87-95 Wrangler [see below].
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry [sold separately, see below].
- Note: Actual lift height is dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].

| Application | Kit w/o Shocks | Kit w/ Shocks | Max Tire Size-HxWxD | Max Wheel Offset | Est. Install Time |
|-----------------------------------|----------------|---------------|---------------------|------------------|-------------------|
| 87-95 Wrangler, 2"-2.5" Lift | 18401.20 | 18415.20 | 31"x10.5"x15" | 3.75" | 4 Hrs. |
| 87-95 Wrangler, 4" Lift* | 18401.25 | 18415.25 | 33"x12.5"x15" | 3.75" | 6 Hrs. |
| 76-86 CJ5, CJ7, CJ8, 2"-2.5" Lift | 18401.08 | 18415.08 | 31"x12.5"x15" | 3.75" | 4 Hrs. |
| 76-86 CJ5, CJ7, CJ8, 4" Lift* | 18401.15 | 18415.15 | 33"x12.5"x15" | 3.75" | 4 Hrs. |
| 55-75 CJ5, CJ6, 4" Lift* | 18401.14 | 18415.14 | 33"x12.5"x15" | 3.75" | 4 Hrs. |

* 72-76 models will require a drop pitman arm. Sold separately. [See page C60]

* 87-95 Wrangler 4" Lift Kits require the use of a CV Driveshaft [page C60] and Slip Yoke Eliminator [C48]. Sold Separately.

18401.20 Kit includes: [4] leaf springs, [8] U-bolts, hardware kits.

18401.25 Kit includes: [4] leaf springs, [8] U-bolts, hardware kits, [2] track bar extension brackets.

18401.08/.15 Kit includes: [4] leaf springs, [8] U-bolts, hardware kits.

18401.14 Kit includes: [4] leaf springs, [8] U-bolts, hardware kits.

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE® LIMITED LIFETIME WARRANTY

Your Omix-Ada® /Rugged Ridge® product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada® /Rugged Ridge® /ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge® but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge® suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada® /Rugged Ridge® /ORV™ Limited Warranty does not cover any Rugged Ridge® /ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to: Installation damage, alteration, modification or failure to maintain.

- Normal wear and tear [bushings, tie-rod ends, etc.]. Scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Omix-Ada® /Rugged Ridge® /ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current /Rugged Ridge® /ORV™ catalog or the instructions accompanying your Rugged Ridge® /ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada's® option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts (including Rugged Ridge® and ORV™) should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

DRIVETRAIN ENGINEERING PERFECTED

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an

industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand!

The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC [the distributor/warrantor of these products] makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 [770-614-6101]. Ultra Axle® reserves the right to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals, Differential Covers, Differential Cable Lock Kits, Wheel Spacers, Transfer Chain Kits, Yoke Conversion Kits & Hub Conversion Components - **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA® Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

FRONT AXLE KITS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA®'s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and driver inner and outer axle shafts, seals, U-joints and clips.

12198

High tensile strength 4140 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 35% stronger than stock 1040 axles. Alloy USA® uses the latest cold rolled splining technology, to produce splines that are stronger than traditional cut splines. Our shafts are covered by an exclusive 10-year warranty! Rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs. Upgraded spline counts for Jeep® applications: Dana 35 spline upgrades from 27 splines to 30 splines. Dana 44 spline upgrades from 30 splines to 33 and 35 splines.

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range [don't try this at home!], they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

| Differential Cover Application | Cast 3/8" Steel | Stamped 5/16" Steel |

WHEEL SPACERS

- Moves your wheels out to help fit wider tires-creates extra stability.
- Hub centric design to assure wheel balance.
- Constructed of durable 6061T6 aluminum for long life, extra strength and corrosion resistance.
- Available in 1.25" to 1.5" widths for today's most popular wheel sizes.
- Each pair includes pre-installed grade 8 wheel studs, 10 lug nuts and thread locker.
- Wheel adaptors convert current bolt patterns to alternate bolt patterns for use with different wheels.
- Wheel Spacers and Wheel adaptors are sold in pairs.

WHEEL SPACERS

DANA 60 / 70 YOKE 1410 SERIES YOKE CONVERSION KITS

Genuine Dana Spicer NOS yoke for 1410 series U-Joint. Some oxidization may have occurred during shelf life.

These great Conversion Kits allow you to convert your old strap style yoke to the newer stronger u-bolt design. Not only is the U-bolt kit stronger, it makes changing out a failed U-joint a painless process. The kit includes a new yoke, pinion nut, pinion spacer, pinion seal, u-joint and u-bolts. Alloy USA uses premium Spicer U-joints in all their yoke kits.

DIFFERENTIAL CABLE LOCK KITS

The Alloy USA® Differential Cable Lock Kit is a permanent replacement for the failure prone OE vacuum disconnect system. The kit allows you to engage and lock the front axle from inside the cab. A 1inch pull of the cable ensures you will have four wheel drive when you need it for as long as the transfer case is engaged. Backed by a three year warranty.

TRANSFER CASE CHAIN

If you're servicing your transfer case and your OE chain has more than 60,000 miles on it, it is time for a replacement. Why replace your chain when you can upgrade it? Our advanced Round Pin technology allows the chain to double back on itself and offer greater articulation than the standard rocker pin design. We use high tensile strength steel to ensure that your TC chain endures peak loads under heavy operating conditions repeatedly over time. Backed by an industry leading three year warranty.

| Quadratrac Transfer Case Chain, 2 5/8" Width w/ 48 Links, CJ7 76-79 w/ Automatic Transmission NEW | 11651 |

TRANSFER CASE SLIP YOKE ELIMINATOR KIT

This kit is a MUST if you installed a 2" or taller suspension lift on your 1988-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit [SYE] will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. This reduces drive shaft angle, improves bearing & U-joint life, and reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

11400 Slip Yoke Eliminator Kit

▲WARNINGS

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

Transfer Case Slip Yoke Eliminator Kit

[2] Note: Will not fit 87-95 Wranglers with O.E. front disconnect axle. Must upgrade to 1 pc 30 spline grande axle. For use with all grande 30 spline axle upgrades & Rubicon Dana 44's.

LOCK RIGHT® LOCKERS

The Powertrax® Lock-Right® Lockers performance is equal to a solid spool axle, yet automatically unlocks to allow full differentiation in turns. The locker also reduces the excessive noise, tire wear, and drivetrain damage associated with other lockers. Powertrax lockers replace the spider gears in your differential carrier without affecting your ring and pinion settings. The whole job can be done in your driveway with common hand tools in a couple of hours. A carrier is not included. Whether it be snow, sand, mud, ice, etc... the LOCK-RIGHT will give you the traction you need.

RING & PINION

Precision Gear® understands the rigors of racing. Horsepower is useless unless you can get it to the ground. Most companies providing ring and pinions today look for the cheapest source without consideration of quality. They “stand behind” their product until the day you buy it and install it on your car. At Precision Gear® each ring and pinion we sell is backed by an exclusive five year warranty! Our gears are made from high quality 8620 forgings and Gleason gear cutting technology because our gears are made to last!

For additional product listings and more information visit www.precisiongear.com.

Master Installation Kits:

Precision Gear® understands the complexity of rebuilding your differential. To help solve this difficulty and eliminate multiple trips to the parts store we have included everything you need to complete your ring & pinion installation and get you back on the road quick all in one great kit.

Master Installation Kits Include:

- Carrier Bearings
- Pinion Bearings
- Pinion Nut
- Pinion Seal
- Preload Shims or Crush Collar
- Pinion Shims
- Gasket or RTV
- Marking Compound
- Differential Shims (where applicable)
- Locktite
- Oil Slingers (where applicable)
- Ring Gear Bolts (where applicable)

* Ring & Pinions and Installation Kits are sold separately.

FRONT TUBE BUMPER

All Rugged Ridge® Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. No other tubular bumper manufacturer goes to the expense of smooth grinding their welds. This exclusive smooth grind process virtually eliminates small weld “pockets” that never seem to get full paint coverage and tend to rust over time. Finally, all Rugged Ridge® Bumpers feature welded end caps rather than plastic end caps. Gone are the days of constantly replacing those lost tube bumper end caps after a long day on the trail.

STEEL D-WINDOW WHEELS

Legendary looks, brutally epic strength. Each Rugged Ridge® steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up to abuses of off road use. Because a Jeep® isn't a Jeep® until its lifted and outfitted with oversized tires. Includes center cap.

| Description | Part # |
|---|----------|
| Steel wheel D-Window, Black, 15X8, 5 on 4.5 bolt pattern, 3.75 backspacing, Cherokee [XJ] 84-01, Grand Cherokee [ZJ] 93-98 | 15500.01 |
| Steel wheel D-Window, Black, 15X10, 5 on 4.5 bolt pattern, 3.75 backspacing, Cherokee [XJ] 84-01, Grand Cherokee [ZJ] 93-98 | 15500.02 |

RUGGED RIDGE® WHEEL SPACERS

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are 10 pre-installed grade-8 wheel studs, 10 lug nuts and thread locker.

| Wheel Spacer Kit | Width | Bolt Pattern | Part # |

| 84-01 Cherokee, Grand Cherokee 93-98, Pair | 1.5" | 5 on 4.5" | 15201.08 |
| Wheel Adapter Kit | Width | Conversion | Part # |
| 84-01 Cherokee, Grand Cherokee 93-98, Pair | 1.25" | 5 on 5" to 5 on 4.5" | 15201.04 |

CAUTION!

CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

Cherokee 84-12

FEATURES & BENEFITS OF THE NEW XHD SEAT DESIGN

- Bolt-in solution for 84-01 XJ Cherokees! The first bolt-in solution—No adapters necessary!
- Durable powder coat painted welded interior frame to prevent interior seat rust and provide lasting comfort.
- Special patent pending seat base design that allows for easy installation in all 84-01 XJ Cherokees without any adaptor brackets! Saves you money, provides extra strength and provides true ease of installation!
- Each XHD Seat is designed to allow full functionality on 84-01 XJ Cherokees. The unique design incorporates the factory front slider feature along with a built-in reclining mechanism for driver comfort. Only XHD Seating from Rugged Ridge® gives you these options for XJ Cherokees!
- Heavy Duty seat base incorporates a CAD designed girder system which provides twice the strength of any other replacement seat on the market today. This design is the most advanced seat base ever created in the last 30 years!
- Dense foam pack and heavy duty raised spring design creates a more comfortable seating experience. This "comfort design" has been created to ensure seat longevity and comfort all in one package.
- Four heat treated grade eight 7/16" side bolts attach the seat base to the seat back. This increased bolt size (most seats use 8 MM bolts) strengthens the seat back and meets DOT standards in 84-01 XJ Cherokees.
- Tough automotive grade vinyl or woven fabric [XHD Off-Road Seat] and matching stitch patterns provide a great look in your Jeep® and tough "off road rated" performance.
- All lower seating areas have an expanded bolster area providing a wider seating space and more comfort. Wider bolsters also provide easier access/exit while entering and leaving the vehicle.
- A low profile seating surface along with not having to use adaptor brackets provides less steering wheel interference and more comfort. These seats have been specially designed for the true Jeep® enthusiast!
- Infinitely adjustable reclining mechanism lets you customize the seat recline position for the ultimate in comfort.
- Each seat offers an industry leading 3 year limited warranty.

Cherokee 84-12

XHD ULTRA SEAT

- Our full featured seat design with a removable and adjustable head rest.
- Expanded top and bottom side bolsters cradle the driver in comfort.
- Stylish racing design up-grades the look of any Jeep® interior.
- Constructed of durable automotive grade textured vinyl and available in four factory matching colors: Non-textured Black, Gray, Black Denim, Spice.
- Infinite recline mechanism.

XHD RECLINING SEAT

- Low cost seat replacement option. Style matches the original Jeep® look with horizontal stitching and infinite recline mechanism.
- Great entry level price point for 84-01 XJ Cherokees.
- Constructed of durable automotive grade textured vinyl and available in three factory matching colors: Gray, Black Denim, Spice.

TOTAL PROTECTION FOR YOUR JEEP®!

Rugged Ridge® All Terrain Floor Liners offer complete interior floor protection for your Truck, SUV or Jeep®. Now you can be assured when Rugged Ridge® All Terrain Floor Liners are installed, your investment is protected for the life of your vehicle. Rugged Ridge® All Terrain Floor Liners are essential for everyday use, at work or when your vehicle is used for outdoor adventures. Keep your vehicle clean and free from harmful airborne contaminants that get in your carpet when going through snow, dust, sand or even when you decide to go play in the mud. Rugged Ridge® has you protected when its necessary to catch the second scoop of your little ones ice cream after the big game. No jobs too big with our 3/8" Deep Tread Technology chevron pattern floor liners, that are up to 3 times the depth of the other floor liners for maximum floor protection. Rugged Ridge® All Terrain Floor Liners are available for domestic and foreign vehicle manufactured applications.

Protects your vehicles interior from whatever nature throws at you!

Deep Treads keep water/snow away from your clothing.

Easy to Clean; simply hose off and go!

Exclusive Self Sealing floor hook attachment keeps moisture out while securing the liner!
[Available on most applications]

RUGGED RIDGE SYNTHETIC ROPE PERFORMANCE WINCHES!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dymeema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

ALL WEATHER 12' CABLE REMOTE INCLUDED FOR ALL WINCHES

8,500 LB Performance Winch w/ Synthetic Rope Part #

- Hawse fairlead included

ALL RUGGED RIDGE SYNTHETIC WINCHES INCLUDE AN ALUMINUM HAWSE FAIRLEAD

10,500 LB Performance Winch w/ Synthetic Rope Part #
15100.11

WHY SYNTHETIC WINCH ROPE?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- Same high strength fabric used in ballistic body armor.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Protective sleeves keep line from overheating on winch drum.

WINCH CABLE HANDLE

15102.01

The winch hook handle is the perfect solution for handling a winch cable. It is constructed of tough nylon webbing with a molded sure-grip handle. Perfect for getting a good solid grip of the winch hook when free spooling cable for a recovery and a safe way to respool your cable without endangering your fingers. Just slip your winch hook through the nylon webbing and you are ready to rock!

ROLLER FAIRLEAD LICENSE PLATE HOLDER

If your state requires a front license plate, we have a solution for you. Instead of drilling holes in your bumper or risking not running a front plate, this easy to install license plate holder attaches to your winch roller fairlead. Simply bolt your license plate to the bracket and snap the holder in place. Your license plate is now securely mounted yet easily removable for winching.

TIRE REPAIR KIT

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge offers two great kits to fit your lifestyle and budget. Made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail.

Rugged Ridge Adjustable Tire Deflator Kit

|------------------------|----------|
| 4 Piece Kit NEW | 15104.53 |

ADJUSTABLE TIRE DEFLATOR KIT

The Rugged Ridge Tri Fold Recovery Shovel is a fully functional collapsible shovel that features two serrated edges for cutting or digging. The heavy duty black powder coated body is 23 inches when open and folds to a mere 9 inches. It can be stowed easily in any vehicle, but is still rugged enough for the toughest of jobs. Includes durable storage case.

HID & Halogen Lighting

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge® lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually.
All include impact resistant stone guards

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

HALOGEN LIGHTING

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards [white stone guards with stainless, black with black] and illuminated dash switch.

FRONT ADJUSTABLE TRACK BAR & FRAME STIFFENER

The Adjustable Track Bar's function is to properly locate and center the front axle under the body of your Jeep® and improve its handling capabilities and steering geometry. This kit is designed to correct misalignment that can develop with Jeeps® with 4" of lift. Our track bar tubes are constructed with 1.25" OD x.25" wall DOM tubing. The bar is powder coated black to prevent corrosion and includes: polyurethane bushings, heavy duty mounting bracket and features a 7/8" zinc plated rod end. For the ultimate in front-end rigidity add on our Frame Stiffener #12035.51. This piece ties the front frame rails together while bracing the track bar mount. It is specifically designed for use with the Adjustable Track Bar [#18205.05] only.

COLD AIR INTAKES FOR JEEP®

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge® Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque, depending on application.

- Polished mandrel bent 6063 aluminum air intake tube.
- Simple no-drill installation bolts on using simple hand tools.
- Includes a high-flow conical dry panel filter that never needs oiling.
- Intake kit includes black powder coated heat shield
- Improves fuel economy up to 10%*
- Adds up to 10HP and 12ft lbs or torque**

THROTTLE BODY SPACER

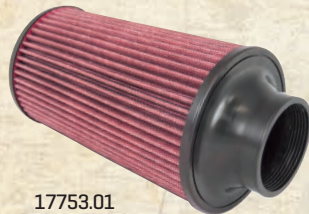

The Rugged Ridge® Throttle Body Spacer raises the throttle body 1" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for both 4.0L and 2.5L engines.

- Solid Aluminum Construction.
- Simple no-drill installation bolts on using simple hand tools.
- Includes mounting hardware, gaskets and spacers.
- Black Anodized Finish.

CONICAL AIR FILTER

Conical Air Filter

Conical Air Filter, Synthetic, for Cold Air Kit 17750.03 and 17750.20, 70MM Flange, 270MM Length **NEW**

Part #

17753.02

SYNTHETIC AIR FILTER

Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! Rugged Ridge® performance high flow filters are made from a synthetic fabric and not cotton. Cotton filters are made porous and must be oiled to trap dirt and debris. But that oil reduces air flow through the filter and it can become easily clogged. Our filters are woven from synthetic fabric to allow maximum air flow and particulate filtration. Because our filters never need oiling, they can be cleaned easily with water instead of degreaser, reducing the cost of maintaining the filter over the lifetime of your vehicle.

No oil = No fuss, no mess and improved performance!

Flowery Branch, GA

A FEW WORDS ABOUT PRODUCT SAFETY.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road.

It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product.

To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

NOTICE This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING This is a signal telling you that you CAN BE KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION This is a signal telling you that you or others CAN BE HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING HIGHER ROLLOVER RISK

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

Know your Kits: Though there are many ways to provide extra lift for your Jeep®, ORV™ recommends the following lift options as the best way to Lift your Jeep®:

Poly Spacer Kits: Available for Coil Spring 99-04 Jeep® Grand Cherokees

Coil Spring Kits: Available for 93-98 Jeep® Grand Cherokees and 84-01 Jeep® Cherokees

LIFT OPTIONS EXPLAINED:

• **Poly Spacer Kits** - Used for small lifts, these low cost lifts are designed for on road/light off road use only and incorporate the factory coil springs. With the addition of spacers, the ride of your Jeep® will be stiffer than original and provides very little articulation when off road. Bump stops (also called blocks) should always be a part of the kit as you will be using the factory springs. This method of lifting is the low cost/lower performance solution to lifting your Jeep® vehicle.

• **Coil Lift Kits** - Used for medium to large lifts, these lifts are designed for on road and moderate to severe off road use. Coil Spring kits provide the best way to give extra lift and still maintain OE ride characteristics. The 2" - 4" kits should offer new springs and extended bump stops as listed above as well as rear track bar bracket/brace to ensure proper centering of the axle and a secure fit.

POLY SPACER KITS

Coil spring spacers are made from high density polyurethane.

COIL SPRING KITS

All ORV™ springs are constructed of 5160H hot rolled bar, keeps its memory so the spring will not sag.

All ORV™ springs are set to original factory rates. Provides a better ride both on and off road.

All ORV™ coil springs are powder coated, E-coated 5/8" coil for long life and strength.

18415.80 Poly Spacer Kit

POLY BUSHINGS

All bushings are made from high density injection molded Polyurethane.

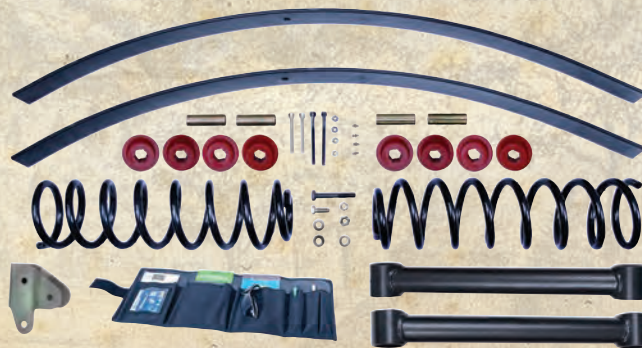

18401.75 Coil Lift Kit

BRACKET/BRACES

Beefy powder coated stamped steel brackets include grade 5 hardware.

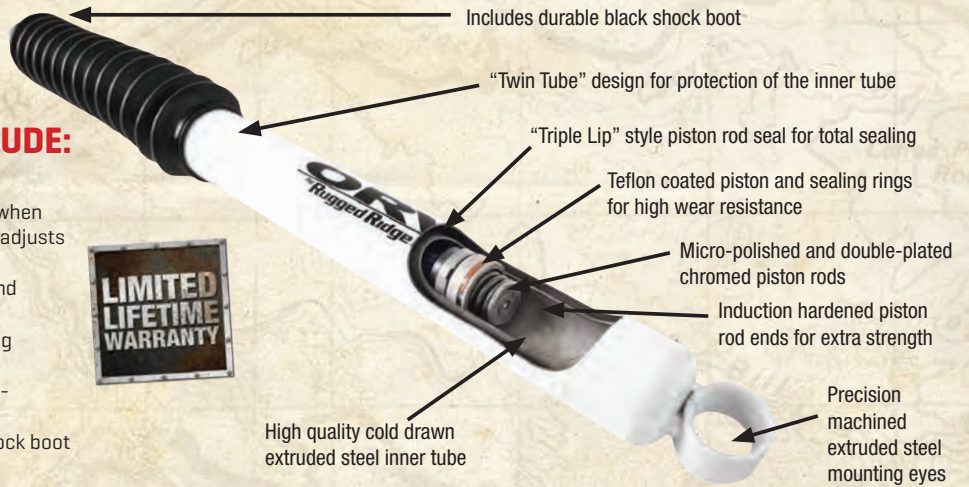

18401.70 Leaf Spring Kit

ORV™ SHOCKS

ORV™ only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV™ kits provide a better ride both on and off road. By using an ORV™ lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll.

ORV™ SHOCK FEATURES INCLUDE:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV™ specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

| ORV™ Shocks | Front | Extended | Collapsed | Rear | Extended | Collapsed |
|--|----------|----------|-----------|----------|----------|-----------|
| ORV Nitrogen Series Shock, 84-01 Jeep® Cherokee XJ, 3" Lift | 18465.05 | 22.75" | 13.54" | 18465.06 | 22.58" | 13.71" |
| ORV Nitrogen Series Shock, 93-98 Jeep® Grand Cherokee ZJ 3" Lift | 18465.05 | 22.75" | 13.54" | 18465.02 | 22.58" | 13.71" |
| ORV Nitrogen Series Shock, 99-04 Jeep® Grand Cherokee WJ 2" Lift | 18465.05 | 22.75" | 13.54" | 18465.13 | 24.84" | 14.82" |

ORV™ STEERING STABILIZERS

Add a splash of color to your rig with colored shock boots from Rugged Ridge®. These durable shock boots keep mud and debris from prematurely ruining your shocks and they look great too! Works on ORV™ Nitrogen Shocks and most other brands as well! Sold each.

| ORV™ Steering Stabilizers | Part# |
|---|----------|
| Shock Boot, Black, ORV Suspension, Universal Application NEW | 18479.50 |
| Shock Boot, Red, ORV Suspension, Universal Application NEW | 18479.51 |
| Shock Boot, Blue, ORV Suspension, Universal Application NEW | 18479.52 |

ORV™ STEERING STABILIZERS

ORV™ recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV™ Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV™ Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

| ORV™ Steering Stabilizers | Part# |
|---|----------|
| ORV Hydraulic Series Steering Stabilizer, 84-01 Jeep® Cherokee XJ | 18475.02 |
| ORV Hydraulic Series Steering Stabilizer, 93-98 Jeep® Grand Cherokee ZJ | 18475.02 |

Lifting a vehicle takes more than just slapping on taller springs. The stock steering linkage is designed for use with the stock height suspension. The steering linkage angles of a lifted vehicle are more extreme and influenced by suspension travel. This drop pitman arm helps reduce the angle of your drag link and reduce bumpsteer created when a suspension lift is installed.

| Drop Pitman Arms | Part # |
|--|----------|
| 93-98 Grand Cherokee w/Power Steering, 4"-8" of Lift | 18006.54 |
| 84-01 Cherokee w/Power Steering, 4"-8" of Lift | 18006.54 |

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE® LIMITED LIFETIME WARRANTY

Your Omix-Ada® / Rugged Ridge® product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada® / Rugged Ridge® / ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge® but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge® suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada® / Rugged Ridge® / ORV™ Limited Warranty does not cover any Rugged Ridge® / ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to:

- Installation damage, alteration, modification or failure to maintain.
- Normal wear and tear [bushings, tie-rod ends, etc.]. Scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Omix-Ada® / Rugged Ridge® / ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current / Rugged Ridge® / ORV™ catalog or the instructions accompanying your Rugged Ridge® /ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada's® option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts (including Rugged Ridge® and ORV™) should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

DRIVETRAIN ENGINEERING PERFECTED

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand!

The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC [the distributor/warrantor of these products] makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 [770-614-6101]. Ultra Axle® reserves the right to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals, Differential Covers, Differential Cable Lock Kits, Wheel Spacers, Transfer Chain Kits, Yoke Conversion Kits & Hub Conversion Components - **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA® Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

Alloy USA® Front Axles & Front/Rear Shafts

FRONT AXLE KITS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA®'s exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

| Jeep Cherokee [XJ] 84-01, 30-Spline Outer/Unit Bearing Upgrade Kit | 12168 |

NOTE: When converting to 30 spline outer axles, 1999 and older models must use the 2000-06 Wrangler brake rotor [Omix 16702.05].

ALLOY USA® DANA 30 MANUAL LOCKING HUB CONVERSION KITS

The Alloy USA® Hub Conversion Kit is designed to upgrade and replace the non-serviceable wheel hubs found on 1984-01 Cherokees. Now you can lock and unlock your front hubs to reduce driveline strain and improve fuel economy! The Deluxe Hub Conversion kit includes a set of Rugged Ridge® Manual Locking Hubs, high tensile strength 27 spline inner and outer Alloy USA® 4340 Chromoly Axle Shafts, 1/2 ton capacity aluminum internal mounting hubs, Alloy USA® X-Joints, machined front brake rotors, bearings, seals and hardware.... everything you need to upgrade your rig and prepare it for the trail. Maximum recommended tire size is 33".

Alloy USA® Grande Hub Conversion Kits Feature:

- Better fuel economy by freewheeling in 2WD mode. Decreases tire wear since unlocked manual hubs rotate more freely.
- Includes beefy Corrosion resistant die cast aluminum Rugged Ridge® Manual Locking Hubs.

PERFORMANCE REAR AXLE KITS FOR JEEP®

High tensile strength 4140 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 35% stronger than stock 1040 axles. Alloy USA® uses the latest cold rolled splining technology, to produce splines that are stronger than traditional cut splines. Our shafts are covered by an exclusive 10-year warranty! Rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs. Upgraded spline counts for Jeep® applications: Dana 35 spline upgrades from 27 splines to 30 splines. Dana 44 spline upgrades from 30 splines to 33 and 35 splines.

Cherokee 84-12

WHEEL SPACERS & ADAPTERS

- Moves your wheels out to help fit wider tires-creates extra stability.
- Hub centric design to assure wheel balance.
- Constructed of durable 6061T6 aluminum for long life, extra strength and corrosion resistance.
- Available in 1.25" to 1.5" widths for today's most popular wheel sizes.
- Each pair includes pre-installed grade 8 wheel studs, 10 lug nuts and thread locker.
- Wheel adaptors convert current bolt patterns to alternate bolt patterns for use with different wheels.
- Wheel Spacers and Wheel adaptors are sold in pairs.

NEW!

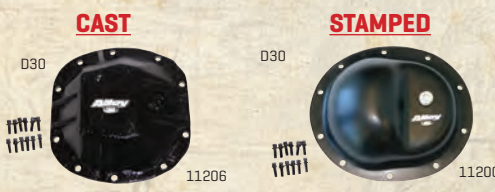

| Wheel Spacers | Width | Bolt Pattern | Part # |
|------------------------------------|-------|--------------|--------|
| Jeep Cherokee 1984-2001 NEW | 1.25" | 5 on 4.5" | 11301 |

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

| Differential Cover | Cast 3/8" Steel | Stamped 5/16" Steel | Price |
|--------------------|-----------------|---------------------|-------|
| HD Dana 30 | 11206 | 11200 | |
| HD Dana 35 | 11201 | - | |
| HD Dana 44 | 11202 | - | |

SLOTTED BRAKE ROTORS

Alloy USA® slotted & drilled brake rotors improve braking performance right out of the box. Slotted & drilled for maximum cooling! Slotted rotors improve brake pad bite & reduce brake fade.

| Differential Permanent Cable Lock Kit, Jeep w/ Front D30 Cherokee [XJ] 84-91 NEW | 451100 |

TRANSFER CASE CHAIN

If you're servicing your transfer case and your OE chain has more than 60,000 miles on it, it is time for a replacement. Why replace your chain when can upgrade it? Our advanced Round Pin technology allows the chain to double back on itself and offer greater articulation than the standard rocker pin design. We use high tensile strength steel to ensure that your TC chain endures peak loads under heavy operating conditions repeatedly over time. Backed by an industry leading three year warranty.

| Transfer Case Chain | Part # |
|--|--------|
| Transfer Case Chain, NP231 and NP233, 1" Width w/ 30 Links, Jeep Cherokee [XJ] 84-01, Grand Cherokee [ZJ] 93-97 NEW | 11650 |

TRANSFER CASE SLIP YOKE ELIMINATOR KIT

This kit is a MUST if you installed a 2" or taller suspension lift in your 1987-2001 Cherokee (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit (SYE) will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

WARNING: OEM slip yokes on 1987-2001 Jeep® Cherokee are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

11400 Slip Yoke Eliminator Kit

| Transfer Case Slip Yoke Eliminator Kit | Part # |
|---|----------|
| 88-01 Cherokee Slip Yoke Eliminator (with NP231 transfer case) *, Kit | 11400 |

RING & PINION

Precision Gear® understands the rigors of racing. Horsepower is useless unless you can get it to the ground. Most companies providing ring and pinions today look for the cheapest source without consideration of quality. They “stand behind” their product until the day you buy it and install it on your car. At Precision Gear® each ring and pinion we sell is backed by an exclusive five year warranty! Our gears are made from high quality 8620 forgings and Gleason gear cutting technology because our gears are made to last!
 For additional product listings and more information visit www.precisiongear.com.

Master Installation Kits:

Precision Gear® understands the complexity of rebuilding your differential. To help solve this difficulty and eliminate multiple trips to the parts store we have including everything you need to complete your ring & pinion installation and get you back on the road quick all in one great kit. Master installation kits include:

Install Kit Includes:

- Carrier Bearings
 - Pinion Bearings
 - Pinion Nut
 - Pinion Seal
 - Preload Shims or Crush Collar
 - Pinion Shims
 - Gasket or RTV
 - Marking Compound
 - Differential Shims (where applicable)
 - Locktite
 - Oil Slingers (where applicable)
 - Ring Gear Bolts (where applicable)
- * Ring & Pinions and Installation Kits are sold separately.

RUGGED RIDGE® SOFT TOPS-QUALITY, INNOVATION AND VALUE ALL IN ONE TOP!

At Rugged Ridge® we take the design and development of Soft Tops seriously. Each Top is designed, tested and used by Jeep® owners to ensure you get the finest product available. By using only the finest materials available, we are able to offer an exclusive 3 year limited warranty on all our tops! No other soft top manufacturer offers a warranty that covers this length of time.

When looking for a new top for your Jeep® or SUV, there are several important features and options to consider. The following will help guide you in your soft top choice:

QUALITY

All Rugged Ridge® Soft tops use an industry leading 30 mil DOT approved glass. This extra thick glass ensures a long lasting top as the plastic glass used on soft tops is usually the first thing to wear out. All Rugged Ridge® tops use the toughest soft top fabrics ensuring a long life. Whether it is our durable vinyl coated polyester denim or diamond fabric, or a sail cloth type material, we want the top to perform as well as it looks. Pulling it all together, Rugged Ridge® uses marine grade thread that is designed to be used in the harshest environments. This thread will not fade or rot in the sun and combined with durable heat sealed seam tape, keeps the elements out!

Only the finest fabrics

30 Mil DOT approved glass

Seam Sealed Marine grade thread

INNOVATION

Rugged Ridge® offers a soft top solution for your vehicle that has the Jeep® lifestyle in mind. Tops like our Bowless soft tops that use the roll bar for the bow system or the amazing Power Top which is the first TRUE convertible top for Jeep® both are designed to be user friendly and offer features found nowhere else. We take the "Jeep® Experience" seriously and have a soft top solution to meet your needs!

The innovative NEW Bowless top - easy to use, a great value!

Pocket Briefs and Island Toppers Provide needed storage!

VALUE

Rugged Ridge® has a soft top design to fit your budget! Why spend more than you have to on a top when Rugged Ridge® can provide you with the same quality and a longer warranty for less! Our tops may not be the least expensive on the market but you get more top for your money with Rugged Ridge®. Because we offer several soft top solutions (Summer Brief, Island Topper, fabric only, Bowless, Power) we can supply you a top that fits your budget with the quality you demand.

NEW POWER TOP

BY RUGGED RIDGE®

The first true convertible top for 07-12 Wranglers

Accessories

POWER TOP AUTOMATICALLY GOES UP AND DOWN WITH THE PUSH OF A BUTTON!

Rugged Ridge® is excited to announce the first ever true convertible top for the 4 door JK Jeep® Wrangler. No more struggling to get your soft top up and down. This revolutionary soft top design automatically goes up and down without you even getting out of the vehicle. Our patent pending design allows the top to be lowered or raised in seconds by unlatching two header latches and the simple push of a button! In development for over a year, the engineers at Rugged Ridge® have created a heavy duty frame system that folds up and over your factory roll bar therefore making the "push button" design possible. The Power Top Kit fits all 2007-2012 four door Wranglers and comes complete with heavy duty sailcloth fabric, 31% tint 30 mil rear window glass, power top frame, hydraulics, wiring harness and an in-depth installation packet. Everything you need to make your JK a true convertible top!

NEW!

Each Power top is a complete kit that includes everything you need for installation to your 2007-2012 four door Wrangler: heavy duty sailcloth fabric, 31% tint 30 mil rear window glass, power top frame, hydraulics, motor, wiring harness and an in-depth installation packet. Bolt-on installation, No fabrication necessary.

WARNING:

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident injury. Always wear seat belts. Read and follow all instructions and warnings accompanying this product, in vehicle owners manual and Off Road Driving Supplement.

LOOK AT THESE EXCLUSIVE FEATURES:

- The kit has everything needed for a complete installation including the soft top, frame, door surrounds, motor, hydraulics and wiring. Installation requires that you reuse the factory header and rear tailgate bar. One kit fits all years of 4 door Wrangler!
- Professional installation is recommended but a skilled do it yourselfer can also install it and no special tools are required. **Estimated install time for a skilled installer is approximately 5 hours.**
- The [patent pending] 4 door version will be available first but we also have a 2 door version in development.
- The frame comes pre-assembled and ready for installation and is constructed from corrosion resistant powder coated steel. All fasteners and bushing are specified for high grade strength and wear resistance.
- The frame installs to the tub rail using pre-existing holes along the top and then one hole is required over either wheel well on both sides to provide added support for strength, rigidity and smooth operation.
- Injection molded door surrounds are included to replace the factory surrounds to ensure a weather tight seal.
- The frame is powered by an electric motor with a hydraulic pump that drives two hydraulic cylinders. The motor and wiring relays mounts underneath the rear deck lid where it is concealed neatly out of the way.
- The motor and hydraulic cylinders come pre-assembled and ready to install with adjustable flow control valve, hoses, fittings and fluid [pre-bled].
- The top is constructed from premium sail cloth fabric and includes a zip-out removable DOT approved 30 mil rear window with 31% smoke tint.
- The system includes all wiring, relays, and switches for a complete installation. The wiring scheme is a simple yet very effective design and protects against improper operation or damage of the top by only working when the drivers' foot is on the brake.
- Limit switches are also included to control the power when the top is either fully up or fully down for added safety and to reduce wear and stress on the system.
- Operation of the top is extremely easy and effortless. From the driver's seat you simply unlatch the header and [while your foot is on the brake and key in ignition] push the switch. Down it goes! That's it!
- The power top is designed to stay on the vehicle full time once it is installed. However, it can also be removed from time to time if necessary thus permitting the owner to change it over to their hard top in winter or to return the vehicle to a factory style top.
- Service and replacement parts will be readily available.
- The entire system and all components are covered by our 3 year warranty.

A durable hydraulic piston provides the torque to lift and retract the Power Top. Easily secured to the vehicle wheel well and soft top frame, this durable component has been cycle tested to ensure a long life and consistent performance.

The Name Power Top comes from a durable electric power plant that has been specially developed for strength and size. This heavy duty motor installs in the storage compartment in the rear of your Jeep® keeping the rear cargo area clutter free. Each Power top includes the necessary wiring harness to make installation as easy as possible.

All Power tops have a tinted rear window that either rolls up or can be completely zipped out. This allows for that open air experience that Jeep® owners love! All Window glass is extra thick 30mil DOT approved with 31% tint. Quality and superior function all in one!

XHD REPLACEMENT SOFT TOPS FOR JEEP®, SUZUKI®, AND GEO®

New and improved XHD Replacement Soft-Tops from Rugged Ridge® are now available with 50% thicker glass! Each Fabric Soft Top is specifically designed to easily fit the factory original soft top hardware. Simply take off the old top and slip on the new. It's just that easy! These new designs feature reinforced stitching on the heavy "pull" areas as well as heavy duty 30 mil thick glass! All XHD Soft Tops feature durable vinyl coated polyester and cotton fabric that will last the test of time. All sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun. Each seam is literally "welded shut" with durable heat seal tape to keep moisture out while keeping the original look of the top intact. Attaching the Rugged Ridge® Top is easy with the factory original "belt rail" attachment method; simply tuck under the rail and go! Most of our tops feature two choices of door options; with upper soft doors or with full hard doors. Each Jeep® application has removable windows for that Safari look and true open air driving! Also available is your choice of DOT approved 31% tinted side and rear windows or crystal clear DOT approved side windows (Door windows are not tinted). Each top is backed by an industry leading 3 year limited warranty against manufacturer defects. When only the best will do, look to Rugged Ridge®!

Accessories

The most comprehensive line of replacement soft tops on the market, so you can choose what options are best for you!

53703.15 Fabric Replacement Soft Top

53701.52 Fabric Replacement Soft Top

Rugged Ridge® offers a full line of replacement soft tops for the 1988-98 Suzuki and Geo Tracker vehicles! Our value priced soft tops will freshen up the look of your vehicle while not "breaking the bank". Each top is constructed of durable vinyl coated polyester soft top fabric with DOT approved, UV treated, crystal clear 30 mil windows for long life and durability. Windows for Suzuki Samurai do not zip out. The rear window only for 1988-94 Sidekick/Geo Tracker zips out. Both rear and side windows for 1995-98 Sidekick/Geo Tracker zip out.

All Rugged Ridge® fabric replacement tops are designed to fit over original factory hardware only and do not include hardware in the kit. If your factory top has half hard doors, the kits that include soft upper door skins have custom door skins that attach directly to your factory door frames using durable hook and loop fasteners. Simply cut off the old fabric and install the new. Missing or have damaged soft top/door hardware? See pages U6 & U10 for replacement hardware/door components to give your soft top a complete "makeover".

THE ONLY REPLACEMENT SOFT TOP WITH A 3 YEAR LIMITED WARRANTY!

WARNING:

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident injury. Always wear seat belts. Read and follow all instructions and warnings accompanying this product, in vehicle owners manual and Off Road Driving Supplement.

NEW 30 mil thick DOT approved windows are 50% thicker than lower cost soft tops! Available in clear or 31% tint (rear quarter and rear glass) on most Jeep® models.

Jeep® applications (and late model Suzuki) feature zip out windows for the true open air experience. Each side and rear window have durable zipper attachments covered by weather seals to keep the weather out

Rugged Ridge® soft tops use only the finest vinyl coated polyester fabric or durable sail cloth on all their tops. Each fabric color is specially formulated to match the original equipment colored top to make your Jeep® look like it came off the show room floor.

BOWLESS TOP FOR 97-06 WRANGLER

The Bowless Top from Rugged Ridge® is the most versatile Jeep® soft top on the market. It allows you to convert instantly from a full top to a summer brief, and eliminates the need for the bulky OE soft top frame. The Bowless Top fits snugly over the factory roll bar for a more aerodynamic “fastback” look, but retains your factory door surrounds and tailgate bar to provide an air tight fit. Convert to a summer brief by simply unzipping the side windows and stowing them in the rear window storage fold designed into the top. The Bowless top is made to the same specifications as our factory replacement tops and features: reinforced stitching on the heavy “pull” areas, as well as heavy duty 30 mil thick DOT approved 31% tint window glass, durable vinyl coated polyester and cotton fabric or durable sail cloth, and all sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun.

Windows fold up under top for open air driving.

Top includes 2 zippered storage pockets.

More Exclusive Features:

- NEW design is less complex and easier to install than competitive brand tops.
- Custom design fits better using significantly fewer straps and no center bow. Our bowless top uses only two Velcro side straps, one center adjusting strap and two rear straps making a better fitting, easier to install top
- All straps are inside the top making for a cleaner better looking design
- Rear window either rolls up or can be used as the storage flap for side windows. No extra pockets or complicated securing device to store your rear quarter windows
- Side weather protecting foam is attached to the top. Competitive brands have this foam separate from the top creating a potential missing part
- Each Top includes a pair of handy zippered side pockets for map and accessory storage
- Side design includes a handy installation pull tab for ease of installation
- Notorious leak spots behind the doors have been covered with a special rain flap; keeps the weather out!
- Backed by our industry leading three year limited warranty. Most soft top warranties are only 1-2 years!

* Hard top models will need factory door surrounds to install this top.
 Note: Requires a separate windshield header (Omix PN: 13308.04) and your factory tailgate bar for installation.
 (Replacement tailgate bar available - Omix PN: 13550.01)

POCKET BRIEFS

Tired of papers and other small items flying around the cab of your Jeep® when using your Summer Brief? Introducing the most innovative new addition to a Summer Brief in over 50 years the Pocket Brief from Rugged Ridge®! This revolutionary design incorporates two mesh zippered corner pockets directly over the driver and passenger creating much needed storage space. Special two sided mesh and nylon "pocket" seals shut with a reinforced zipper, keeping small items secure even in most severe conditions. Each pocket is built directly into the Rugged Ridge® Summer Brief to ensure a clean, tight fit. Constructed of durable soft top fabric for long life. Available in matching soft top colors to give your Jeep® a finished look.

All Briefs feature quick release buckles for easy on/off installation

SUMMER BRIEFS

Custom designed for each body style, these easy on, easy off briefs provide protection from the hot sun and sudden showers. Each Rugged Ridge® Summer Brief attaches to the factory center hoop and windshield with heavy-duty nylon straps to prevent flapping. Key rear strap attachments have quick release fasteners so once your straps are set, they easily detach and reattach. Wrangler models also incorporate thick hook and loop side mounts to further secure the top. All 97-06 models are designed to be used with a no-drill Windshield Header [sold separately, see page U8] for quick conversion from hard top to Summer Brief.

POCKET ISLAND TOPPERS

The most advanced summer soft top solution found on the market today, the new Pocket Island Topper! This new design features tough diamond fabric combined with a pair of zipper front pockets for the ultimate full featured top. Unlike other summer tops on the market, the Rugged Ridge® design features wider side hook and loop fastener straps, a reinforced front section and extra heavy duty nylon tie down straps.

ISLAND TOPPERS

Provide the ultimate summer sun and rain protection with a Rugged Ridge® Island Topper. Attaching the same way as our durable Summer Briefs, these full length tops provide protection from the elements for both the front and rear passengers. Rear attachment straps attach to the rear sport bar hoops on 1992-06 models. 1976-91 models include an easy to attach rear bow. All 1997-06 models are designed to be used with an optional, no-drill Windshield Header for quick conversion from hard top to Island Topper.

* Requires a separate Windshield Header [#13308.04] for installation ** Requires a separate Windshield Channel [#13308.01] for installation

WINDSHIELD CHANNELS/HEADERS

These upgraded preassembled no drill windshield headers install quickly and easily! Just attach your Brief/Island Topper and place the header channel on the top of your windshield, slide the clamps onto the supplied knobs and clamp the channel in place. That's it! The channel is now securely held in place and ready for summer wheeling. No drilling or modifications required on 1997-12 windshield header models! Note: Will work with Bestop® and other aftermarket summer tops. No Drill Windshield Header required for installation of Summer Briefs and Island Toppers on all 1997-12 Wranglers. Windshield Channels are required for installation of Summer Briefs and Island Toppers on all 1976-95 CJ/Wranglers.

13308.05 Upgrade Windshield Header for 07-12 Wrangler

NOTE: If your 76-95 Jeep* already has a Windshield Channel installed on it, we highly recommend replacing it. Over time, these channels can come loose and will no longer hold your Summer Brief/Island Topper in place.

MESH POCKET BRIEFS & ISLAND TOPPERS

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge® mesh brief/Island Topper is designed for strength and durability while providing open air protection from the sun's heat. Available in two great styles: the Summer Brief that goes to the center hoop and the "Island Topper" that goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel needed to install these tops!

ACOUSTIC BRIEF & ISLAND TOPPER

This unique design drastically reduces road noise within the cab of your Jeep®. We have lined each Acoustic piece with a tightly woven, padded acoustic insert that absorbs outdoor noise to allow for a pleasant driving experience. You can finally listen to your favorite radio or CD while you enjoy open air driving! Durable quick release buckles for easy on - easy off installation. Acoustic Brief provides overhead protection for both front seat passengers. Acoustic Island Topper provides overhead protection for both front & rear passengers.

Padded insert absorbs noise allowing for a more pleasant driving experience

WARNING:

Loss of vehicle control involves risk of death or serious injury, particularly to parts of your body not restrained within vehicle. This product is intended for weather protection only and should not be relied upon to contain occupants in the event of an accident or to protect from either ground contact or falling objects. To reduce risk of accident injury:

- Always wear seat belts.
- Read and follow all instructions and warnings accompanying this product, in vehicle owners manual and Off Road Driving Supplement.

REAR

NOW AVAILABLE!
A complete line of the most popular applications for custom fit front & rear liners for truck, suv & mini-vans!

Rugged Ridge® All Terrain Floor Liners

The only Floor Liners with Deep Tread Technology!

Rugged Ridge® All Terrain Floor Liners offer complete interior floor protection for your Truck, SUV or Jeep®. Now you can be assured when Rugged Ridge® All Terrain Floor Liners are installed, your investment is protected for the life of your vehicle. Rugged Ridge® All Terrain Floor Liners are essential for everyday use, at work, or when your vehicle is used for outdoor adventures. Keep your vehicle's carpet clean and free from harmful airborne contaminants when going through snow, dust, sand, or even when you decide to go play in the mud. We have you protected when its necessary to catch the second scoop of your little ones ice cream after the big game. No jobs too big with our 3/8" Deep Tread Technology chevron pattern floor liners, that are up to 3 times the depth of the other floor liners for maximum floor protection. Rugged Ridge® All Terrain Floor Liners are available for domestic and foreign vehicle manufactured applications.

Rugged Ridge® Floor Protection Benefits:

- Protect yourself from airborne contaminants such as soot, dirt, pollen, mold and other pollutants that enter a vehicle and stays in your vehicles carpet
- Improve the resale value of your vehicle by protecting your vehicles flooring from smells, faded and worn carpet, and costly repairs from captured moisture and salt in carpets that rust floor pans and corrodes wiring
- Perfectly contoured to your vehicle's floor for Form, Fit & Function
- Extra tall sides and 3/8" deep tread for extra protection
- Twice the thickness of other liners - "Dare to Compare"
- Nibbed bottoms and floor hook keeps liners safely in place
- Easily removable for quick cleaning
- Stain Resistant Thermoplastic Resin has far superior fit, quality and durability
- All Season protection for any element and climate
- Keeps carpet, footwear and clothing clean and dry
- A Floor Liner durable enough to outlast the vehicle
- Chevron Tread Pattern designed to channel debris and moisture away
- Limited Lifetime Warranty

DARE TO COMPARE DEEP TREAD TECHNOLOGY WITH VACUUM FORMED FLOOR LINERS!

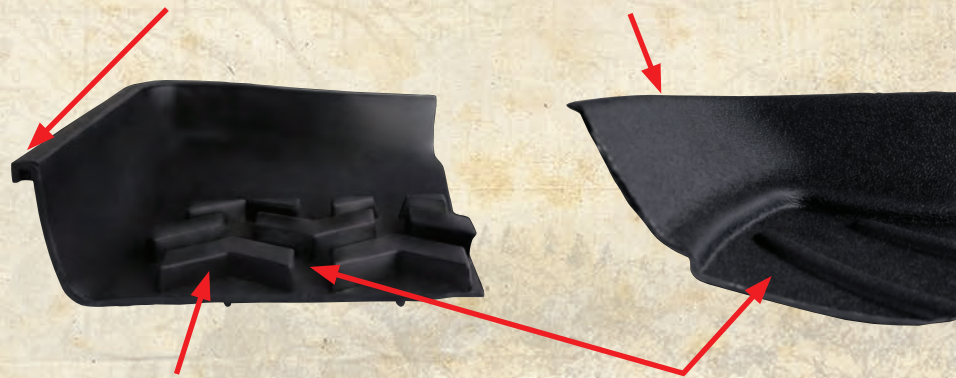

We've compared typical vacuum formed floor liners with Rugged Ridge® Deep Tread Floor Liners and the differences are dramatic:

Rugged Ridge® Floor Liners

Typical Vacuum Formed Liners

Rolled reinforced edges provided added durability and a finished look

Typically, vacuum formed liners get thinner and weaker at the edges

Chevron shaped raised pattern channels water and dirt away from your shoes and clothing

Rugged Ridge® All Terrain Floor Liners offer up to 3 times the height of regular vacuum formed floor liners

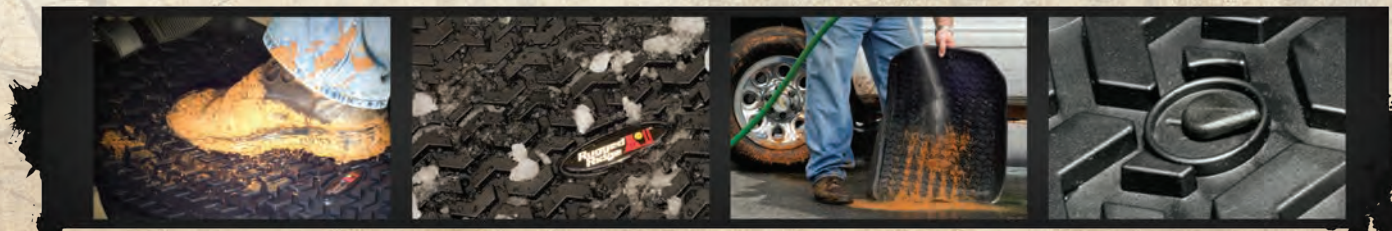

| Brand | Nibs on Back | Self Sealing Floor Hooks | 90° Rolled Edges | Fluid Containment | Interior Depth | Reinforced Heel Pad | Warranty |

TOTAL PROTECTION FOR YOUR JEEP®!

The only floor liner with patented Deep Tread technology! These floor liners are a totally new concept that combines all the best features of deep ribbed floor mats and the old style liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded Chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean, containing the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Raised nibs on the bottom provides maximum retention and keeps the liner in place. The self-sealing floor hook attachment feature [where applicable] helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!!

RUGGED RIDGE® SYNTHETIC ROPE PERFORMANCE WINCHES!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dyneema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge® winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge® 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fiber used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

SYNTHETIC WINCH ROPE

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

WINCH CABLE HANDLE

The winch hook handle is the perfect solution for handling a winch cable. It is constructed of tough nylon webbing with a molded sure-grip handle. Perfect for getting a good solid grip of the winch hook when free spooling cable for a recovery and a safe way to respool your cable without endangering your fingers. Just slip your winch hook through the nylon webbing and you are ready to rock!

DUAL BATTERY TRAY

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powder coated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. The kit places the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries.

TIRE DEFLATOR KITS

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great kits to fit your lifestyle and budget. Made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail.

MANUAL LOCKING HUBS

Knee deep in mud with a failed automatic hub and a disabled vehicle? The only way to repair it is to replace it. The question is, with what? Factory automatic hubs have a history of failing when you need them most. A damaged hub will render your 4x4 useless and leave you stranded. Wish you could swap your venerable automatic hubs to a set of manual locking hubs? Rugged Ridge® has heard your plea. Rugged Ridge® Manual Locking Hubs are unanimously recognized as the world's toughest hubs by our thousands of satisfied customers worldwide. Brute strength matters, that is why the bodies of our hubs are crafted from impact resistant nodular iron, and feature a corrosion resistant die cast aluminum cap. Our hubs deliver better 4WD performance when locked and improved fuel economy in 2WD when unlocked, than automatic hubs. Purchasing a set a premium manual hubs is more cost effective than servicing your worn factory hubs. With the money you save you'll be able to carry a spare set, not that you'll need them. Sure you have to get out of the cab to lock the hubs, but unlike automatic hubs you won't have to wait until you lose traction for your four-wheel drive to engage.

Rugged Ridge® Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.
- 1998-00 Ford Ranger [15001.70] application is exclusively available from Rugged Ridge®!

HID LIGHTING

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge® lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually. All include impact resistant stone guards

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

HALOGEN LIGHTING

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application.

Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards [white stone guards with stainless, black with black] and illuminated dash switch.

ROCKER PANEL SWITCHES

Our marine grade switches are designed for use with Rugged Ridge® A-Pillar Pod and Switch Panels, but are sized to work in most OE dash switch blanks. Rugged Ridge® switches feature an OE fit, quality and function. They are available in Red, Blue, Green and Amber and the switch illuminates in the "ON" position. The three post 20-amp design is engineered for use with most aftermarket accessories. If you want to mount rocker switches to other locations like those pre-etched dash cutouts, the Rugged Ridge® housing kit allows you to mount 2, 3, or 4 switches to numerous dash locations by using a series of interlocking interchangeable pods. 3 Year limited warranty.

JK A-PILLAR SWITCH POD & KIT

Looking for a handy place to mount your accessory switches that doesn't require cutting or other modifications? The Rugged Ridge® A-Pillar Switch Pod has premolded cutouts to allow you to mount up to four aftermarket switches in easy reach on the driver's side A-pillar, and out of the way of the shifter handle. Our Pillar Pod has the textured molded finish just like the factory plastic pillar cover it replaces. It snaps into place just like the OE! A-Pillar Switch kit includes A-pillar Pod and one of each color Rocker Panel Switches.

FRONT BUMPER LIGHT BARS

Rugged Ridge® has engineered a durable and easy to install light bar that allows you to add auxiliary lighting to your factory Wrangler bumper. The light bar bolts to existing mounting holes and installs easily without cutting, drilling, or removing the bumper. With a few simple hand tools you will be able to install your light bar and mount up to three lights on your Jeep® while retaining your factory bumper. Lights not included.

JK WINDSHIELD LIGHT BAR

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Each bar hugs the contour of your windshield providing a great look while not interfering with the use of your hard or soft top. Oversized 2" textured black tubing attaches to your windshield mounts with no drilling. Each Light bar has five light tabs for use with Rugged Ridge® Lighting options (fits up to five 7" lights). Each light bar has been specially developed to work with Rugged Ridge® Light mount brackets and/or Rugged Ridge® mirror relocation brackets. Special three piece design makes the packaging small for ease of shipping. This is truly the most advanced light bar on the market!

TJ WINDSHIELD LIGHT BAR

The three-piece light bar simplifies your installation dramatically because you won't run the risk of scratching up your windshield frame trying to mount a heavy one-piece bar with four lights onto your windshield hinges. With this bar you can install one piece at a time. The bar is available in stainless steel or black, and packaged in an easy to ship box for your convenience.

ALL TERRAIN FLAT FENDER FLARES

Now, with the NEW All Terrain Flat Fender Flares from Rugged Ridge® you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, yet you still get greater ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the factory mounting points with no drilling. Simply remove your original flares and add on the All Terrain Flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights. The All Terrain Flat Fender Flare is the hottest looking, most functional Off Road Flare available for your JK! Finally, because no cutting or drilling is required, if you ever want to switch back to your original factory flares, there's no problem!

Special side marker light brackets included for use with your factory side marker light

11607.01 Oversized 7" Flares, 87-95 Wrangler

11606.01 Oversized 7" Flares, 76-86 CJ

OVERSIZED 7" FLARES

Need a little extra coverage for those over sized tires? The Rugged Ridge® 7" Flare gives you the extra coverage you need while providing the clean look of original equipment designs. Each over sized flare is constructed of virtually indestructible UV treated thermoplastic to provide years of service. The special UV treatment put on each flare provides protection from sun fading. These flares are designed to bolt onto your vehicle but for CJ and 1987-95 Wrangler models, some vehicle modification may be necessary to truly cover those oversized tires. If you go off-road and need to protect your vehicle from rock chips and debris, look to Rugged Ridge® 7" oversized Fender Flares! Includes all mounting hardware.

* some trimming of the rear wheel well area is required to install oversized flares on CJ & YJ

Rugged Ridge® provides the most comprehensive replacement Fender Flare program on the market today. Covering model years starting in 1955 until current, Rugged Ridge® has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes [some models may require some hole relocation] for ease of installation. Just need to replace one flare? No problem. Rugged Ridge® offers individual replacements to keep your investment to a minimum.

WARNING: Read and understand all instructions and related Warnings, Cautions and Notices before attempting to install or use your Rugged Ridge® winch.

ADJUSTABLE TIRE DEFLATOR KIT

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. Rugged Ridge® offers two great kits to fit your lifestyle and budget. Made from 100% brass and are fully adjustable in 3 psi. increments. Once you find your desired setting you can lock the deflators where they bleed to the same tire pressure each and every time they are installed. So, you can deflate your tires quickly before heading out on the trail.

NEW!

Rugged Ridge® Adjustable Tire Deflator Kit | Part #
4 Piece Kit **NEW** | 15104.53

KEY CHAIN TIRE DEFLATOR KIT

Fully inflated tires are great for the road and gas mileage, but they deliver a washboard ride on the trail. Air down your tires for a softer ride and more tread grip. The Tire Deflator Kit includes 4 tire deflators that will allow you to easily deflate your tires before heading out on the trail. All pieces connect together onto a key chain for ease.

WINCH COVER

Keep your winch looking as good as the day you bought it with the Rugged Ridge® winch cover. Constructed from durable vinyl lined fabric the cover drops over your winch and secures with a draw cord.

REPLACEMENT SYNTHETIC WINCH ROPES FOR ATV/UTV

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge® high strength Synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiasts worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely result severe injuries caused by the whiplash of broken wire rope. Each replacement rope kits can be easily attached to your current winch by removing your current steel cable and roller fairlead. A new Hawse Fairlead will be required for use with Synthetic Rope.

| For Yamaha Rhino, Pair | 62004.01 |

Easy to Install!

63210.01 Neoprene Seat Covers w/Headrests

These covers are constructed of durable neoprene or soft poly-cotton front and back for the best looking seat cover available. Rugged Ridge® does not use cheap stretch nylon on their seat covers! Soft poly-cotton protects and prevents the original vinyl seat from getting over heated, no more burned legs! Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Each cover is custom tailored for your Rhino's original equipment seat style making your seats look like they have been recently reupholstered. Installation is easy with special designed elastic cords, and nylon straps that attach to your seat and to the seat cover mounting points. Available in light gray or black to match the interior of your UTV. Packed in pairs with headrest covers.

WARNING:

Always secure your load with storage retention devices (not included). Never overload your receiver rack past the limits of 200lbs of evenly spaced cargo.

RECEIVER RACK

- Carry those extra items with ease on the back of your vehicle.
- Mounts to any vehicle with a 2" receiver hitch
- Carries up to 200lbs of evenly distributed cargo.
- Powder coat painted for long life.
- 20"x60" platform.
- Receiver hitch pin not included.

| Receiver Rack | Part # |
|-------------------------|--------|
| All 2" Receiver Hitches | 7700 |

AERODYNAMIC ROOF TOP STORAGE BAG

This storage system is designed for complete weatherproof protection of your cargo. The sloped front deflects water and air up and over the bag. Constructed of durable fiberglass reinforced waterproof tarpaulin material that ensures durability and weather resistance. With over 11 cubic feet of extra storage space this is a perfect alternative for expensive plastic pods. No-drilling required - attaches with heavy duty polypropylene straps to your existing roof rack.

| Roof Top Storage System | Part # |
|-------------------------|----------|
| Aero Storage 11 CuFt. | 12111.01 |

AUTO BACKPACK ROOF TOP STORAGE SYSTEM

This system comes in two different models, depending on your cargo requirements. The outer material is a combination of soft neoprene material to protect your paint and durable nylon for long life. Each Auto Backpack features four tie down points to make installation easy and secure. With 13 or 20 cubic feet of storage space, this is a perfect alternative to those expensive and hard to store plastic pods.

| Roof Top Storage System | Part # |
|-------------------------|----------|
| [39"x32"x18"] 13 CuFt. | 12110.01 |
| [54"x48"x20"] 20 CuFt | 12110.02 |

TAILGATE NETS

- Sport styling improves trucks appearance.
- Improves gas mileage by reducing tail gate drag.
- Constructed of durable die-cut polyester laminate, resists fading and stretching.
- Easy to install - some drilling required.

| Tailgate Nets | Fullsize Trucks | Mid/Small Trucks |
|---------------|-----------------|------------------|
| | 33150.02 | 33150.01 |

UNIVERSAL CHROME TRUCK STEP

- Constructed of highly polished chromed steel.
- One size fits most trucks/SUV's.
- Non-skid tape supplied for added safety.
- Easy to install - some drilling required.
- Sold individually.

| Universal Truck Step | Part # |
|----------------------|----------|
| Chrome | 31501.01 |

CONTRACTORS CONSOLE

- Keeps valuables out of sight while providing a comfortable arm rest and drink holder.
- Arm rest folds forward exposing an oversized 8.5"x11" writing area.
- Reinforced hinge and lid support hold writing surface steady while writing.
- Huge storage compartment is perfect for tools paperwork, cell phones, CD's and cassettes
- Oversized dual adjustable cup holders secure different size cups and bottles.
- Special bottom mount strap allows for center seat belt mounting.
- New removable organizer tray, keeps small items in their place.
- Dimensions - 18.5" Length x 10.5" Width x 8" Height

TRUCK BENCH SEAT CONSOLE

- Large rear storage area has a built-in CD cassette holder.
- Front storage area holds cell phones, glasses, tissues, coins and other small items.
- Can be used for rear seat use to organize clutter and provide hand drink cup holders for passengers.
- Dense foam padded arm rest gives greater comfort and longer life.
- Dimensions - 16.5" Length x 8.5" Width x 9" Height

MINI VAN CONSOLE

- Removable soft sided CD holder keeps CD's clean and organized.
- Front storage compartment holds sunglasses, cell phones, coins, and other small items.
- Cavernous rear storage compartment holds tissue, trash, drinks, and other larger items.
- Dual adjustable front & rear cup holders hold most cups and bottles.
- Constructed of heavy duty padded vinyl to match your interior and provide long life.
- Dense foam arm rest gives greater comfort and is better looking.
- Dimensions - 29" Length x 9" Width x 14" Height.

Unique "hybrid" design between an all-terrain and mud terrain with the grip you need for your weekend adventures and the smooth ride you want to get you down the road in comfort. Features an extra wide footprint and beefy tread blocks for great all around traction. Select sizes have PowerPly™ 3-ply sidewalls.

NEW!

MICKEY THOMPSON BAJA MTZ RADIAL

Extreme off-roaders will appreciate the great ride and handling that this mud tire has on the highway. The MTZ has Mickey Thompson's Power Ply™ sidewalls with a special angled third ply to give you high performance handling, better puncture resistance, and improved towing capability.

**Rugged
Ridge** 

Designed by a dedicated team of Jeep® enthusiasts, the ORV™ suspension program is one of the most complete programs available. We have looked at each application in detail to provide the very best and most complete solution for your Jeep®. Since we focus the large majority of our attention on Jeep® vehicles, we know the ins and outs of what the best lift solution is depending on your individual needs. Below is a quick reference guide on the ORV™ program to make it easier to choose the lift you need for your particular need. Remember, all ORV™ Kits with shocks include a pair of neoprene wrapped grab handles and an Off Road Organizer for your glove box! **Welcome to ORV™ by Rugged Ridge®!**

A FEW WORDS ABOUT PRODUCT SAFETY.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road. It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product.

To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

NOTICE This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING This is a signal telling you that you CAN BE KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION This is a signal telling you that you or others CAN BE HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING HIGHER ROLLOVER RISK

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge® warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

All images are subject to be representative. More detailed information is available online.

Know your Kits: Though there are many ways to provide extra lift for your Jeep®, ORV™ recommends the following lift options as the best way to Lift your Jeep®:

- Poly Spacer Kits:** Available for Coil Spring Jeep® Wranglers from 97-06 and 99-04 Jeep® Grand Cherokees
- Coil Spring Kits:** Available for Jeep® Wranglers from 97-12, 93-98 Jeep® Grand Cherokees and 84-01 Jeep® Cherokees
- Leaf Spring Kits:** Available for Jeep® CJ/Wrangler from 55-95 and 84-01 Jeep® Cherokees

LIFT OPTIONS EXPLAINED:

- Poly Spacer Kits** - Used for small lifts, these low cost lifts are designed for on road/light off road use only and incorporate the factory coil springs. With the addition of spacers, the ride of your Jeep® will be stiffer than original and provides very little articulation when off road. Bump stops (also called blocks) should always be a part of the kit as you will be using the factory springs. Without the bump stops your spring could over compress or in the case of 07-12 Wranglers, the spring could invert inside itself. These situations can cause a rebound rate that is too great causing a potential mishandling situation or damage your suspension. This method of lifting is the low cost/lower performance solution to lifting your Jeep® vehicle.
- Coil Lift Kits** - Used for medium to large lifts, these lifts are designed for on road and moderate to severe off road use. Coil Spring kits provide the best way to give extra lift and still maintain OE ride characteristics. The 2" - 4" kits should offer new springs and extended bump stops as listed above as well as rear track bar bracket/brace to ensure proper centering of the axle and a secure fit. On 4" kits, it is important have front sway bar disconnects. These important disconnects will provide much more articulation when using your Jeep® off road.
- Leaf Spring Kits** - Used for all Jeep® CJ/Wrangler vehicles from 1955-1995, these heavy-duty lifts provide a fairly straightforward lift option. The key to any leaf spring lift is the leaf spring itself and prices will vary greatly depending on quality and features. Key "must-have" features that will provide the best ride include: 1.) Teflon inserts between each leaf. These inserts allow each leaf to move independently creating a better ride both on and off road. 2.) Leaf springs should be held together with roller clips and not cinch clips. This method of securing the leaf springs together is more expensive but dramatically improves the vehicles ride and off road performance. 3.) Make sure your leaf springs have built-in degree wedges to help with pinion angle issues. Plus by having a degree wedge already attached, installation of the kit will be easier and there are no extra parts to purchase.

18415.33 Poly Spacer Kit

18415.31 Coil Lift Kit

18415.20 Leaf Spring Kit

COIL SPRING KITS

All ORV™ springs are constructed of 5160H hot rolled bar, keeps its memory so the spring will not sag.

All ORV™ springs are set to original factory rates. Provides a better ride both on and off road.

All ORV™ coil springs are powder coated, E-coated 5/8" coil for long life and strength.

All ORV™ leaf springs have built in degree wedges to help correct pinion angle.

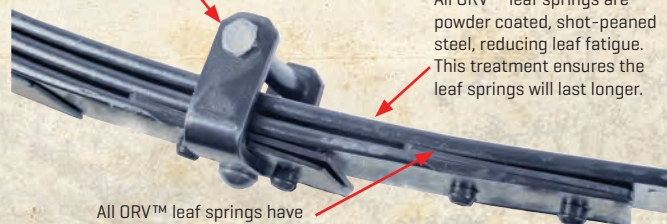

All ORV™ leaf springs are pre-assembled and set to factory flex rates.

POLY SPACER KITS

Coil spring spacers are made from high density polyurethane.

All late model CJ/Wrangler ORV™ leaf springs use a roller clip to improve ride.

All ORV™ leaf springs have Teflon pads in between each leaf for maximum travel and a better ride.

LEAF SPRING KITS

All ORV™ leaf springs are powder coated, shot-peened steel, reducing leaf fatigue. This treatment ensures the leaf springs will last longer.

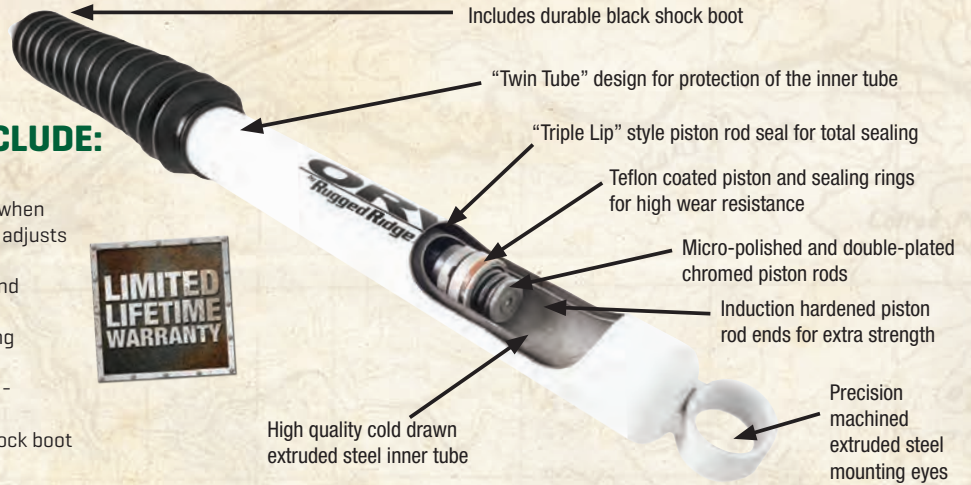

Rugged Ridge® bump stops are firmer than stock stops for more suspension control.

ORV™ SHOCKS

ORV™ only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV™ kits provide a better ride both on and off road. By using an ORV™ lift kit and matching gas shocks, you optimize the suspension's capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll. This is extremely important, as body roll will kick in the ESP sensors on later model Jeeps®, which could shut the vehicle down.

ORV™ SHOCK FEATURES INCLUDE:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV™ specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

ORV™ STEERING STABILIZERS

ORV™ recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV™ Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV™ Hydraulic Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

2007-2012 JEEP® WRANGLER

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-12 Wrangler JK, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 17" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 17" tire.

ORV™ 2.5"-3.5" Coil Spring Lift - With shocks part # 18415.50

- The most complete kit available on the market for JK.
 - Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to factory rates.
 - By using 5160H hot rolled bar, the ORV Springs keep their memory, eliminating any possibility of future sag.
 - Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
 - Each kit includes a rear track bar brace to strengthen the original track bar mount. An ORV™ exclusive!
 - 4-Door JK's will get on average a 2.5" lift. Two door models will get up to a 3.5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].
- ORV™ kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

JK 2.5"/3.5" Lift Kit

ORV™ 4"-5" Coil Spring Lift - With shocks part # 18415.60

- Get off road performance without sacrificing on road ride.
 - Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!
 - Each kit includes a rear track bar brace to strengthen the original track bar mount. A must for off road performance on a JK.
 - Kit includes sway bar disconnects for more articulation off road.
 - ORV™ uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding. This extra heavy-duty design ensures a long life both on and off road.
 - In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
 - 4-Door JK's will get on average a 4" lift. Two door models will get up to a 5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].
 - Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4" or greater lift kit on a 4-Door Wrangler. A new drive shaft will be required on any 2007-12 2-Door Wrangler due to the shorter wheel base.
 - All 4" Kits require a drop pitman arm
- ORV™ kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

JK 4"/5" Lift Kit

ORV Suspension

07-12 Jeep® Wrangler JK/Rubicon, 4WD [2 & 4-Door models]

| | Kit w/o Shocks | Kit w/ Shocks | Max Tire Size HxWxD | Max Wheel Offset | Est. Install Time |
|---|----------------|---------------|---------------------|------------------|-------------------|
| 3.5" Lift 07-12 2-Dr, 2.5" 07-12 4-Dr Jeep® Wrangler | 18401.50 | 18415.50 | 34"x12.5"x16" | 4.5" | 6 Hrs. |
| Lift Kit w/out Shocks JK 07-12 2-door 5 inch, JK 07-12 4-Dr 4 Inch* | 18401.60 | 18415.60 | 35"x12.5"x16" | 4.5" | 8 Hrs |

Note: due to vehicle weight, the 2-Door models may receive an additional 1" lift over 4-Door models

* Will require a drop pitman arm. Sold Separately

18401.50 Kit includes: (4) coil springs, rear track bar bracket, rear bump stop bracket, rear track bar brace, hardware kit

18401.60 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, (2) rear bump stop spacers, front track bar bracket, rear track bar bracket, (2) front double disconnect end links, (2) rear extended sway bar end links, rear track bar brace, hardware kit

CAUTION!
CAUTION: Rugged Ridge® recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at beginning of ORV™ section.

CV EQUIPPED DRIVE SHAFTS FOR 07-12 WRANGLERS

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. Constant Velocity [CV] joints use two U-joints [double cardan style] in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

| CV Equipped Drive Shafts | Part # |
|--------------------------------|----------|
| 07-12 Wrangler, Front 2/4-Door | 16592.22 |
| 07-12 Wrangler, Rear 2-Door | 16592.21 |
| 07-12 Wrangler, Rear 4-Door | 16592.20 |

16592.21 CV Equipped Rear Drive Shaft for 07-12 Wrangler 2-Door

97-2006 JEEP® WRANGLER

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 97-06 Wrangler TJ, 2" spacer lifts are designed for a larger tire than factory and light off road use. The 2" coil kit is designed for a larger tire and moderate off road use. The 4" coil kit is designed for more severe off road use and up to a 34" x 12.5" x 15" tire.

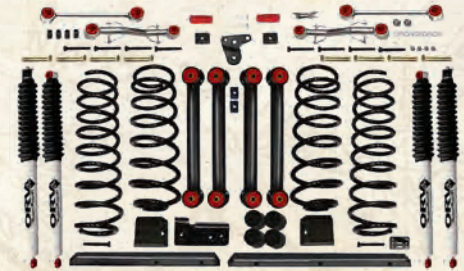

ORV™ Coil Spring Lift Kits Feature:

- Get off road performance without sacrificing on road ride! This kit will provide as close to factory a ride as you can get while providing off road articulation.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to original factory rates. By using 5160H hot rolled bar, ORV™ springs keep their memory eliminating any possibility of future sag.
- By setting the coil springs to factory rates, you get the best on road ride possible and the ability to use a larger tire.
- ORV™ uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding: this extra heavy-duty design ensures a long life, both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- Each 2" Coil Spring Lift Kit includes 1" transfer case lowering brackets. These are not spacers but full-length brackets that actually solidly secure your transfer case. ORV™ uses these brackets rather than spacers as spacers can create flex therefore putting undue stress on the drive line.
- Each 4" Coil Spring Lift Kit includes 1.5" transfer case lowering brackets. These are not spacers but full length brackets that actually "true" your transfer case. ORV™ uses these brackets rather than spacers, as spacers can create flex therefore putting undue stress on the drive line.
- Kit includes two sway bar disconnects for more off road articulation.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 1997-2006 Wrangler/Unlimited.
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry [sold separately].
- All ORV™ Kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer for your glove box!

ORV 2" Poly Spacer for 1997-2006 Wrangler 18415.33

- Low cost kit that provides a small lift for over sized tires
- Each kit contains 4 spacers and four bump stops
- Spacers are made of durable polyurethane for a long life

4" Lift for 2003-06 Wrangler/Rubicon 18415.42

| 97-06 Wrangler, 04-06 Wrangler Unlimited | Kit w/o Shocks | Kit w/ Shocks | Max Tire Size HxWxD | Max Wheel Offset | Est. Install Time |

* Will require a drop pitman arm. Sold separately.

18401.30 Kit includes: (4) coil springs, (4) lower links, track bar relocation bracket, (3) transfer case lowering brackets, hardware kits

18401.40 Kit includes: (4) coil springs, (4) lower links, track bar relocation bracket, (2) transfer case lowering brackets, (2) transmission lowering brackets, hardware kits

18401.31/.32 Kit includes: (4) coil springs, (4) lower links, track bar relocation bracket, (2) transfer case lowering brackets, (2) transmission lowering brackets, hardware kits

18401.41/.42 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, rear track bar relocation bracket, front double disconnect link, rear sway bar end links, (2) transfer case lowering brackets, (2) transmission lowering brackets, hardware kits.

CV EQUIPPED DRIVE SHAFTS

FOR 87-06 WRANGLERS

16592.05

CV Equipped Drive Shafts

| CV Equipped Drive Shafts | Part # |
|--|----------|
| 87-93 Wrangler with up to 3" Lift | 16592.01 |
| 87-93 Wrangler with over 3" Lift | 16592.02 |
| 94-95 Wrangler with up to 3" Lift ** | 16592.03 |
| 94-95 Wrangler with over to 3" Lift ** | 16592.04 |
| 97-06 Wrangler with 2"-6" Lift | 16592.05 |
| 97-06 Wrangler with 3.5"-6" Lift [for Mega Short SYE only] | 16592.06 |

** These drive shafts use -5/8" wide U-Joints, please verify you U-Joint size before ordering.

TRANSFER CASE SLIP YOKE ELIMINATOR KIT

18676.72

The Mega Short SYE [18676.72] is designed to be used in the same lift applications as the other standard SYE kit [2" and up]. The main advantage to the new Mega Short SYE is that it allows for a much longer drive shaft to be used [additional 3"]. This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

Transfer Case Slip Yoke Eliminator Kit

| Transfer Case Slip Yoke Eliminator Kit | Part # |
|--|----------|
| 88-06 Wrangler, 88-01 Cherokee Slip Yoke Eliminator [with NP231 transfer case] *, Kit | 18676.60 |
| 88-06 Wrangler, 88-01 Cherokee Mega Short Slip Yoke Eliminator w/ Vehicle Speed Sensor [w/ NP231 transfer case] *, Kit | 18676.72 |
| 88-06 Wrangler, 88-01 Cherokee, Mega Bearing, Slip Yoke Eliminator Service Component | 18676.74 |
| 88-06 Wrangler, 88-01 Cherokee, Output Shaft Oil Seal, Mega Short Slip Yoke Eliminator | 18676.75 |

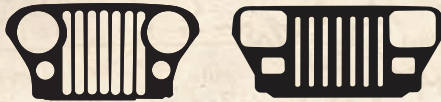

* A CV Driveshaft is required for this conversion kit

WARNING:

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

1955-95 CJ/WRANGLER

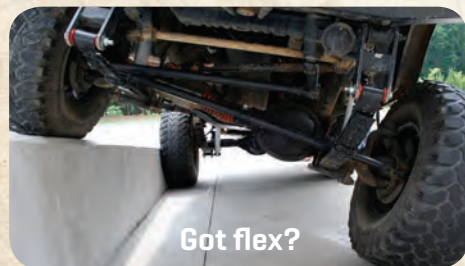

What to Buy:

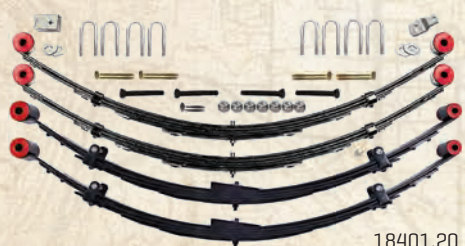

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 1976-95 CJ/Wrangler, the 2" - 2.5" Leaf Spring kits are designed for a tire size up to 31" and moderate off road use. The 1955-95 CJ/Wrangler 4" Leaf Spring kits are designed for more severe off road use and up to a 33" x 12.5" x 15" tire.

ORV™ Leaf Spring Lift for 1955-1995 CJ / Wrangler

- Get off road performance without sacrificing on road ride! These kits provide as close to a factory ride as possible.
- Includes 4 powder coated, shot-peened leaf springs with Teflon inserts and pre-installed degree wedges.
- Each leaf spring has Teflon between each leaf for a factory ride, better performance.
- Pre-installed degree wedges provide ease of installation and no more parts to buy. These wedges help to correct any pinion angle issues that may arise due to the lift.
- By shot-peening the leaves before assembly, it assures that the leaf springs will not sag over time.
- All ORV™ U-bolts are grade-8 and E-coated to ensure they will be able to take off road abuse.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 87-95 Wrangler [see below].
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry [sold separately, see below].
- Note: Actual lift height is dependent on specific Jeep® characteristics and additional parts being put on the vehicle [bumpers, winch, hard tops, soft tops etc.].
- ORV™ kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

| Application | Kit w/o Shocks | Kit w/ Shocks | Max Tire Size-HxWxD | Max Wheel Offset | Est. Install Time |

| Pair, Leaf Spring, ORV Suspension, Shaft Diameter: 5/16-in. Length 50mm | 18382.50 |

ORV Suspension

DROP PITMAN ARMS

Lifting a vehicle takes more than just slapping on taller springs. The stock steering linkage is designed for use with the stock height suspension. The steering linkage angles of a lifted vehicle are more extreme and influenced by suspension travel. This drop pitman arm helps reduce the angle of your drag link and reduce bumpsteer created when a suspension lift is installed.

18006.50

WARNING: WARNING: Look at the beginning of the ORV™ section for important safety information.

| Drop Pitman Arms | Part # |
|--|----------|
| 07-12 Wrangler w/Power Steering, 3.5"-6" of Lift | 18006.55 |

BODY LIFTS FOR 1997-06 WRANGLER

Need some extra clearance for your oversized tires? This all new Rugged Ridge® body lift includes everything you need to fit up to 33" diameter tires. By allowing a taller tire you'll get that extra ground clearance you need when facing off road obstacles.

18303.11 Body Lift Kit, 1997-06 Wrangler

3" Body Lift

| | Part # |
|---|----------|
| 97-06 Wrangler w/ auto, 05-06 6-speed transmission, Kit | 18303.11 |
| 97-04 Wrangler w/ 5-speed, Kit | 18303.10 |

WARNING
HIGHER ROLLOVER RISK

Rugged Ridge® does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge® product to achieve additional lift. See additional product safety information and WARNINGS in the beginning of the ORV™ section.

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE® LIMITED LIFETIME WARRANTY

Your Omix-Ada® / Rugged Ridge® product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada® / Rugged Ridge® / ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge® but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge® suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada® / Rugged Ridge® / ORV™ Limited Warranty does not cover any Rugged Ridge® / ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to:

- Installation damage, alteration, modification or failure to maintain.
- Normal wear and tear [bushings, tie-rod ends, etc.]. Scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Omix-Ada® / Rugged Ridge® / ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current / Rugged Ridge® / ORV™ catalog or the instructions accompanying your Rugged Ridge® /ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada's® option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts [including Rugged Ridge® and ORV™] should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

DRIVETRAIN ENGINEERING PERFECTED

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand!

The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC [the distributor/warrantor of these products] makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 [770-614-6101]. Ultra Axle® reserves the right to: [a.] require proof of purchase as a condition of this Limited Warranty, [b.] make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals, Differential Covers, Differential Cable Lock Kits, Wheel Spacers, Transfer Chain Kits, Yoke Conversion Kits & Hub Conversion Components - **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA® Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes [powder coating, plating, etc.] or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

FRONT AXLE KITS

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA's exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

NOTE: When converting to 30 spline outer axles, 1999 and older models must use the 2000-06 Wrangler brake rotor [Omix 16702.05].

ALLOY USA® DANA 30 MANUAL LOCKING HUB CONVERSION KITS

The Alloy USA® Hub Conversion Kit is designed to upgrade and replace the non-serviceable wheel hubs found on 1984-06 Wrangler and Cherokees. Now you can lock and unlock your front hubs to reduce driveline strain and improve fuel economy! The Deluxe Hub Conversion kit includes a set of Rugged Ridge® Manual Locking Hubs, high tensile strength 27 spline inner and outer Alloy USA® 4340 Chromoly Axle Shafts, 1/2 ton capacity aluminum internal mounting hubs, Alloy USA® X-Joints, machined front brake rotors, bearings, seals and hardware.... everything you need to upgrade your rig and prepare it for the trail. Maximum recommended tire size is 33".

Alloy USA® Grande Hub Conversion Kits Feature:

- Better fuel economy by freewheeling in 2WD mode. Decreases tire wear since unlocked manual hubs rotate more freely.
- Includes beefy corrosion resistant die cast aluminum Rugged Ridge® Manual Locking Hubs.

FRONT & REAR DANA 60 SHAFTS

Our Dana 60 shafts feature the same high strength 4340 Chromoly shafts used in our front axle kits. These heavy-duty shafts are 40% stronger than OE and are made to stand up to abuse. You run a Dana 60 because you wanted the strength, don't let weak 30 spline axles ruin your day. Upgrade to our 35 spline count axles and wheel with confidence. Each Alloy USA® axle is backed by an industry leading 10-year warranty. We use the latest splining technology to produce splines that are stronger than traditional cut splines. Our shafts are heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock.

PERFORMANCE REAR AXLE KITS FOR JEEP®

High tensile strength 4140 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 35% stronger than stock 1040 axles. Alloy USA® uses the latest cold rolled splining technology, to produce splines that are stronger than traditional cut splines. Our shafts are covered by an exclusive 10-year warranty! Rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs. Upgraded spline counts for Jeep® applications: Dana 35 spline upgrades from 27 splines to 30 splines. Dana 44 spline upgrades from 30 splines to 33 and 35 splines.

PERFORMANCE REAR AXLE SHAFTS

Rule #1: If it broke it needed to be upgraded. For less than the cost of an original replacement axle shaft you can upgrade to an Alloy USA® performance shaft. Each axle is heat-treated, tempered and induction hardened to have twice the tensile strength than stock and is up to 35% stronger. We use the latest splining technology, to produce splines that are stronger than traditional cut splines.

**Jeep® Axle Shafts, Sold Individually.

PERFORMANCE REAR AXLE KITS FOR CARS/TRUCKS

Why do you need Alloy USA® axle shafts? Because horsepower is useless if you can't get it to the ground. Our performance rear axle kits feature 1541H alloy steel and have been propelling cars to victory for nearly a decade. 1541H is a high carbon steel that contains significantly more manganese than 1040 steel found in your stock axles. This increases ductility and translates the ability to absorb stresses. Our heat-treated and induction hardened shafts have twice the tensile strength than stock and are up to 35% stronger. We use the latest cold spline rolling technology to produce splines that are stronger than traditional cut splines. No cuts means no edges, which create stress points and can lead to fracturing. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized or natural finish. Our rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs.

PERFORMANCE REAR AXLE SHAFTS FOR CARS/TRUCKS

Axle shafts sold individually. Wheel bearings, seals and wheel studs available separately.

Don't just replace your axle shafts, upgrade them. For less than the cost of an original replacement axle shaft you can upgrade to an Alloy USA® performance shaft. Our axles are made from 1541H or 4140 steel depending on the application. Each axle is heat-treated and induction hardened to have twice the tensile strength than stock and is up to 35% stronger. We use the latest cold spline rolling technology to produce splines that are stronger than traditional cut splines. No cuts means no edges which create stress points and can lead to fracturing. Each shaft is backed by our exclusive 10-year warranty.

JEEP® RING & PINIONS

These affordable high strength gear sets come in all the popular ratios to satisfy everyone's gearing needs. Oversized tires require higher ring & pinion ratios to restore performance. Made from high quality 8620 forgings and Gleason gear cutting technology, these gears are made to last. Complete installation kits are available separately to complete the job. Exclusive 5-year warranty. Available in 3.55, 3.73, 4.10, 4.56, 4.88, 5.13 and 5.38 ratios.

HD DIFFERENTIAL COVERS

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

WHEEL SPACERS

- Moves your wheels out to help fit wider tires-creates extra stability.
- Hub centric design to assure wheel balance.
- Constructed of durable 6061T6 aluminum for long life, extra strength and corrosion resistance.
- Available in 1.25" to 1.5" widths for today's most popular wheel sizes.
- Each pair includes pre-installed grade 8 wheel studs, 10 lug nuts and thread locker.
- Wheel adaptors convert current bolt patterns to alternate bolt patterns for use with different wheels.
- Wheel Spacers and Wheel adaptors are sold in pairs.

DIFFERENTIAL CABLE LOCK KITS

The Alloy USA® Differential Cable Lock Kit is a permanent replacement for the failure prone OE vacuum disconnect system. The kit allows you to engage and lock the front axle from inside the cab. A 1inch pull of the cable ensures you will have four wheel drive when you need it for as long as the transfer case is engaged. The Differential Cable Lock Kit is more cost effective and easier to install than a locker or posi-trac system. Backed by a three year warranty.

TRANSFER CASE CHAIN

If you're servicing your transfer case and your OE chain has more than 60,000 miles on it, it is time for a replacement. Why replace your chain when can upgrade it? Our advanced Round Pin technology allows the chain to double back on itself and offer greater articulation than the standard rocker pin design. We use high tensile strength steel to ensure that your TC chain endures peak loads under heavy operating conditions repeatedly over time. Backed by an industry leading three year warranty.

| Transfer Case Chain | Part # |

| Transfer Case Chain, NP231 and NP233, 1" Width w/ 30 Links, Jeep Wrangler [YJ] 87-95, [TJ] 97-06, Cherokee [XJ] 84-01, Grand Cherokee [ZJ] 93-97 NEW | 11650 |
| Quadratrac Transfer Case Chain, 2 5/8" Width w/ 48 Links, CJ7 76-79 w/ Automatic Transmission NEW | 11651 |

TRANSFER CASE SLIP YOKE ELIMINATOR KIT

This kit is a MUST if you installed a 2" or taller suspension lift in your 1988-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1988 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit [SYE] will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

11400 Slip Yoke Eliminator Kit

WARNING:

WARNING: OEM slip yokes on 1988-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge® or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

LOCK RIGHT® LOCKERS

The Powertrax® Lock-Right® Lockers performance is equal to a solid spool axle, yet automatically unlocks to allow full differentiation in turns. The locker also reduces the excessive noise, tire wear, and drivetrain damage associated with other lockers. Powertrax lockers replace the spider gears in your differential carrier without affecting your ring and pinion settings. The whole job can be done in your driveway with common hand tools in a couple of hours. A carrier is not included. Whether it be snow, sand, mud, ice, etc... the LOCK-RIGHT will give you the traction you need.

RING & PINION

Precision Gear® understands the rigors of racing. Horsepower is useless unless you can get it to the ground. Most companies providing ring and pinions today look for the cheapest source without consideration of quality. They “stand behind” their product until the day you buy it and install it on your car. At Precision Gear® each ring and pinion we sell is backed by an exclusive five year warranty! Our gears are made from high quality 8620 forgings and Gleason gear cutting technology because our gears are made to last!

For additional product listings and more information visit www.precisiongear.com.

Master Installation Kits:

Precision Gear® understands the complexity of rebuilding your differential. To help solve this difficulty and eliminate multiple trips to the parts store we have included everything you need to complete your ring & pinion installation and get you back on the road quick all in one great kit.

Master Install Kit Includes:

- Carrier Bearings
- Pinion Bearings
- Pinion Nut
- Pinion Seal
- Preload Shims or Crush Collar
- Pinion Shims
- Gasket or RTV
- Marking Compound
- Differential Shims (where applicable)
- Locktite
- Oil Slingers (where applicable)
- Ring Gear Bolts (where applicable)

* Ring & Pinions and Installation Kits are sold separately.

Alloy USA & Precision Gear

The following section contain all the parts you need for restoring & repairing your Jeep®! From 1941 to current, Omix® has you covered. If you know Jeep, you know Omix®!

OFFICIAL LICENSED PRODUCT

MOPAR, JEEP, DODGE, HEMI, PLYMOUTH, RAM, and CHRYSLER vehicles, images and logos are trademarks of Chrysler Group LLC used under license to Omix-Ada®. © Chrysler Group LLC 2011

AUTHENTIC RESTORATION PRODUCT

MOPAR, JEEP, DODGE, HEMI, PLYMOUTH, RAM, and CHRYSLER vehicles, images and logos are trademarks of Chrysler Group LLC used under license to Omix-Ada®. © Chrysler Group LLC 2011

Look for the star to check out all the Mopar Licensed Products

This emblem is Mopar's "Seal Of Approval" that the product meets their standards and is truly a licensed product.

Parts identified with the Mopar Authentic Restoration Product emblem are the only parts in this catalog officially authorized and licensed by Chrysler Group LLC.

A Few Words About Product Safety: To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices", "Warnings" and "Cautions". This information alerts you to potential hazards that could hurt you or others.

NOTICE

This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING

This is a signal telling you that **you CAN be KILLED or SERIOUSLY HURT if you don't follow the Warning.** The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION

This is a signal telling you that **you or others CAN be HURT if you don't follow the instruction.** The Caution includes information about how you can avoid those risks.

! WARNING

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. As the owner of a modified suspension vehicle you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your off-road capabilities against how the vehicle may actually be used off-road and on-road.

It is not practical or possible to warn about all hazards associated with your Jeep® restoration or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions and warnings and the instructions and warnings accompanying your aftermarket product. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off-road damage. Restoration parts are direct replacements of original components and are not designed or warranted as meeting current safety standards (including FMVSS).

Always wear seat belts and/or appropriate off-road restraints, reduce your speed, tread lightly® and safely enjoy your off-road vehicle.

A FEW WORDS ABOUT PARTS AVAILABLE FROM THIS CATALOG.

PARTS IDENTIFIED AS MOPAR® APPROVED AUTHENTIC RESTORATION PRODUCTS™ REFLECT THAT THE PRODUCT IS LICENSED BY MOPAR® FOR MANUFACTURE BY THIRD PARTIES AND MEETS MOPAR® STANDARDS. Replacement Body Tubs, Panels & Parts for Jeep®

- » Replace Steel Body Tubs and Body Kits from 1941 - 1995
- » Replacement Body Panels from 1941 - 2012
- » Jeep®/Willys Licensed Body Tubs, Kits & Panels Available!
- » Body Tubs are completely assembled, and primed. Ready to be shipped to your door.
- » 16 gauge steel used on body tubs for all side and tail panels. In most cases it is thicker than original!
- » 18 Gauge steel used on body tubs in the front and rear flooring, all mounting brackets, top cowl assembly, and wheel housings.
- » Manufactured using a seven-step metal preparation process, including:
 - A 5 bath dip to totally eliminate rust, dirt and grease.
 - A phosphate and acid rinse step to ensure corrosion resistance and proper adhesion of the primer.
 - New primer formula and application method that is designed for a smooth and even finish.
- » Includes all major factory mounting locations, including channels for body mounting.
- » Dash and shifter tunnels left blank in some applications with varied OE locations.

REBUILT ENTIRELY FROM PARTS LISTED IN THE CATALOG!

Our body panels are more than just parts; they are built with a legacy and heritage in mind. No other supplier can match Omix's passion and dedication to quality. This is why we have been authorized to use the "MOPAR Authentic Restoration" and "MOPAR Official Licensed Product" logos for more than 30 licensed body tubs and panels we produce. We take pride in being one of the few manufacturers strong enough to stand behind the legendary Jeep® name.

Our Body Tub is a completely assembled body shell from the firewall to the tail light panel. Fitted, welded and assembled together with the cowl panel, rear wheel housings, dash panel, and glove box already in place. Or you can upgrade to a Body Tub Kit. It features the same great body tub, [2] front fenders, windshield frame, hood and tailgate. It is the ultimate restoration accessory, primed and shipped to your door.

No more grinding, welding, or cutting out rusty panels, just to struggle as you fight to line up the new part. All the hard work is done for you. Primed and nearly ready for paint. The hardest part will be picking out the new paint color. How quickly can you say Olive Drab?

Of course the body tubs are not completely finished, there will still be some fitting and working to make everything line up. Just the same; as if you were working with a 50 year old body tub. But our tubs are as close as you can get today to a body off the original Toledo assembly line. Why else would MOPAR authorize us to use the "Willys" and "Jeep" scripts on the officially licensed bodies and panels we produce?

Body kits, body tubs and body parts are sold "As Is". See Limited Warranty Information inside back cover. Drilling, cutting and other modifications may be required for proper installation. Claims for freight damage must be placed with freight carriers.

Jeep® Licensed Items

Nothing represents a Jeep® more than its very name! It's just not the same unless, well, it says "Jeep"™! The visual appearance of the name stands for a legacy and history that no other vehicle in the world can match. Now you can return your Jeep® to its original markings with these stamped Hoods, Tailgates, Back Panels, Side Panels, Toolbox, Body Tubs, Valve Covers, Grilles and Dash Pads!

You won't break these covers, we guarantee it, if you do, we'll replace them. Made of 3/8 inch cast steel, painted black inside and out, these heavy duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These covers even have reinforced protection for the fill plug. All mounting hardware and instructions are included.

OMIX-ADA, Inc.

For restoration purposes this distributor has been crafted to look like the original, but on the inside it's a whole new story. The troublesome points have been replaced with a state of the art electromagnetic pickup and a built-in electronic control module. With the hookup of the two simple wires (installation instructions included), this distributor will improve the performance and driveability of any 12-volt 134cl, or 226 cl engine. No more fooling around in trying to get the points adjusted to the correct setting. Just drop in, plug in and go. (Will not work with 6-volt models and is not original for M38 or M38A1). For replacement parts specifically for this distributor, order module #17252.05, cap #17244.02, and rotor 17246.02.

S. Temperature Sensors

| Part# | Part# |
|----------|--|
| 17218.02 | 1972-1983 CJ5 (2.5L, 3.8L, 4.2L & 5.0L), 1976-1986 CJ7 (2.5L, 3.8L, 4.2L & 5.0L), 1981-1986 CJ8 (2.5L, 3.8L, 4.2L & 5.0L), 1972-1985 Cherokee / Grand Wagoneer (SJ) (4.2L, 5.9L, 6.6L), Temperature Sensor |
| 17218.03 | 1987-1990 Wrangler (2.5L & 4.2L), 1986-1991 Cherokee / Grand Wagoneer (SJ) (4.2L, 5.9L, 6.6L), 1987-1990 Cherokee (2.1L & 2.5L), Temperature Sending Unit (With Temp Gauge) |
| 17218.04 | 1992-1995 Wrangler (2.5L & 4.2L), Temperature Sensor (With Temp Gauge) |
| 17217.01 | 1988-1990 Wrangler (4.2L) 1991-1995 Wrangler (2.5L), 1991-1997 Wrangler (4.0L), 1991-1996 Cherokee (2.5L & 4.0L), Temperature Sending Unit* |
| 17218.06 | 1997-2006 Wrangler (2.4L, 2.5L & 4.0L), 1997-2001 Cherokee (2.5L & 4.0L), 1997-2004 (4.0L & 4.7L) Grand Cherokee, 2002-2007 Liberty, Temperature Sensor |
| 17217.03 | 1984-1990 Cherokee (2.5L & 4.0L), Temperature Sensor |
| 17218.05 | 1992-1996 Cherokee (2.5L & 4.0L), 1993-1996 Grand Cherokee (4.0L), 1994-1995 Wrangler (2.5L & 4.0L), Temperature Sensor (With Warning Light)** |
| 17217.02 | 1993-1998 Grand Cherokee (5.2L), 1996-Grand Cherokee (4.0L), 1998 Grand Cherokee (5.9L), Temperature Sending Unit (With Temp Gauge) |

* Without Temperature Gauge
 ** Located in Cylinder Head

T. Intake Temperature Sensors

| Part# | Part# |
|----------|--|
| 17221.01 | 1990-1995 Wrangler (4.0L), 1991-1995 Wrangler (2.5L), 1991-1996 Cherokee (2.5L & 4.0L), Intake Temperature Sensor |
| 17221.02 | 1997-2002 Wrangler (2.5L), 1997-2005 Wrangler (4.0L), 1997-2000 Cherokee (2.5L), 1997-2001 Cherokee (4.0L), 1997-2004 Grand Cherokee (4.0L), Intake Temperature Sensor |
| 17221.03 | 2003-2006 Wrangler (2.4L), 2006 Wrangler (4.0L), 2001-2004 Grand Cherokee (4.7L), 2005-2010 Grand Cherokee (3.7L), 2003-2004 Liberty (3.7L), Intake Temperature Sensor |

U. Throttle Position Sensors

| Part# | Part# |
|----------|---|
| 17224.01 | 1987-1990 Wrangler (2.5L), 1986-1990 Cherokee (2.5L), Throttle Position Sensor |
| 17224.02 | 1990-1995 Wrangler (4.0L), 1991-1995 Wrangler (2.5L), 1991-1996 Cherokee (2.5L & 4.0L), 1993-1996 Grand Cherokee (4.0L & 5.2L), Throttle Position Sensor |
| 17224.04 | 1997-2001 Wrangler (2.5L & 4.0L), 1997-2000 Cherokee (2.5L), 1997-2001 Cherokee (4.0L), 1997-2001 Grand Cherokee (4.0L), Throttle Position Sensor NEW |
| 17224.06 | 2002-2006 Wrangler (4.0L), 2003-2006 Wrangler (2.4L), 2002-2004 Grand Cherokee (4.0L), 2005-2006 Grand Cherokee (3.7L), 2002-2005 Liberty (2.4L), 2002-2006 Liberty (3.7L), Throttle Position Sensor NEW |
| 17224.03 | 1997-1998 Grand Cherokee (5.2L), 1998 Grand Cherokee (5.9L), Throttle Position Sensor |
| 17224.05 | 1999-2007 Grand Cherokee (4.7), Crankshaft Positions Sensor NEW |

V. Camshaft Position Sensors

| Part# | Part# |
|----------|--|
| 17257.03 | 2003-2006 Wrangler (2.4L), 2002-2005 Liberty (2.4L), Camshaft Sensor |
| 17257.01 | 1999-2004 Grand Cherokee (4.0L), Camshaft Position Sensor |
| 17257.02 | 1999-2004 Grand Cherokee (4.7L), 2005-2007 Grand Cherokee (3.7L, 4.7L & 5.7L), 2002-2007 Liberty (3.7L), Camshaft Position Sensor NEW |

W. Crankshaft Position Sensors

| Part# | Part# |
|----------|---|
| 17220.03 | 1991-1992 Wrangler (2.5L & 4.0L), 1991-1992 Cherokee (2.5L & 4.0L), Crankshaft Position Sensor NEW |
| 17220.02 | 1993-1995 Wrangler (2.5L With AT or MT), 1993-1995 Wrangler (4.0L With MT), 1993-1996 Cherokee (4.0L), Crankshaft Positions Sensor NEW |
| 17220.07 | 1993-1995 Wrangler (4.0L), 1994-1996 Grand Cherokee (4.0L), Crankshaft Positions Sensor (With Automatic Transmission) NEW |
| 17220.13 | 1997-2002 Wrangler (2.5L With MT or AT), 1997-2004 Wrangler (4.0L With MT), 1997-2000 Cherokee (2.5L), Crankshaft Position Sensor NEW |
| 17220.05 | 1997-2002 Wrangler (4.0L), 1997-2004 Grand Cherokee (4.0L), Crankshaft Positions Sensor (With Automatic Transmission) NEW |
| 17220.04 | 2003-2006 Wrangler (4.0L With AT), 2009-2011 Wrangler (3.8L with MT), Crankshaft Position Sensor NEW |
| 17220.12 | 1997-2001 Cherokee (4.0L), Crankshaft Position Sensor |
| 17220.01 | 1994-1996 Grand Cherokee (5.2L), Crankshaft Position Sensor |
| 17220.14 | 1997-1998 Grand Cherokee (5.2L), 1998 Grand Cherokee (5.9L), Crankshaft Position Sensor |
| 17220.08 | 1999-2009 Grand Cherokee (4.7L), Crankshaft Position Sensor NEW |
| 17220.10 | 2002-2004 Liberty (2.4L), Crankshaft Positions Sensor NEW |
| 17220.09 | 2002-2003 Liberty (3.7), Crankshaft Position Sensor |
| 17220.11 | 2004-2007 Liberty (3.7), Crankshaft Position Sensor NEW |

Y. Knock Sensors

| Part# | Part# |
|----------|--|
| 17223.50 | 1990-1995 Wrangler (4.0L), 1996-1996 Cherokee (4.0L), 1993-1996 Grand Cherokee (4.0L), Knock Sensor NEW |
| 17223.51 | 2003-2007 Grand Cherokee (4.7L), Knock Sensor |
| 17223.52 | 2007-2011 Wrangler (3.8L), 2007-2011 Compass (2.0L, 2.4L & 3.5L), 2007-2011 Patriot (2.0L, 2.4L & 3.5L), 2005-2010 Grand Cherokee (5.7L), 2006-2010 Grand Cherokee (6.1L), Knock Sensor NEW |

Z. Map Sensors

| Part# | Part# |
|----------|--|
| 17223.01 | 1987-1995 Wrangler (2.5L, 4.0L & 4.2L), 1986-1995 Cherokee (2.5L), 1987-1995 Cherokee (4.0L), Map Sensor |
| 17223.02 | 1997-2002 Wrangler (2.5L & 4.0L), 1997-2001 Cherokee (2.5L & 4.0L), 1993-1996 Grand Cherokee (4.0L) MAP Sensor |
| 17223.03 | 1993-1996 Grand Cherokee (5.2L), Map Sensor |

P. 1993-1998 Grand Cherokee Suspension Components

| Part# | Component |
|----------|--|
| 18203.60 | 1993-1998 Grand Cherokee, Shock Absorber, Front * |
| 18203.61 | 1993-1998 Grand Cherokee, Shock Absorber, Front (With Up Country Option) |
| 18203.62 | 1993-1998 Grand Cherokee, Shock Absorber, Rear * |
| 18203.63 | 1993-1998 Grand Cherokee, Shock Absorber, Rear (With Up Country Option) |
| 18280.02 | 1993-1998 Grand Cherokee, Upper Control Arm (Front) |
| 18282.01 | 1993-1998 Grand Cherokee, Upper Control Arm Bushing (Front) |
| 18280.05 | 1993-1998 Grand Cherokee, Lower Control Arm (Front) |
| 18282.02 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Front), Front Position |
| 18207.04 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Front), Front Position, Clevite Brand |
| 18282.03 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Front), Rear Position |
| 18207.07 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Front), Rear Position, Clevite Brand |
| 18282.04 | 1993-1998 Grand Cherokee, Upper Control Arm (Rear) |
| 18282.05 | 1993-1998 Grand Cherokee, Upper Control Arm Bushing (Rear) |
| 18207.05 | 1993-1998 Grand Cherokee, Upper Control Arm Bushing (Rear), Clevite Brand |
| 18282.06 | 1993-1998 Grand Cherokee, Lower Control Arm (Rear) |
| 18282.07 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Rear) |
| 18207.06 | 1993-1998 Grand Cherokee, Lower Control Arm Bushing (Rear), Clevite brand |
| 18280.11 | 1993-1996 Grand Cherokee, Sway Bar End Link (Front), LH or RH |
| 18282.08 | 1997-1998 Grand Cherokee, Sway Bar End Link (Front), LH or RH |
| 18280.12 | 1993-1998 Grand Cherokee, Sway Bar End Link Bushing (Front), LH or RH |
| 18205.04 | 1993-1998 Grand Cherokee, Track Bar (Front) |
| 18205.05 | 1993-1998 Grand Cherokee, Adjustable Track Bar (Front) |
| 18282.10 | 1993-1998 Grand Cherokee, Coil Spring (Front), Each |
| 18282.11 | 1993-1998 Grand Cherokee, Coil Spring (Rear), Each |

Q. 1999-2010 Grand Cherokee Suspension Components

| Part# | Component |
|----------|---|
| 18203.67 | 1999-2004 Grand Cherokee, Shock Absorber, Front |
| 18203.68 | 1999-2004 Grand Cherokee, Shock Absorber, Rear |
| 18205.06 | 1999-2004 Grand Cherokee, Track Bar (Front) |
| 18283.01 | 1999-2004 Grand Cherokee, Coil Spring (Front), Each |
| 18283.02 | 1999-2004 Grand Cherokee, Coil Spring (Rear), Each |
| 18283.03 | 1999-2004 Grand Cherokee, Sway Bar End Link (Front), LH or RH |
| 18233.04 | 1999-2004 Grand Cherokee, Sway Bar End Link (Rear), LH or RH |
| 18283.09 | 1999-2004 Grand Cherokee, Sway Bar Bushing (Front), LH or RH |
| 18283.08 | 1999-2004 Grand Cherokee, Sway Bar Bushing (Rear), LH or RH |
| 18283.05 | 1999-2004 Grand Cherokee, Upper Control Arm Bushing (Rear) |
| 18283.06 | 1999-2004 Grand Cherokee, Lower Control Arm Bushing (Front or Rear) |
| 18283.07 | 1999-2004 Grand Cherokee, Upper Control Arm Bushing (Front) |
| 18283.05 | 2002-2007 Liberty, Upper Control Arm Bushing (Rear) |
| 18037.04 | 1999-2004 Grand Cherokee, Upper Ball Joint (Rear) NEW |
| 18203.26 | 2005-2010 Grand Cherokee, Shock Absorber, Front NEW |
| 18203.27 | 2005-2010 Grand Cherokee, Shock Absorber, Rear NEW |
| 18282.20 | 1999-2004 Grand Cherokee, Upper Control Arm (Front) NEW |
| 18282.21 | 1999-2004 Grand Cherokee, Lower Control Arm (Front) NEW |
| 18282.22 | 1999-2004 Grand Cherokee, Lower Control Arm (Rear) NEW |
| 18282.24 | 2005-2010 Grand Cherokee, Upper Control Arm (Front) NEW |
| 18282.25 | 1999-2004 Grand Cherokee, Upper Control Arm (Rear) NEW |
| 18282.26 | 2005-2010 Grand Cherokee, Lower Control Arm (Front), RH NEW |
| 18282.27 | 2005-2010 Grand Cherokee, Lower Control Arm (Front), LH NEW |
| 18283.04 | 1999-2004 Grand Cherokee, Sway Bar End Link (Rear), LH or RH NEW |

| Part# | Component |
|----------|--------------|
| 18283.01 | [Q] 18283.01 |
| 18203.53 | [R] 18203.53 |
| 18265.12 | [T] 18265.12 |
| 18284.02 | [U] 18284.02 |
| 18206.01 | [S] 18206.01 |

R. 2002-2007 Liberty Suspension Components

| Part# | Component |
|----------|---|
| 18203.53 | 2002-2007 Liberty, Shock Absorber (Strut), Front NEW |
| 18203.54 | 2002-2007 Liberty, Shock Absorber, Rear NEW |
| 18283.10 | 2002-2003 Liberty, Lower Control Arm Bushing (Rear), Body To Control Arm NEW |
| 18283.11 | 2002-2003 Liberty, Lower Control Arm Bushing (Rear), Control Arm To Axle NEW |
| 18283.12 | 2004-2007 Liberty, Lower Control Arm Bushing (Rear), Body To Control Arm NEW |
| 18283.13 | 2004-2007 Liberty, Lower Control Arm Bushing (Rear), Control Arm To Axle NEW |

S. Degree Wedges

| Part# | Component |
|----------|--|
| 18206.01 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, 1987-1995 Wrangler, Pinion Angle Shims [6°], Aluminum |
| 18206.02 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, 1987-1995 Wrangler, Pinion Angle Shims [8°], Aluminum |

T. Heavy Duty Shackle Kits

| Part# | Component |
|----------|---|
| 18265.01 | 1959-1975 CJ5, 1959-1975 CJ6, Shackle Kit, Without Bushings, Front or Rear, Heavy Duty |
| 18265.02 | 1959-1975 CJ5, 1959-1975 CJ6, Shackle Kit, Greasable, Without Bushings, Front or Rear, Heavy Duty |
| 18265.03 | 1959-1975 CJ5, 1959-1975 CJ6, Shackle Kit, Black Bushings, Front or Rear, Heavy Duty |
| 18265.04 | 1959-1975 CJ5, 1959-1975 CJ6, Shackle Kit, Red Bushings, Front or Rear, Heavy Duty |
| 18265.05 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit, Without Bushings, Front, Heavy Duty |
| 18265.09 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit, Without Bushings, Rear, Heavy Duty |
| 18265.06 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Without Bushings, Front, Heavy Duty |
| 18265.10 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Without Bushings, Rear, Heavy Duty |
| 18265.07 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Black Bushings, Front, Heavy Duty |
| 18265.11 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Black Bushings, Rear, Heavy Duty |
| 18265.08 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Red Bushings, Front, Heavy Duty |
| 18265.12 | 1976-1983 CJ5, 1976-1986 CJ7, 1981-1986 CJ8, Shackle Kit (Greasable), Red Bushings, Rear, Heavy Duty |
| 18265.13 | 1987-1995 Wrangler, Shackle Kit, Without Bushings, Front, Heavy Duty, Provides 1" Of Lift |
| 18265.17 | 1987-1995 Wrangler, Shackle Kit, Without Bushings, Rear, Heavy Duty, Provides 1" Of Lift |

SURPLUS

CHEROKEE - CJ - WRANGLER

The legend of the "Jeep" in a crate has been around for years. Nobody has been able to prove this legend until now. Hundreds of surplus crates containing CJ - Cherokee - and even Wrangler parts from all over the globe, have been sourced and brought to our warehouse. Each crate contains just one piece to a puzzle of a thousand parts that make up any number of Jeep® systems or even complete vehicles.

JEEP CHEROKEE (RHD)

We have thousands of OE high quality factory fresh replacement parts for your 1984-96 Jeep® Cherokee. These crates were packed at the Toledo factory in 1996 for the export of 288 Cherokees to be assembled in an overseas market. All items were packed in bulk and have been sealed in their crates for the past ten years. All parts look like the day they came off the assembly line here in the U.S. and Canada. All of the surplus parts were either manufactured here in the States or in Canada and are of true OE quality. Looking for that replacement axle assembly? We have it. Looking for that small bolt or fastener that's just not stocked anymore? We have it. If it was made for the first generation Cherokees, then odds are we have what you are looking for.

CJ & WRANGLER SURPLUS

As with the Cherokee stock we have acquired a large number of crates containing many CJ and Wrangler components. The crates are being opened and new stock is being readied for sale daily. Items range from transmissions to mirrors and many more items you will find listed in the following pages of this catalog. For complete listing, please visit our website.

Please keep in mind that even though there is a large supply of these surplus parts, quantities are limited. When the part you need sells out, it's gone for good. For this reason, we are selling on a first come, first serve basis.

OMIX-ADA, Inc.

R112 REPLACEMENT PARTS

Surplus

CHRYSLER-JEEP® TRANSMISSIONS

The following transmissions were originally supplied for 1996 export Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

AX5 MANUAL TRANSMISSION

Used with Cherokee 2.5L 4 cylinder engine.

S-4810179

- Jeep® models that used the AX5 manual transmission
- 1994-96 Cherokee with 2.5L 4 cylinder engine
- 1984-93 Cherokee with 2.5L 4 cylinder engine [may require modifications]
- 1987-98 Wrangler with 2.5L 4 cylinder engine [may require modifications]

AW4 AUTOMATIC TRANSMISSION

Used with 4.0L High Output engines, and has a 23 spline output shaft. Gear ratios were 2.80, 1.53, 1.00, and .75

S-52119156

- Jeep® models that used the AW4 automatic transmission
- 1991-96 Cherokee [XJ], Comanche pick-ups [MJ] 6 cylinder
- 1993 Grand Cherokee [ZJ] 6 cylinder

32RH AUTOMATIC TRANSMISSION

with 23-spline output used with 4.0L 6 cylinder engines.

This automatic transmission was originally supplied for 1994-96 export Wrangler with 4.0L 6 cylinder engines, but can be used for any Jeep® application where part number 52118024 was installed by the factory.

- Jeep® models that used the 32RH automatic transmission
- Jeep® part number S-52118024
- 1992-95 Wranglers with 4.0L 6 cylinder engine
- 1996 Export Wrangler with 4.0L 6 cylinder engine

S-52099310

CHRYSLER-JEEP® TRANSFER CASES

The following transfer cases were originally supplied for 1996 export Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

NP231 (S-52099310) CHAIN DRIVE TRANSFER CASE

S-52098358

For 2.5L 4 cylinder with manual transmissions. Has a 21-spline input, and a 1.2" short shaft.

- Jeep® models that used the NP231 21-spline transfer case.
- Any 4 cylinder Jeep with an AX4, or AX5 manual transmission
- Any 4 cylinder Jeep with an AW4 up to 1990 with 21-spline output.

NP231 (S-52098358) CHAIN DRIVE TRANSFER CASE

For 4.0L 6 cylinder with manual transmissions, 23-spline input, [1.2" short shaft].

- Jeep® models that used the NP231 23-spline transfer case with manual transmission and some automatics
- Any 6 cylinder Jeep® equipped with a 1989-94 AX15
- Any 6 cylinder Jeep® equipped with an AW4 after 1990, 23-spline output

NP231 (S-52098360) CHAIN DRIVE TRANSFER CASE

For 4.0L 6 cylinder with automatic transmissions, 23-spline input, [2.1" long shaft].

S-52098360

- Jeep® models that used the NP231 23-spline transfer case with automatic transmission and some manual transmission
- Any 6 cylinder Jeep® equipped with a 1996-01 AX15
- Any 6 cylinder Jeep® equipped with a 31RH or 32RH automatic

ALL SURPLUS EQUIPMENT IS OF A LIMITED SUPPLY AND WILL BE SOLD ON A FIRST COME FIRST SERVE BASIS ONLY.

S-52069795

The following axle assemblies were originally supplied for 1996 export right hand drive Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

S-52069795 DANA 35 REAR AXLE ASSEMBLY with 3.54 gears

S-52069381

Jeep® models that can use the Dana 35 axle.

- 1984-01 Jeep Cherokee
- Comanche pick-up
- Any Wrangler or Grand Cherokee with rear leaf spring design [some modifications required].

S-52069201

Axles come with leaf spring mounting perches

S-52069381 Chrysler 8.25 rear axle assembly w/ 4.10 gears w/ Track-Lok

S-52069200

Jeep® models that can use the 8.25 rear axle.

- 1984-01 Jeep Cherokee
 - Comanche pick-up
 - Any Wrangler or Grand Cherokee with rear leaf spring design.
- Axles come with leaf spring mounting perches

S-52098731

S-52098744

S-53005541

S-52087831

S-52001124

S-52000229

The front axle assembly was exported as a RHD unit but can be used domestically w/ modifications.

RHD = right hand drive vehicle.

S-52069201 High Pinion Dana 30 front assembly with 4.10 gears.

RIGHT HAND DRIVE (RHD)

S-52069200 High Pinion Dana 30 front assembly with 3.54 gears.

RIGHT HAND DRIVE (RHD)

Jeep® models that had a coil spring Dana 30 front axle.

1994-01 [RHD] Jeep Cherokee [XJ]

Note: these front axle assemblies can be modified to work w/ other front applications (LHD) but will require some cutting and rewelding.
